*cal Aid* Poultrice of mashed bulbs applied for boils and painful bruises. *Orthopedic Aid* Poultrice of mashed bulbs applied to painful bruises and sprains. *Poison* Root considered poisonous. (41:321) **Montana Indian** *Analgesic* Poultrice of cooked, mashed bulbs applied to strain and bruise pains. *Antirheumatic (External)* Poultrice of mashed bulbs applied for rheumatism. *Dermatological Aid* Poultrice of cooked, mashed bulbs applied to boils. (19:27) **Okanagan-Colville** *Poison* Bulbs considered extremely poisonous. (188:50) **Okanagon** *Antirheumatic (External)* Bulbs mashed and used for rheumatism. (125:37) **Paiute** *Analgesic* Poultrice of bulb used for rheumatic pains. *Antirheumatic (External)* Poultrice of bulb used for rheumatic pains. *Burn Dressing* Poultrice of bulb used for burns. *Dermatological Aid* Poultrice of bulb used for swellings. (180:149, 150) *Poison* Seeds and roots considered a deadly poison if eaten by humans or horses. (111:54) *Snakebite Remedy* Poultrice of bulb used for rattlesnake bites. (180:149, 150) **Paiute, Northern** *Antirheumatic (External)* Poultrice of roasted, mashed bulbs applied to swollen parts or used for rheumatism. (59:128) **Pomo, Kashaya** *Poison* Plant considered poisonous. (72:30) **Shuswap** *Orthopedic Aid* Poultrice of plant applied to sore legs. *Poison* Plant considered poisonous. (123:55) **Squaxin** *Emetic* Plant sometimes used as a violent emetic. (79:23) **Thompson** *Antirheumatic (External)* Bulbs mashed and used for rheumatism. (125:37) *Orthopedic Aid* Mashed bulbs rubbed on broken bones to help them heal more quickly. (187:133) **Yuki** *Poison* Bulbs considered poisonous. (49:94)

- **Food—Karak** *Unspecified* Bulbs used for food. (6:64)

- **Other—Okanagan-Colville** *Hunting & Fishing Item* Mashed bulbs used as an arrow poison. (188:50)

**Zingiberaceae**, see *Curcuma*, *Zingiber*

**Zingiber**, Zingiberaceae

**Zingiber zerumbet** (L.) Sm., Bitter Ginger

- **Drug—Hawaiian** *Analgesic* Roots or bulbs pounded with salt and the resulting juice used as a head wash for headaches. *Dermatological Aid* Juice used for hair dressing. Leaf ashes, other ashes, and nut juice used for cuts and skin sores. Roots and other roots pounded with salt, mixed with urine, and used for ringworm and white skin blotches. Roots and other roots pounded with salt and used for itch and kindred afflictions of the skin. Flowers and roots and other plants pounded, mixed with water, and rubbed on the body during massages. Roots with other plant parts mixed with water and used as a bath for bruises. *Orthopedic Aid* Roots with other plant parts mixed with water and used as a bath for slight sprains. *Toothache Remedy* Roots cooked and used in the tooth hollow for toothaches. (2:19)

**Zinnia**, Asteraceae

**Zinnia acerosa** (DC.) Gray, Desert Zinnia

- **Drug—Keres, Western** *Antirheumatic (External)* Crushed plant paste mixed with salt and used on swellings or aches. *Psychological Aid* Plant given to children to quickly learn to talk. (as *Crassina pulmila* 171:39)

**Zinnia grandiflora** Nutt., Rocky Mountain Zinnia

- **Drug—Keres, Western** *Kidney Aid* Hot infusion of plant drunk for kidney trouble. *Other* Infusion of plant used as a bath for excessive

sweating. (as *Crassina grandiflora* 171:38) **Navajo Nose Medicine** Plant used for nose troubles. *Throat Aid* Plant used for throat troubles. (55:97) **Navajo, Ramah Analgesic** Decoction of plant taken for stomachache, heartburn, and as a cathartic. *Cathartic* Decoction of plant taken as a cathartic. *Ceremonial Medicine* Plant used as a ceremonial emetic. *Emetic* Plant used as a ceremonial emetic. *Gastrointestinal Aid* Decoction of plant taken for stomachache or heartburn. (191:54) **Zuni Dermatological Aid** Poultice of powdered plant applied to bruises. *Diaphoretic* Plant used in a sweat bath for fever. *Eye Medicine* Cold infusion of blossoms used as an eyewash. *Febrifuge* Smoke from powdered plant inhaled in sweat bath for fever. (as *Crassina grandiflora* 166:45)

- **Dye—Keres, Western Yellow** Flowers, ground with white clay or mixed with warm water, used as yellow dye for wool. Flowers rubbed into buckskin as a yellow dye. (as *Crassina grandiflora* 171:38)
- **Other—Keres, Western Paint** Flowers ground into a paste and used as a dark red body paint. (as *Crassina grandiflora* 171:38)

## Zizania, Poaceae

*Zizania aquatica* L., Annual Wildrice

- **Food—Dakota Staple** Grain used as an important and prized food item. (69:360) Rice considered an important dietary element. (70:67) **Menominee Staple** Rice cooked with deer broth, pork, or butter and seasoned with maple sugar. (151:67) **Meskwaki Unspecified** Rice used for food. (152:259) **Ojibwa Bread & Cake** Seeds used to make gem cakes, duck stuffing, and fowl stuffing. *Breakfast Food* Seeds steamed into puffed rice and eaten for breakfast with sugar and cream. *Special Food* Seeds boiled with rabbit excrements, eaten and esteemed as a luxury. (135:246) **Omaha Staple** Grains used as a staple food. (68:328) Rice considered an important dietary element. **Ponca Staple** Rice considered an important dietary element. (70:67) **Thompson Unspecified** Rice cooked with meat. (187:144) **Winnebago Staple** Rice considered an important dietary element. (70:67)
- **Other—Ojibwa Cash Crop** Seeds scorched, winnowed, and sold as breakfast food. (135:246) **Thompson Cash Crop** Rice used for trading. (187:144)

*Zizania palustris* L., Northern Wildrice

- **Food—Chippewa Unspecified** Cooked alone or with meat and used as the principal cereal food. (53:318) **Ojibwa Staple** Formed an important staple in the diet, cooked with deer broth and maple sugar and eaten. (153:403) **Potawatomi Dried Food** Rice gathered and dried for a winter supply of food. *Pie & Pudding* Wild rice sweetened with maple sugar and used to make pudding. *Staple* Rice valuable for cooking with wild fowl or game and maple sugar used to season the mixture. (154:101)

## Zizia, Apiaceae

*Zizia aurea* (L.) W. D. J. Koch, Golden Zizia

- **Drug—Meskwaki Analgesic** Compound containing flower stalks used as snuff for sick headache. *Febrifuge* Root used for fevers and compound containing flower stalks used for headache. (152:250)

## Ziziphus, Rhamnaceae

*Ziziphus obtusifolia* (Hook. ex Torr. & Gray) Gray, Lote Bush

- **Drug—Pima Eye Medicine** Decoction of pounded root used as a

wash for sore eyes. (as *Ziziphus lycioides* 146:79)

- **Food—Papago Beverage** Fruits formerly fermented and used for a beverage. (as *Ziziphus lycioides* 34:26) *Sauce & Relish* Fruits boiled to a syrup and used for food. (as *Ziziphus lycioides* 34:19) **Pima Fruit** Black berries beaten with sticks and eaten raw. (as *Ziziphus lycioides* 146:76) **Yavapai Beverage** Mashed berries added to water and use as a drink. (as *Ziziphus cycioides* 65:258)

*Ziziphus obtusifolia* var. *canescens* (Gray) M. C. Johnston, Lote Bush

- **Drug—Pima Analgesic and Antirheumatic (External)** Thorns used to prick the skin over rheumatic pains. *Dermatological Aid* Infusion of roots used as a shampoo. *Eye Medicine* Decoction of roots used as a wash for sore eyes. (as *Condalia lycioides* var. *canescens* 47:50)
- **Food—Maricopa Dried Food** Berries dried and stored, to be soaked in hot water and used later. *Fruit* Fruits mashed into a concoction and eaten. **Mohave Dried Food** Berries dried and stored, to be soaked in hot water and used later. **Maricopa & Mohave Fruit** Fruits mashed into a concoction and eaten. (as *Condalia lycioides* var. *canescens* 37:204) **Pima Fodder** Seeds squeezed out from boiled berries and fed to chickens. *Fruit* Ripe, black berries eaten raw. *Sauce & Relish* Berries boiled and used to make a syrup. (as *Condalia lycioides* var. *canescens* 47:50) **Pima, Gila River Fruit** Fruits eaten raw and boiled. (133:7)
- **Other—Apache Soap** Root used for washing the hair. (as *Condalia lycioides* var. *canescens* 47:50) **Havasupai Tools** Branch used to make a planting stick. (as *Condalia lycioides* var. *canescens* 162:102)

*Ziziphus parryi* Torr., Parry's Jujube

- **Food—Cahuilla Fruit** Drupes eaten fresh. *Porridge* Drupes dried and ground into flour for mush. *Staple* Leached nutlet of the drupe ground into a flour. (as *Condalia parryi* 15:56)

**Zosteraceae**, see *Phyllospadix*, *Zostera*

## Zostera, Zosteraceae

*Zostera marina* L., Seawrack

- **Food—Bellabella Unspecified** Plants eaten raw with eulachon (candlefish) grease. (184:200) **Cowichan Spice** Fleshy roots and leaf bases used to flavor seal, porpoise, and deer meat. (182:77) **Hesquiat Forage** Brownish "roots" (actually rhizomes) eaten by black brants, Canada geese, mallard ducks, and cattle. *Unspecified* Brownish "roots" (actually rhizomes) cleaned, washed, and eaten raw. Greenish "root" eaten raw. (185:59) **Kwakiutl, Southern Special Food** Stems and roots dipped in oil and eaten during feasts. (183:274) *Unspecified* Plants eaten raw with eulachon (candlefish) grease. (184:200) **Nitinaht Unspecified** Fleshy, whitish rhizomes formerly eaten raw. (186:89) **Oweekeno Unspecified** Leaves picked with attached herring spawn and eaten. (43:82) **Saanich Spice** Fleshy roots and leaf bases used to flavor seal, porpoise, and deer meat. (182:77)
- **Other—Hesquiat Hunting & Fishing Item** Leaves used to collect herring spawn. (185:59) **Nitinaht Hunting & Fishing Item** Leaves formerly used to trap herring spawn. (186:89)

**Zygnemataceae**, see *Spirogyra*

**Zygophyllaceae**, see *Guajacum*, *Kallstroemia*, *Larrea*, *Tribulus*

# Notes

1. The Thompson Indians said that if too much balsam pitch were taken as medicine, it could make one stout (187:97). *Abies amabilis*, *A. grandis*.
2. The Thompson Indians mixed the boiled boughs of three types of fir with decoctions of leaves from a broad-leaved plant from the Okanagan River, sweet grass from the Thompson River, and deer grease, and then used it to perfume the hair (187:97). *Abies amabilis*, *A. grandis*, *A. lasiocarpa*.
3. The wood was always taken early in the morning from the sunrise side of the tree (187:145). Thompson Indians, *Acer circinatum*.
4. The twigs and bark of new growth were boiled with water. A clay that contained iron was mixed with grease and then roasted; then it was mixed with the boiled twig and bark water. Tanned hides were soaked in this solution for 2 or 3 days to get the right color; treatment for a shorter period of time resulted in a brownish color, and for a longer period in black (70:100). Omaha and Winnebago, *Acer saccharinum*.
5. The Hesquiat used dried kelp stipes to play a beach game, something like hockey. This game was played in winter on the beach in front of the village when large quantities of several kinds of kelp drifted ashore (185:24). *Costaria costata*, *Lessoniopsis littoralis*, *Postelsia palmaeformis*.
6. These strong, tough seaweeds grow in the subtidal and intertidal zones. Sometimes, herring spawn on the stipes and fronds of these short kelps, and then the plants are gathered by the Hesquiat and dipped briefly in hot water or dried for later use. The spawn were taken off the longer types and the alga discarded, or, in the case of the broad, leafy types, the alga was eaten along with the eggs. If the kelps with spawn were dried first, they were simply soaked in water before being eaten (185:24). *Alaria marginata*, *Costaria costata*, *Lessoniopsis littoralis*, *Postelsia palmaeformis*.
7. Thompson Indians cleaned onion bulbs and twined them together in mats before they were cooked. They were tied together by their leaves in big bunches, about 15 cm across. They were dipped in water, but not soaked, then laid in the cooking pit interspersed with layers of beard tongue and alder leaves. The bulbs were steam cooked overnight, and after being cooked they became extremely sweet and were considered a delicacy. The cooked bulbs were eaten after meat was eaten. It was very important as a refreshment. Sometimes, the bulbs were cooked with black tree lichen (187:117). *Allium cernuum*.
8. A dull reddish dye was made by the Navajo from the alder and several other plants. The woman first burned some of the twigs of the juniper or spruce, then crushed and boiled the root bark of the mountain mahogany. Only the bark was used because the roots themselves contain no color-bearing material. To this was added the powdered bark of the alder together with a ground lichen. This was put together and boiled until it was thought to be right, then it was strained, and the wool or yarn was soaked in it overnight. This produced a dull reddish color on wool and a fine tan color on buckskin (55:39). *Alnus incana*.
9. The bread was carried by personators of anthropic gods and thrown by them to the populace between the dances (166:87). Navajo, *Amaranthus cruentus*.
10. Blackfoot Indian ceremonial events often included the transfer of a tepee design or the opening of a medicine pipe bundle or a beaver bundle. Women prepared soup from berries, assorted roots, fat, and water. At an appointed time during the ceremony this soup was served to all participants. The soup was blessed, and an offering of one of the berries was put back into the ground before eating began. A few mouthfuls were taken; then the remainder of the soup was given to one or another of the women, who would take it home to her children (86:26). *Amelanchier alnifolia*, *Prunus virginiana*.
11. Star mallow, wild heliotrope, fiddlenecks, and wild sorrel were dropped entirely from the Pima diet in more recent times. Amadeo Rea, the author of the work cited on the Pima, suspects they were spring starvation season foods (133:5). *Amsinckia* sp., *Eremalche exilis*, *Phacelia* sp., *Rumex* sp.
12. Arikara and Mandan boys used thorn apple thorns for arrow points on their grass arrows, and practiced their archery skills by hunting frogs (70:68). *Andropogon gerardii*.
13. For the Seminole, if a man had sexual intercourse with a woman during her menstrual period, the results were more serious than other menstruation sicknesses. A doctor would never do this, as it would damage the "medicine" that he had in his body. Other men were, sometimes, willing to take the risk. Several plants were used as medicine to treat the resulting illness if it occurred (169:248). *Angadenia berteroi*, *Cephalanthus occidentalis*, *Salix caroliniana*, *Stillingia sylvatica*.
14. Luiseño made fine-meshed fishing nets for stream fishing and large-meshed nets for sea fishing from twine made from several fibrous plant species (155:202). *Apocynum cannabinum*, *Asclepias eriocarpa*, *Urtica dioica*.
15. The plant could also be boiled and the steam used for colds. The Thompson Indian patient would lie in the steam while he was covered with a blanket (187:169). *Artemisia dracunculul*.
16. Havasupai placed leafy stems of sagebrush on the fire and the resulting fumes were inhaled for a cold or runny nose. The fresh leaves were chewed for a cough. More often, the leaves were pounded a bit, boiled in water for 10 to 15 or 20 minutes and then cooled and drunk. The usual dose, a cupful, was taken before breakfast and again after supper. This treatment was continued until the cold was gone, usually in 2 or 3 days. Another method was to take 2 tablespoonfuls every half hour for 1 day. This method was good for a cold, cough, sore throat, or stomachache (197:246). *Artemisia tridentata*.
17. The Yurok took a large snail's body from the shell, smashed it, and put it inside a wild ginger leaf. The preparation was steamed and then held over the umbilical cord with twine. The umbilical cord would fall off and the hole would heal (6:19). *Asarum caudatum*.
18. Cahuilla pounded the stem of several kinds of milkweed to loosen the fiber,

- which then was extracted by rubbing the stem between the palms of the hands. The fiber was rolled on the thigh to produce cordage; its many uses testified to its natural strength and durability (15:43). *Asclepias* sp.
19. After the Zuni decorated sticks with milkweed cords, they were used as offerings and were planted in their fields and in sacred springs. An excavation was made in the bed of the spring in which the offerings were deposited after stones had been attached to them (166:88). *Asclepias subverticillata*.
  20. The fruits were not planted with the seed corn but were discarded before planting. Omaha and Ponca informants could not give a reason for this process as they said they had forgotten the origin of the old custom (70:91). *Astragalus crassicaerpus*.
  21. Thompson Indians reconstituted the dried roots by soaking in water overnight. After they were cooked, the roots tasted sweet and were eaten as a "sort of dessert" after a meal of dried fish or some other food as a main course (187:175). *Balsamorhiza sagittata*.
  22. Birch bark was particularly important in the storage of food. It could be stripped off in the fall when it was quite papery and could be split into thin sheets. These were weighted down with rocks to flatten them and then used to line the bottoms of berry baskets to keep the baskets from getting stained. The bark was also placed between layers of dried salmon in storage and used in the storage of cooked roots such as lily corms (187:189). Thompson Indians, *Betula papyrifera*.
  23. Thistle roots were pit cooked after which they usually turned dark brown. One or two bags of dried roots were stored each year by a family and were said to be "full of vitamins." One informant said that the roots caused "gas" if too many were eaten (187:178). Thompson Indians, *Cirsium edule*, *C. hookerianum*, *C. undulatum*, *C. vulgare*.
  24. The stem was stripped of its outer layers, leaving only the terminal leaf or inflorescence hanging loosely on a flexible strand. Opponents held firmly to the base of the strand and attempted to hook the opponent's leaf or inflorescence. After engaging, the opponents pulled and the opponent who retained his leaf or inflorescence won (6:25). Karok and Yurok, *Claytonia parviflora*, *C. perfoliata*.
  25. Beeplant was so important economically to the Hopi and Tewa that it was listed in songs along with corn, pumpkins, and cotton, the three main cultivated plants (32:24). *Cleome serrulata*.
  26. The Zuni boiled beeplant for a long time after which the concoction was allowed to evaporate. The precipitated paste was then used with black mineral paint to color sticks of plume offerings to anthropic gods (166:96). *Cleome serrulata*.
  27. A decoction of red osier dogwood was used by the Thompson Indians to bathe 4- to 6-month-old babies four to six times over a period of several weeks. It was said to make the baby strong, bright, and good-natured (187:204). *Cornus sericea*.
  28. Yokut placed the salt grass, when dry, on a dry hide or a large piece of canvas or cloth and then beat it for a long time until the tiny black, salty specks on the stem and narrow blades fell off and collected on the cloth. This material was kept in bottles or jars (formerly in baskets). When needed for medicine, it was put in hot water and boiled until it formed a dark reddish brown gum. The informant remarked that it should be "cooked like gravy until the gum comes" (117:423). *Distichlis spicata*.
  29. Thompson Indians peeled silverberry bark off in strips as long as possible in the spring or fall when it was "kind of dry" and split it with a knife (originally of stone). The grayish outer bark was removed and the inner bark scraped, cleaned, and cut into desired widths. At this stage, it could be dried for future use. The long, even strands of fresh or dried inner bark, after it had been soaked, could be spun on the bare leg into a strong two-ply twine used for many different purposes (187:207). *Elaeagnus commutata*.
  30. Woodland Cree ground the leafy branches of black crowberry and mixed them with grease, which was then applied externally for fevers; or, a branch was chewed as a diuretic (109:38). *Empetrum nigrum*.
  31. Thompson Indians used a decoction or infusion of horsetail immediately after childbirth to expel the afterbirth more quickly. The stems were usually gathered ahead of time, being pulled up, the roots cut off, and the stems cut into short segments and dried. Then, just before childbirth, a small handful of the cut stems was steeped in boiling water for 5 or 10 minutes. The woman could drink this tea for several days (187:86). *Equisetum arvense*, *E. hyemale*, *E. laevigatum*.
  32. Thompson Indians used the stem liquid of horsetail, which was collected in the springtime and could be stored in the refrigerator and used whenever needed. The stem decoction was used as an eyewash for sore or itchy eyes or for impending blindness such as that caused by cataracts (187:86). *Equisetum hyemale*, *E. laevigatum*.
  33. The stems were used by Thompson Indians to do the final polishing of wooden spoons and to polish the soft rock used for pipe bowls (187:86). *Equisetum hyemale*, *E. laevigatum*.
  34. The stem segments of horsetail were pulled apart and the stem liquid was extracted by the Thompson Indians; the liquid was splashed over weeds as an herbicide (187:86). *Equisetum hyemale*, *E. laevigatum*.
  35. Okanagan-Colville children played a game with the stems of several kinds of buckwheat. They broke off the main stem, leaving one side branch attached to make a "hook." Each child took one of these. They hooked them together and pulled. The first one to break his or her stick lost the game (188:112). *Eriogonum compositum*, *E. heracleoides*, *E. niveum*.
  36. The symptoms of the Seminole disease "dead people's sickness" are numb and painful legs, neck, shoulders, and perhaps the backbone. The sufferer is sleepy during the day, has "short breath," and loses appetite. Fever and headaches also accompany this illness (169:257). *Eryngium yuccifolium*, *Persea borbonia*.
  37. This emetic was taken by the Seminole doctor after one of his patients had died. It prevented the next patient from getting worse instead of improving under the doctor's care (169:184). *Eryngium yuccifolium*, *Persea borbonia*.
  38. The wild strawberries could be eaten only after the strawberries were danced over and blessed; they were eaten on picnic day by Kasha Pomo at the Strawberry Festival (72:110). *Fragaria chiloensis*, *F. vesca*.
  39. Western Keres used juniper twigs in basketry. The twigs were bent into shape by allowing them to remain in the sun or, for quicker bending, were pushed into the hot ashes under a fire (171:48). *Juniperus monosperma*.
  40. Juniper berries were gathered by Western Keres, mixed with chopped meat, put into a clean deer stomach, and roasted as a spicy sausage (171:48). *Juniperus monosperma*.
  41. Juniper was chewed or an infusion of leaves was taken by Hopi and Tewa women immediately after giving birth. During the lying-in period, all of the mother's food was prepared with a decoction of leaves. Her head was washed with yucca suds and her body bathed with a hot infusion of leaves while her clothes were washed in water in which leaves of juniper had been placed (42:330). *Juniperus monosperma*.
  42. If upon growing up, the Hopi or Tewa child misbehaves, he is taken at the request of the mother and held by some other woman in a blanket over a smoldering fire of juniper. He soon escapes, half-suffocated, supposedly a better and (probably) wiser youngster (42:330). *Juniperus monosperma*.
  43. A handle was attached to the bottle gourd and its contents were removed and replaced with small gravel or seeds from another plant. The rattle was used in rituals by the Dakota, Omaha, and Ponca (70:117). *Lagenaria siceraria*.
  44. The Karok would camp in tan oak groves when harvesting the acorns. Certain villages had certain fruit crops. Fruits were gathered after they had fallen from the trees but before insects invaded them. While younger men hunted, the remainder of the people played games centered around removing the shells from the seed. When the seeds were ground, a basket with a hole

in the bottom large enough to include the stone mortar was placed over the mortar to keep the acorn flour in place. It was then leached in sand with cold water. The finished flour was mixed with water to make a paste, which could be cooked in several ways. A gruel was most often made by cooking the paste in cooking baskets. Hot rocks were placed into the paste to bring it to boiling. The rocks were kept from burning the basket with "acorn paddles." The rocks were placed in and out of the gruel with twigs bent into a U shape. Males ate gruel with wooden spoons; the females used mussel shells. The cake of acorn meal that formed around the hot rocks was given to children as sort of a treat. Gruel was flavored with venison, herbs, etc. The paste was occasionally baked as patties in hot coals. Flour was stored in large storage baskets (6:35). *Lithocarpus densiflorus*.

45. Kashaya Pomo Indians dried acorns in the sun before storing them. The acorns were cracked open and the inner nuts put in a winnowing basket and rubbed to remove the chaff. They were then put into a mortar basket and pounded with a pestle to the consistency of flour. This flour was sifted with a basket and placed in a basin of clean sand, and water was poured over it many times to remove the bitter flavor. The water was poured over a bundle of leaves or branches that served to break the fall of the water and not splash sand into the food. The ground and leached meal was then cooked into mush or thinned with water to make soup. If pancakes or bread were to be made, the flour was ground coarser and was left soaking longer in the water. For bread, the dough was shaped into cakes that were wrapped in large leaves and baked in the coals. Red earth could be added to the dough to make a dark sweet bread. Another method produced moldy acorns that were made into mush. The acorns were not dried in the sun but were left in the house until they turned greenish with mold. The mold was rubbed off. These nuts were pounded together with whitened dry acorns and made into mush. Another method was to leave cracked acorns in a pool for 4 or 5 months. They were then removed from the shell and cooked without pulverizing. They could be used for soup or mush, or eaten whole (72:83). *Lithocarpus densiflorus*, *Quercus agrifolia*, *Q. garryana*, *Q. kelloggii*.
46. The woody stems of hollyleaved barberry or Cascade Oregongrape were broken, the bark scraped off, and boiling water was poured over it to make an infusion that the Thompson Indians used to make an eyewash (187:187). *Mahonia aquifolium*, *M. nervosa*.
47. Before a Cahuilla ritual was conducted, tobacco was smoked by the ritual leaders and shamans and the smoke was blown in the sacred directions: north, east, west, south, and up or center. This helped to clear the area of any malevolent force that might interfere with the ritual. Throughout ceremonies, especially those honoring the recent dead, everyone was obliged to smoke tobacco, as they are even in more recent times. At funerals, smoking served to concentrate power that would aid the dead in their arduous journey to the other world (15:90). *Nicotiana clevelandii*, *N. glauca*, *N. trigonophylla*.
48. The infusion of devil's club sticks was taken by Thompson Indians in doses of about ½ cup before meals, to replace milk and other beverages (187:164). *Oplopanax horridus*.
49. The stems of pricklypear were used for food during times of famine by the Thompson Indians because they could be harvested even during the winter and early spring when few other foods were available (187:194). *Opuntia fragilis*, *O. polyacantha*.
50. Thompson Indians baked pricklypear stems in hot coals until the spines were singed off and then squeezed them until the fleshy centers popped out. The inside part was eaten and considered quite tasty. In more recent years, some people mixed cactus stems with fruit cakes, but traditionally, cactus stems were eaten with northern black currants or other types of berries (187:194). *Opuntia fragilis*, *O. polyacantha*.
51. Freshly peeled stems of pricklypear were rubbed over painted objects to fix the color by Dakota and Pawnee Indians (70:104). *Opuntia humifusa*.
52. Omaha and Ponca knew that horses were very fond of the roots of sweet-root and would come running if people whistled for them while holding the roots in their hands; then the horses could easily be caught (70:107). *Osmorhiza longistylis*.
53. The blossoms of fetid marigold were chewed by Zuni of both sexes—but especially by women—then spit into the hands and rubbed on the neck, limbs, and clothing as perfume (166:83). *Pectis papposa*.
54. A rabbit stick treated with Torrey's penstemon in this manner was sure to kill any rabbit at which it was aimed, provided the Zuni thrower had a good heart (166:95). *Penstemon barbatus* ssp. *torreyi*.
55. When a Zuni infant boy showed signs of timidity, his father carried a small quantity of cornmeal wrapped in a bit of corn husk to the warrior of his choice, presented it, and asked that the warrior apply a medicine made of slimleaf bean on his child's body so that he might have a brave heart and never be afraid of the enemy. The warrior then chewed the crushed leaves and blossoms and the powdered root, spit the mass into his hands, and rubbed it all over the child's body (166:85). *Phaseolus angustissimus*.
56. Thompson Indians said that this treatment should be used three times over a period of days (187:230). *Philadelphus lewisii*.
57. Upper Tanana Indians dug spruce roots by hand or with an ax, preferably from a tree that was not crowded by other trees. The roots of a tree growing in an open place were less likely to be entangled with the roots of other trees and were therefore easier to dig. Spruce roots in moist ground where moss grows were also easier to gather than those found in dry soil. Before using spruce roots, the Upper Tanana peeled the bark off by hand or with a knife. After peeling them, they sometimes dyed them by boiling berries and soaking the roots in the juice. Spruce roots could be dried for future use but had to be soaked in water to make them pliable before being used. They could be dug anytime during the year when the ground was not frozen (102:2). *Picea glauca*.
58. Karok placed pine cones in a trench and covered them with dirt. A fire was built on top. After roasting, the cones were broken open to release the seeds. Some were stored over winter (6:44). *Pinus lambertiana*.
59. The game, pile pile, was played frequently in Neah Bay by the Makah earlier in the twentieth century and went as follows: One would take a deep breath and pluck the pinnae one by one from a swordfern, saying "pile" for each, all in one breath. The winner was the one who reached the top (apex) of the frond, pulled the most pinnae off, before running out of breath. In Neah Bay anyone could play this game, but among the Nitinaht, where adults also played pile pile, the game was a family privilege exercised at big potlatches (67:221). *Polystichum munitum*.
60. Dried chokecherry cakes were used in winter with dried corn or cooked alone with sugar by the Omaha Indians. (68:326). *Prunus virginiana*.
61. Pemmican was made by the Sioux and other tribes by mixing certain berries, such as buffalo berry, choke cherry, and serviceberry, with the fat of the buffalo, pounding up the whole, which was then packed away in skins. Sometimes jerked buffalo was put into an oven to render it brittle, beaten up on a skin with these berries, some marrow fat being added to give consistency, and finally packed in skin bags. This was a regular article of commerce and highly prized by the old trappers and hunters for its portability as a condensed food and for its keeping qualities. Later the flesh and tallow of the ox was substituted for that of the buffalo and was still used to some extent until the turn of the twentieth century (19:19). *Prunus virginiana*.
62. The blossoms of the woolly paperflower were used by the Zuni for painting the masks and for coloring their limbs and bodies yellow when they impersonated anthropic gods. The flowers were ground into a meal and mixed with yellow ocher and urine (166:97). *Psilostrophe tagetina*.
63. The leaves of the pallid hoptree, which had a strong odor, were pounded up together with jimson weed, scorpions, and other noxious items by the Havasupai for arrow poison. It was said that even a slight scratch from an

- arrow so treated would insure death (197:229). *Ptelea trifoliata*.
64. Luiseño Indians used several methods to remove the bitterness from acorn meal. The meal was either leached with hot water, placed in a rush basket and warm water poured over it, or placed in a sand hole and warm water poured over it to soak away the bitterness (155:194). *Quercus agrifolia*, *Q. chrysolepis*, *Q. dumosa*, *Q. engelmannii*, *Q. kelloggii*, *Q. wislizeni*.
  65. Kawaiisu Indians stored acorns in several different ways. The granaries, elevated about a foot above the ground to keep out rodents, were made of hardwood poles, usually oak, with sides, top, and bottom covered with bark and lined with gray California buckwheat leaves. Stone-lined pits were covered with brush, and acorns were piled on a large flat stone and covered with bark (206:56). *Quercus chrysolepis*, *Q. douglasii*, *Q. dumosa*, *Q. garryana*, *Q. kelloggii*, *Q. lobata*, *Q. wislizeni*.
  66. A decoction of the branches of wax currant along with squaw currant, red osier dogwood branches, and the boughs of Douglas fir or tamarack was used by Thompson Indians to bathe babies four to six times over a period of several weeks to make them strong, independent, and good-natured (187:226). *Ribes cereum*.
  67. Thompson Indians stored and dried rose hips to make tea (187:267). *Rosa acicularis*, *R. woodsii*.
  68. Rose hips were eaten by Thompson Indians with a kind of whitish berry or mixed with wild mushrooms (187:267). *Rosa acicularis*, *R. woodsii*.
  69. Okanagan-Colville doctors swept out new graves with rose branches to prevent someone else's spirit from being buried with the dead person (188:131). *Rosa acicularis*, *R. gymnocarpa*, *R. nutkana*, *R. woodsii*.
  70. Among the Thompson Indians, after a death, an orphan, widower, or widow placed rose branches under the mattress to protect against sickness and to "keep ghosts away." Widows and widowers could fish only if rose branches were first swept around their gill nets (187:267). *Rosa acicularis*, *R. nutkana*, *R. pisocarpa*, *R. woodsii*.
  71. Navajo sometimes dried dock roots and stored them indefinitely. When ready for use in dyes, the dried roots were ground. By this aging process various shades were obtained, from a grayed yellow to a dull red. Several handfuls of the fresh roots boiled in water yielded a lemon yellow, and when more of the root was used and boiled longer, a soft orange or orange-brown was obtained. If the mixture was boiled in an iron vessel, the reaction formed a red-brown or mahogany dye. When mixed with indigo, a green dye was produced (55:43). *Rumex hymenosepalus*.
  72. Woodland Cree used willow bark to tie fish roasting sticks, rockfish net weights, birch bark moose calls, and snowshoe frames, which were tied together before they were bent. They also used the bark to tie bundles to be carried by hand (109:58). *Salix bebbiana*, *S. discolor*, *S. interior*.
  73. According to the Seminole, if a woman does not eat by herself during her menstrual period, the other inhabitants of her camp will get sick. Both sexes are thus affected, but men are particularly vulnerable (169:244). *Salix caroliniana*.
  74. The Thompson Indians used the branches of willows for tying and binding, especially in constructing their underground winter pit houses and in making fish traps, weirs, and rafts (187:279). *Salix* sp.
  75. Thompson Indians mashed elderberries in birch bark baskets, and when a fish had been split open along the backbone in preparation for barbecuing, it was soaked for a while in elderberry juice to flavor it. Then the fish was taken out, the berry seeds scraped off, and the fish barbecued and eaten (187:199). *Sambucus cerulea*, *S. racemosa*.
  76. The Thompson Indians said elderberries tasted like sulfur but nonetheless ate them in a variety of ways (187:199). *Sambucus racemosa*.
  77. The roots of bloodroot were used by the Ojibwa in four or five combinations in dyeing various materials (153:426). *Sanguinaria canadensis*.
  78. Western red cedar was used along with Douglas fir boughs, rose branches, and often a small quantity of stinging nettle in several medical compounds by the Okanagan-Colville Indians (188:20). *Thuja plicata*.
  79. The fresh green spikes of cattail eaten by the Paiute later formed the brown pollen and seed-bearing heads (60:69). *Typha domingensis*, *T. latifolia*.
  80. Brown seed heads of cattail were cut from the stalks by the Paiute and taken to an area where the earth had been dampened and packed into a hard, crusted surface. After warming the spikes in the sun, the cattail fluff was removed from the spikes and placed on the ground in a layer about 2 inches deep. This was set on fire and the mixture stirred until all the fluff was burned. Remaining on the hard, packed earth were thousands of tiny black cattail seeds. These were gathered into a finely woven basketry tray and the seed was winnowed by gently tossing it in the air during a slight breeze (60:69). *Typha domingensis*, *T. latifolia*.
  81. A Makah informant said, "As a child I saw my father when he'd take this halibut line, fish line, and he'd tighten it from one end of the yard to the other, while it was being stretched like that, otherwise they coil and tangle you know. He'd take a handful of those [stinging nettle] leaves and he'd rub it along the line and it gave it kind of a green color. I don't know if that was just for the color or if he thought there was some medicine in it or something, for good fishing or something. Might have been just to tint the line" (67:246). *Urtica dioica*.
  82. Blueberries were probably the most highly regarded wild plant food of the various Algonquin groups in the study area in Quebec. They were locally abundant and individuals and families from bands not in the vicinity of good blueberry fields traveled considerable distances in order to pick berries for themselves and to sell. During the course of field studies, members of the River Desert band traveled northwest of their area 90 miles and more. Members of the Weymontaching Cree band were met near Clova in the Obedjiwan band area. They had traveled to this location by train in order to pick blueberries and meet with relatives (18:103). *Vaccinium myrtilloides*.
  83. One Thompson Indian informant cautioned that, while American false hellebore had a number of uses as an external medicine, it should not be taken internally because of its extreme toxicity (187:131). *Veratrum viride*.
  84. Yucca was a valued food supply for the Kawaiisu. In the early spring the apical meristem, the "heart" or "cabbage," was removed with the aid of an oak or a juniper shaft having a shovel-like cutting edge at one end. The "cabbage" was roasted in a pit about 3 feet deep and perhaps 5 feet in diameter. A large stone was placed in the center of the pit, with smaller stones radiating out from the center. Firewood, preferably Douglas oak, was thrown in and the hot fire burned for a half day. From time to time more stones, and probably wood, were added. As the fire died down, it was covered with sand or dirt to about ground level, leaving a small aperture in the center. The sand was tapped down, causing flames to shoot out of the hole. Then a layer of dry pine needles was put on and the "cabbages," having been skinned, were placed on top. Two or three families shared the same oven. The direction in which "cabbages" were laid identified the owner. Another layer of dry pine needles apparently mixed with silky California broom covered the "cabbages." More sand or dirt, patted down and smoothed with a basketry tray, completed the mound, which would now reach a height of 5 feet but which settled in the roasting process. The roasting continued for two nights, during which no sexual intercourse was permitted. Otherwise it was said that "it won't cook." When the "cabbages" were pulled out, they were so hot they burned the hands. They were cooled before they were eaten. To be stored, they were pulled apart, mashed a little, and dried. They could not be dried or stored uncooked. After storage they were soaked and eaten (206:69). *Yucca brevifolia*.
  85. Although this corn beverage could be consumed by Zuni at any time, it was used especially by the rain priests and personators of anthropic gods during ceremonies. Another native beverage was also made by the Zuni. Water was poured over sprouted corn, allowed to stand for some days, and then used as a beverage (166:73). *Zea mays*.

# Index of Tribes

Plant usages are listed under the names of Native American groups, which are arranged alphabetically. Usages are categorized under the five main categories—Drug, Food, Fiber, Dye, Other—and then particular usages are listed alphabetically. Plants are identified below to the level of species. If subspecies or varieties appear in the Catalog of Plants, check under those names, too, for all usages given below. For example, one may find Comanche below and under Drug, Cold Remedy, see that *Rhus trilobata* was used. The specific ethnobotanical information and the sources from which the information was obtained may be found by turning to *Rhus trilobata*, *R. trilobata* var. *pilosissima*, and *R. trilobata* var. *trilobata* in the Catalog of Plants.

## Abnaki

### Drug

Abortifacient: *Fraxinus americana*, *Sanguinaria canadensis*  
Analgesic: *Arctium minus*, *Carum carvi*, *Cornus canadensis*, *Plantago major*,  
*Ranunculus acris*  
Anthelmintic: *Cirsium arvense*, *Populus tremuloides*  
Antihemorrhagic: *Maianthemum racemosum*, *Polygonatum pubescens*  
Antirheumatic (External): *Arctium minus*, *Mitchella repens*, *Plantago major*,  
*Symplocarpus foetidus*, *Taxus canadensis*, *Thuja occidentalis*, *Tsuga canadensis*  
Antirheumatic (Internal): *Arctium minus*, *Taxus canadensis*, *Tsuga canadensis*  
Blood Medicine: *Aralia nudicaulis*  
Carminative: *Acorus calamus*  
Cold Remedy: *Achillea millefolium*, *Asarum canadense*, *Chimaphila umbellata*,  
*Coptis trifolia*, *Kalmia angustifolia*, *Ledum groenlandicum*  
Cough Medicine: *Asarum canadense*, *Coptis trifolia*, *Epilobium angustifolium*,  
*E. sp.*, *Larix laricina*, *Pinus strobus*  
Dermatological Aid: *Abies balsamea*, *Alnus incana*, *Tsuga canadensis*  
Disinfectant: *Abies balsamea*  
Eye Medicine: *Cornus sericea*, *Corylus cornuta*, *Salix sp.*  
Febrifuge: *Achillea millefolium*, *Arctium minus*  
Gastrointestinal Aid: *Polypodium virginianum*  
Hemostat: *Urtica dioica*  
Love Medicine: *Nuphar sp.*  
Misc. Disease Remedy: *Achillea millefolium*, *Arctium minus*  
Nose Medicine: *Chimaphila umbellata*, *Kalmia angustifolia*, *Ledum groenlandicum*  
Orthopedic Aid: *Eupatorium perfoliatum*  
Other: *Botrychium virginianum*, *Gymnocarpium disjunctum*  
Panacea: *Abies balsamea*, *Mentha canadensis*, *Thuja occidentalis*, *Trillium erectum*  
Pediatric Aid: *Achillea millefolium*, *Botrychium virginianum*, *Cirsium arvense*,  
*Mentha canadensis*, *Trillium erectum*, *Verbascum thapsus*

Poison: *Caltha palustris*, *Iris versicolor*  
Psychological Aid: *Nuphar sp.*, *Nymphaea sp.*  
Respiratory Aid: *Acer pensylvanicum*  
Sedative: *Mentha canadensis*  
Toothache Remedy: *Verbascum thapsus*  
Unspecified: *Abies balsamea*, *Botrychium virginianum*  
Urinary Aid: *Picea glauca*  
Veterinary Aid: *Sanguinaria canadensis*

### Food

Beverage: *Gaultheria procumbens*, *Spiraea alba*  
Forage: *Cladonia rangiferina*  
Fruit: *Amelanchier sp.*, *Aronia melanocarpa*, *Cornus canadensis*, *Crataegus sp.*,  
*Fragaria virginiana*, *Prunus virginiana*, *Rubus idaeus*, *Vaccinium angustifolium*,  
*V. myrtilloides*, *Viburnum nudum*  
Preserves: *Rubus sp.*  
Sauce & Relish: *Cardamine diphylla*  
Snack Food: *Osmunda cinnamomea*  
Soup: *Zea mays*  
Sweetener: *Acer rubrum*  
Unspecified: *Acorus calamus*, *Aronia melanocarpa*, *Caltha palustris*, *Cardamine diphylla*,  
*Osmunda cinnamomea*, *Viburnum nudum*  
Vegetable: *Caltha palustris*, *Phaseolus vulgaris*, *Solanum tuberosum*

### Fiber

Basketry: *Anthoxanthum odoratum*, *Apocynum sp.*, *Betula papyrifera*, *Fraxinus nigra*,  
*Laportea canadensis*, *Salix sp.*, *Tilia americana*  
Canoe Material: *Betula papyrifera*  
Snow Gear: *Fraxinus americana*

### Other

Containers: *Anthoxanthum odoratum*, *Betula papyrifera*, *Salix sp.*  
Smoke Plant: *Cornus sericea*  
Toys & Games: *Salix sp.*

**Acoma****Food**Appetizer: *Rhus trilobata*Beverage: *Yucca baccata*Bread & Cake: *Yucca baccata*Candy: *Asclepias speciosa*, *Populus deltoides*Dried Food: *Amaranthus blitoides*, *A. hybridus*, *A. retroflexus*, *Opuntia imbricata*, *Prunus virginiana*, *Yucca baccata*, *Y. glauca*Fruit: *Atriplex argentea*, *Ceanothus fendleri*, *Celtis laevigata*, *Juniperus monosperma*, *Opuntia engelmannii*, *Prunus virginiana*, *Ribes cereum*, *Yucca baccata*, *Y. glauca*Porridge: *Cleome serrulata*, *Opuntia engelmannii*, *Prosopis glandulosa*Preserves: *Ribes cereum*, *Yucca baccata*Sauce & Relish: *Lycium pallidum*, *Yucca baccata*Soup: *Juniperus osteosperma*Special Food: *Sophora nuttalliana*Spice: *Agastache pallidiflora*, *Berlandiera lyrata*, *Juniperus monosperma*, *Monarda fistulosa*, *M. pectinata*, *Pectis angustifolia*, *Rhus trilobata*Staple: *Amaranthus blitoides*, *Dalea candida*, *Quercus gambelii*Starvation Food: *Juniperus monosperma*, *Opuntia clavata*, *Phoradendron juniperinum*, *Solanum triflorum*, *Yucca baccata*Unspecified: *Abronia fragrans*, *Allium cernuum*, *Astragalus lentiginosus*, *Cyperus squarrosus*, *Lathyrus polymorphus*, *Opuntia imbricata*, *Plantago major*, *Prosopis glandulosa*, *Quercus gambelii*, *Ranunculus inamoenus*, *Tradescantia occidentalis*, *Typha latifolia*, *Vicia americana*Vegetable: *Amaranthus blitoides*, *A. hybridus*, *A. retroflexus*, *Cymopterus bulbosus*, *Lactuca sativa*, *Portulaca oleracea***Alabama****Drug**Antidiarrheal: *Cornus* sp., *Hypericum hypericoides*, *H. multicaule*, *Pinus* sp.Antirheumatic (External): *Callicarpa americana*Ceremonial Medicine: *Ilex vomitoria*Cold Remedy: *Desmodium* sp., *Solidago* sp.Dermatological Aid: *Quercus rubra*, *Q. sp.*, *Zanthoxylum americanum*Diaphoretic: *Callicarpa americana*Emetic: *Desmodium* sp., *Eryngium aquaticum*, *Ilex vomitoria*, *Quercus* sp.Eye Medicine: *Hypericum hypericoides*, *H. multicaule*, *Ilex opaca*, *I. sp.*Febrifuge: *Callicarpa americana*, *Cercis canadensis*, *Salix* sp.Gastrointestinal Aid: *Erythrina herbacea*Gynecological Aid: *Ulmus rubra*Herbal Steam: *Callicarpa americana*Laxative: *Sebastiania fruticosa*Orthopedic Aid: *Ceanothus americanus*, *Hypericum hypericoides*, *Quercus rubra*Panacea: *Vaccinium* sp.Pediatric Aid: *Hypericum hypericoides*, *Quercus rubra*Pulmonary Aid: *Cercis canadensis*, *Desmodium* sp., *Quercus rubra*, *Q. sp.*Respiratory Aid: *Cercis canadensis*Sedative: *Gnaphalium obtusifolium*Throat Aid: *Quercus rubra*, *Q. sp.*Toothache Remedy: *Solidago* sp., Fodder: *Populus* sp., *P. tremuloides*

Forage: *Artemisia cana*, *Buchloe dactyloides*, *Carex nebrascensis*, *Chrysothamnus nauseosus*, *Leymus cinereus*, *Muhlenbergia richardsonis*, *Shepherdia argentea*

Fruit: *Amelanchier alnifolia*, *Arctostaphylos uva-ursi*, *Cornus sericea*, *Crataegus chrysoarpa*, *Disporum trachycarpum*, *Elaeagnus commutata*, *Escobaria vivipara*, *Fragaria virginiana*, *Mahonia repens*, *Prunus virginiana*, *Ribes aureum*, *R. oxyacanthoides*, *Rosa acicularis*, *R. nutkana*, *R. sp.*, *Rubus parviflorus*

Preserves: *Amelanchier alnifolia*, *Rosa nutkana*

Snack Food: *Amelanchier alnifolia*, *Cornus sericea*, *Perideridia gairdneri*, *Populus tremuloides*

Soup: *Amelanchier alnifolia*, *A. arborea*, *Asclepias viridiflora*, *Elaeagnus commutata*, *Erythronium grandiflorum*, *Fritillaria pudica*, *Gaillardia aristata*, *Heracleum maximum*, *Lilium philadelphicum*, *Perideridia gairdneri*, *Polygonum bistortoides*, *Prunus virginiana*, *Ribes oxyacanthoides*, *Veratrum viride*

Special Food: *Amelanchier alnifolia*, *Camassia quamash*, *Populus tremuloides*, *Prunus virginiana*

Spice: *Acer glabrum*, *Allium cernuum*, *A. sp.*, *Artemisia frigida*, *Asclepias viridiflora*, *Geranium viscosissimum*, *Mentha arvensis*, *M. canadensis*, *Pentaphylloides floribunda*, *Perideridia gairdneri*, *Prunus virginiana*, *Selaginella densa*, *Thalictrum occidentale*

Staple: *Amelanchier alnifolia*, *Astragalus canadensis*, *Perideridia gairdneri*, *Prunus virginiana*

Starvation Food: *Rosa* sp., *Selaginella densa*, *Shepherdia canadensis*, *Symphoricarpos occidentalis*

Unspecified: *Amelanchier arborea*, *Asclepias viridiflora*, *Astragalus canadensis*, *Camassia quamash*, *C. scilloides*, *Cirsium* sp., *Epilobium angustifolium*, *Erio-*

*gonum flavum*, *Erythronium grandiflorum*, *Fritillaria pudica*, *Heracleum maximum*, *Lewisia rediviva*, *Liatris punctata*, *Lilium philadelphicum*, *Lithospermum incisum*, *Lomatium simplex*, *L. triternatum*, *Musineon divaricatum*, *Pediomelum esculentum*, *Perideridia gairdneri*, *Pinus ponderosa*, *Populus balsamifera*, *P. deltoides*, *P. tremuloides*, *Salix* sp., *Typha latifolia*

Vegetable: *Allium cernuum*, *A. sp.*, *Claytonia lanceolata*, *Heracleum maximum*, *Perideridia gairdneri*

Winter Use Food: *Allium* sp., *Amelanchier alnifolia*, *Arctostaphylos uva-ursi*, *Camassia quamash*

## Fiber

Brushes & Brooms: *Spiraea splendens*

Building Material: *Betula occidentalis*, *Pinus contorta*, *Populus* sp., *Salix exigua*, *S. sp.*

Canoe Material: *Salix* sp.

Clothing: *Carex* sp., *Typha latifolia*

Cordage: *Argentina anserina*, *Elaeagnus commutata*

Furniture: *Pinus contorta*, *Prunus virginiana*, *Salix* sp.

Mats, Rugs & Bedding: *Artemisia ludoviciana*, *Juniperus horizontalis*, *Leymus cinereus*, *Pentaphylloides floribunda*

## Dye

Blue: *Delphinium bicolor*, *Viola adunca*

Mordant: *Heuchera cylindrica*, *Lycopodium complanatum*

Orange: *Alnus incana*

Red: *Equisetum arvense*, *Orthocarpus luteus*, *Salix discolor*, *Shepherdia argentea*

Red-Brown: *Alnus incana*, *Orthocarpus luteus*

Unspecified: *Aster* sp., *Castilleja* sp., *Osmorhiza occidentalis*, *Rubus parviflorus*

Yellow: *Castilleja* sp., *Evernia vulpina*, *Mahonia repens*, *Phlox hoodii*, *Thermopsis rhombifolia*

## Other

Cash Crop: *Acorus calamus*, *Amelanchier alnifolia*

Ceremonial Items: *Abies lasiocarpa*, *Amelanchier alnifolia*, *Angelica dawsonii*, *Arctostaphylos uva-ursi*, *Artemisia frigida*, *A. ludoviciana*, *Carex nebrascensis*, *Clematis occidentalis*, *Cornus sericea*, *Heracleum maximum*, *Hierochloa odorata*, *Juniperus horizontalis*, *J. scopulorum*, *Lithospermum incisum*, *Lophophora williamsii*, *Lupinus* sp., *Lycoperdon* sp., *Nicotiana quadrivalvis*, *Polyporus* sp., *Populus* sp., *Salix prolixa*

Containers: *Acer glabrum*, *Prunus virginiana*, *Salix* sp.

Cooking Tools: *Balsamorhiza sagittata*, *Betula occidentalis*, *B. papyrifera*, *Gaillardia aristata*, *Heracleum maximum*, *Monarda fistulosa*, *Pinus contorta*, *Prunus virginiana*

Decorations: *Gentiana affinis*, *Hierochloa odorata*, *Juniperus horizontalis*, *Pediomelum esculentum*, *Populus* sp.

Designs: *Lycoperdon* sp.

Fasteners: *Pinus contorta*, *Salix* sp.

Fuel: *Pentaphylloides floribunda*, *Populus* sp., *Symphoricarpos occidentalis*

Good Luck Charm: *Angelica dawsonii*, *Artemisia ludoviciana*, *Lomatium triternatum*

Hide Preparation: *Artemisia campestris*, *A. frigida*, *Juniperus* sp., *Lomatium dissectum*, *L. triternatum*

Hunting & Fishing Item: *Amelanchier alnifolia*, *Mentha canadensis*, *Pseudotsuga menziesii*

Incense & Fragrance: *Abies lasiocarpa*, *Allium* sp., *Artemisia frigida*, *A. ludoviciana*, *Balsamorhiza sagittata*, *Geum triflorum*, *Hierochloa odorata*, *Lupinus* sp., *Lycoperdon* sp., *Matricaria discoidea*, *Monarda fistulosa*, *Osmorhiza occidentalis*, *Polyporus* sp., *Populus* sp., *Salix* sp., *Thalictrum occidentale*, *T. sp.*

Insecticide: *Artemisia frigida*, *A. ludoviciana*, *Matricaria discoidea*, *Thalictrum occidentale*

Jewelry: *Arctostaphylos uva-ursi*, *Aster* sp., *Elaeagnus commutata*, *Juniperus* sp., *Oxytropis sericea*, *Rosa* sp.

Malicious Charm: *Angelica dawsonii*, *Artemisia ludoviciana*

Musical Instrument: *Heracleum maximum*, *Pinus contorta*  
 Paint: *Abies lasiocarpa*, *Symphoricarpos albus*, *Thalictrum occidentale*  
 Paper: *Artemisia frigida*, *A. ludoviciana*  
 Preservative: *Populus* sp.  
 Protection: *Abies lasiocarpa*, *Artemisia ludoviciana*, *Clematis occidentalis*, *Populus balsamifera*, *P. deltoides*, *Rubus parviflorus*  
 Season Indicator: *Arctostaphylos uva-ursi*, *Stipa comata*, *Thermopsis rhombifolia*  
 Smoke Plant: *Antennaria rosea*, *Arctostaphylos uva-ursi*, *Chimaphila umbellata*, *Cornus sericea*, *Nicotiana attenuata*, *N. quadrivalvis*, *Valeriana sitchensis*  
 Smoking Tools: *Cornus sericea*  
 Snuff: *Veratrum californicum*  
 Soap: *Allium* sp., *Artemisia campestris*, *A. frigida*, *Elaeagnus commutata*, *Equisetum arvense*, *Hierochloe odorata*, *Yucca glauca*  
 Stable Gear: *Alnus incana*  
 Tools: *Artemisia frigida*, *Monarda fistulosa*, *Pinus ponderosa*, *Prunus virginiana*  
 Toys & Games: *Amelanchier alnifolia*, *Cornus sericea*, *Elaeagnus commutata*, *Escobaria vivipara*, *Heracleum maximum*, *Lithospermum ruderalis*, *Pinus contorta*, *Populus tremuloides*, *Pulsatilla patens*, *Ribes oxycanthoides*, *Salix* sp.  
 Waterproofing Agent: *Castilleja* sp., *Epilobium angustifolium*, *Gaillardia aris-tata*, *Lygodesmia juncea*, *Perideridia gairdneri*, *Pinus contorta*  
 Weapon: *Glycyrrhiza lepidota*

## Cahuilla

### Drug

Analgesic: *Asclepias* sp., *Datura wrightii*, *Populus fremontii*, *Rosa californica*, *Umbellularia californica*, *Urtica dioica*  
 Antidiarrheal: *Arctostaphylos glandulosa*, *A. glauca*, *A. pungens*, *Conyza canadensis*, *Matricaria discoidea*  
 Antidote: *Datura wrightii*  
 Antihemorrhagic: *Hyptis emoryi*  
 Antirheumatic (External): *Adenostoma fasciculatum*, *A. sparsifolium*, *Datura wrightii*, *Eriodictyon trichocalyx*, *Larrea tridentata*, *Populus fremontii*, *Urtica dioica*  
 Antirheumatic (Internal): *Eriodictyon trichocalyx*  
 Blood Medicine: *Ephedra nevadensis*, *Eriodictyon trichocalyx*  
 Burn Dressing: *Opuntia acanthocarpa*  
 Cancer Treatment: *Larrea tridentata*  
 Cathartic: *Cucurbita foetidissima*, *Eriogonum* sp., *Opuntia ficus-indica*  
 Cold Remedy: *Adenostoma sparsifolium*, *Anemopsis californica*, *Artemisia californica*, *Atriplex lentiformis*, *Eriodictyon trichocalyx*, *Eucalyptus* sp., *Larrea tridentata*, *Rhus ovata*, *Salvia apiana*, *Sambucus cerulea*, *Satureja douglasii*  
 Cough Medicine: *Eriodictyon trichocalyx*, *Rhus ovata*  
 Dermatological Aid: *Anemopsis californica*, *Arctostaphylos glandulosa*, *A. glauca*, *A. pungens*, *Baccharis salicifolia*, *Bursera microphylla*, *Chamaesyce melanadenia*, *Chlorogalum pomeridianum*, *Cucurbita foetidissima*, *Ericameria palmeri*, *Isocoma acradenia*, *Larrea tridentata*, *Lepidium nitidum*, *Nicotiana clevelandii*, *N. glauca*, *N. trigonophylla*, *Opuntia acanthocarpa*, *O. ficus-indica*, *Pinus monophylla*, *P. quadrifolia*, *Populus fremontii*, *Prosopis glandulosa*, *Ricinus communis*, *Salvia apiana*, *Solidago californica*, *Suaeda* sp., *Typha latifolia*  
 Disinfectant: *Adenostoma fasciculatum*, *Artemisia tridentata*, *Larrea tridentata*, *Phoradendron* sp., *Salvia columbariae*  
 Ear Medicine: *Chamaesyce melanadenia*, *Croton californicus*, *Nicotiana clevelandii*, *N. glauca*, *N. trigonophylla*  
 Emetic: *Adenostoma sparsifolium*, *Cucurbita foetidissima*, *Larrea tridentata*, *Nicotiana clevelandii*, *N. glauca*, *N. trigonophylla*  
 Eye Medicine: *Eriogonum* sp., *Phoradendron* sp., *Prosopis glandulosa*, *Salvia apiana*, *S. columbariae*, *Solanum douglasii*  
 Febrifuge: *Eriodictyon trichocalyx*, *Euphorbia* sp., *Sambucus cerulea*, *Satureja douglasii*

Gastrointestinal Aid: *Adenostoma sparsifolium*, *Anemopsis californica*, *Arbutus menziesii*, *Chenopodium californicum*, *Descurainia pinnata*, *Eriogonum* sp., *Larrea tridentata*, *Matricaria discoidea*, *Monardella villosa*, *Sambucus cerulea*, *Trichostema lanatum*  
 Gynecological Aid: *Artemisia californica*, *Baccharis salicifolia*, *Eriogonum* sp., *Larrea tridentata*, *Solidago californica*  
 Hallucinogen: *Datura wrightii*  
 Hunting Medicine: *Datura wrightii*, *Nicotiana clevelandii*, *N. glauca*, *N. trigonophylla*, *Salvia apiana*  
 Kidney Aid: *Marrubium vulgare*  
 Laxative: *Adenostoma sparsifolium*, *Frangula californica*, *Opuntia ficus-indica*, *Sambucus cerulea*  
 Misc. Disease Remedy: *Euphorbia* sp., *Sambucus cerulea*  
 Nose Medicine: *Atriplex lentiformis*  
 Oral Aid: *Eriodictyon trichocalyx*, *Euphorbia* sp.  
 Orthopedic Aid: *Arundo donax*, *Phragmites australis*  
 Other: *Cucurbita foetidissima*, *Datura wrightii*, *Ephedra nevadensis*  
 Panacea: *Bursera microphylla*  
 Pediatric Aid: *Artemisia californica*, *Croton californicus*, *Eschscholzia* sp., *Rosa californica*, *Sambucus cerulea*  
 Poison: *Astragalus* sp., *Croton californicus*, *Datura wrightii*, *Ricinus communis*, *Solanum douglasii*  
 Pulmonary Aid: *Adenostoma sparsifolium*, *Anemopsis californica*, *Larrea tridentata*  
 Respiratory Aid: *Anemopsis californica*, *Artemisia tridentata*, *Croton californicus*, *Datura wrightii*, *Eriodictyon trichocalyx*, *Larrea tridentata*  
 Sedative: *Eschscholzia* sp.  
 Snakebite Remedy: *Datura wrightii*  
 Sports Medicine: *Datura wrightii*  
 Throat Aid: *Ericameria palmeri*, *Eriodictyon trichocalyx*, *Isocoma acradenia*  
 Tonic: *Frangula californica*, *Larrea tridentata*  
 Toothache Remedy: *Chrysothamnus nauseosus*, *Datura wrightii*, *Encelia farinosa*, *Gutierrezia microcephala*, *Sambucus cerulea*  
 Tuberculosis Remedy: *Eriodictyon trichocalyx*  
 Unspecified: *Apocynum cannabinum*, *Artemisia californica*, *Datura wrightii*, *Phoradendron* sp., *Prosopis pubescens*  
 Veterinary Aid: *Adenostoma sparsifolium*, *Anemopsis californica*, *Cucurbita foetidissima*, *Datura wrightii*, *Populus fremontii*

### Food

Baby Food: *Pinus monophylla*, *P. quadrifolia*  
 Beverage: *Allenrolfea occidentalis*, *Arctostaphylos glandulosa*, *A. glauca*, *A. pungens*, *Ephedra nevadensis*, *Eriodictyon trichocalyx*, *Ferocactus cylindraceus*, *Fouquieria splendens*, *Nicotiana clevelandii*, *N. glauca*, *N. trigonophylla*, *Phoradendron* sp., *Pinus monophylla*, *P. quadrifolia*, *Prosopis glandulosa*, *P. pubescens*, *Rhus integrifolia*, *R. trilobata*, *Romneya coulteri*, *Rosa californica*, *Rubus leucodermis*, *R. parviflorus*, *R. vitifolius*, *Salvia columbariae*, *Simmondsia chinensis*, *Vitis girdiana*, *Washingtonia filifera*

Black: *Alnus* sp.

**Other**

Cooking Tools: *Betula papyrifera*, *Picea mariana*, *Rubus parviflorus*

Hide Preparation: *Abies* sp.

Hunting & Fishing Item: *Alnus* sp.

Paint: *Chenopodium capitatum*

Smoke Plant: *Arctostaphylos uva-ursi*

**Carrier, Northern****Drug**

Analgesic: *Artemisia ludoviciana*, *Oplopanax horridus*

Antidiarrheal: *Viburnum edule*

Burn Dressing: *Abies* sp.

Cathartic: *Abies* sp., *Juniperus communis*, *Oplopanax horridus*, *Sambucus racemosa*, *Shepherdia canadensis*, *Viburnum edule*

Cough Medicine: *Juniperus communis*

Dermatological Aid: *Abies* sp., *Cornus sericea*, *Heracleum maximum*, *Lonicera involucrata*, *Pinus contorta*, *Populus balsamifera*, *Ribes* sp., *Rosa* sp., *Rubus* sp., *Valeriana dioica*

Eye Medicine: *Pinus contorta*, *Populus balsamifera*

Gastrointestinal Aid: *Alnus rubra*, *Oplopanax horridus*

Orthopedic Aid: *Cornus sericea*, *Lonicera involucrata*, *Pinus contorta*, *Ribes* sp., *Rosa* sp., *Rubus* sp.

Stimulant: *Cornus sericea*, *Lonicera involucrata*, *Pinus contorta*, *Ribes* sp., *Rosa* sp., *Rubus* sp.

Unspecified: *Cornus canadensis*

**Carrier, Southern****Drug**

Analgesic: *Juniperus communis*, *Lycopodium clavatum*, *Picea sitchensis*, *Pinus contorta*, *Populus tremuloides*, *Viola adunca*

Antihemorrhagic: *Arceuthobium americanum*

Antirheumatic (External): *Mnium affine*

Cathartic: *Oplopanax horridus*, *Physocarpus opulifolius*, *Sambucus racemosa*

Cold Remedy: *Achillea millefolium*, *Anemone multifida*, *Mentha canadensis*, *Sorbus sitchensis*

Cough Medicine: *Populus balsamifera*

Dermatological Aid: *Achillea millefolium*, *Alnus rubra*, *Artemisia ludoviciana*, *Geum macrophyllum*

Dietary Aid: *Arceuthobium americanum*

Emetic: *Physocarpus opulifolius*, *Veratrum viride*

Eye Medicine: *Cornus canadensis*, *Lonicera involucrata*, *Orthilia secunda*, *Picea sitchensis*, *Pyrola asarifolia*, *Symphoricarpos albus*

Gastrointestinal Aid: *Mentha canadensis*, *Picea sitchensis*, *Pinus contorta*, *Populus tremuloides*, *Viola adunca*

Gynecological Aid: *Oplopanax horridus*

Orthopedic Aid: *Achillea millefolium*, *Artemisia ludoviciana*

Panacea: *Anemone multifida*, *Geum macrophyllum*

Poison: *Veratrum viride*

Pulmonary Aid: *Mentha canadensis*, *Populus balsamifera*

Tuberculosis Remedy: *Arceuthobium americanum*

Unspecified: *Abies grandis*

### Other

Insecticide: *Heracleum maximum*, *Populus balsamifera*

## Catawba

### Drug

Analgesic: *Andropogon glomeratus*, *Aplectrum hyemale*, *Arnica acaulis*, *Chimaphila umbellata*, *Glyceria obtusa*, *Hexastylis arifolia*, *Pedicularis canadensis*, *Tephrosia virginiana*, *Verbascum thapsus*

Antidiarrheal: *Aletris farinosa*

Antirheumatic (External): *Tephrosia virginiana*

Antirheumatic (Internal): *Tephrosia virginiana*

Burn Dressing: *Parthenium integrifolium*

Cold Remedy: *Hedeoma pulegioides*, *Xanthorhiza simplicissima*

Dermatological Aid: *Aplectrum hyemale*, *Ilex opaca*, *Lechea* sp., *Orbexilum pedunculatum*, *Salvia lyrata*, *Verbascum thapsus*, *Yucca filamentosa*

Febrifuge: *Tephrosia virginiana*

Gastrointestinal Aid: *Aletris farinosa*, *Hexastylis arifolia*, *Pedicularis canadensis*, *Xanthorhiza simplicissima*

Gynecological Aid: *Oxydendrum arboreum*, *Salix humilis*

Heart Medicine: *Erigeron strigosus*, *Hexastylis arifolia*

Kidney Aid: *Manfreda virginica*

Liver Aid: *Xanthorhiza simplicissima*

Misc. Disease Remedy: *Ilex opaca*, *Marshallia obovata*, *Prunella vulgaris*

Oral Aid: *Salix humilis*

Orthopedic Aid: *Andropogon glomeratus*, *Arnica acaulis*, *Chimaphila umbellata*, *Glyceria obtusa*, *Hexastylis arifolia*, *Orbexilum pedunculatum*, *Verbascum thapsus*

Pediatric Aid: *Salix humilis*, *Verbascum thapsus*

Pulmonary Aid: *Verbascum thapsus*

Snakebite Remedy: *Manfreda virginica*

Tuberculosis Remedy: *Senecio anonus*, *Ulmus rubra*

Veterinary Aid: *Lachnanthes caroliniana*, *Parthenium integrifolium*

## Chehalis

### Drug

Abortifacient: *Thuja plicata*

Analgesic: *Rosa nutkana*

Antidiarrheal: *Achillea millefolium*

Antirheumatic (External): *Urtica dioica*

Cold Remedy: *Abies grandis*, *Mentha* sp.

Contraceptive: *Geum macrophyllum*, *Lonicera ciliosa*

Dermatological Aid: *Delphinium menziesii*, *Lonicera ciliosa*, *Marah oreganus*, *Symphoricarpos albus*, *Urtica dioica*

Diaphoretic: *Taxus brevifolia*

Emetic: *Zigadenus venenosus*

Gynecological Aid: *Rosa nutkana*

Love Medicine: *Eriophyllum lanatum*

Misc. Disease Remedy: *Holodiscus discolor*

Panacea: *Taxus brevifolia*

Poison: *Delphinium menziesii*

Tuberculosis Remedy: *Marah oreganus*, *Tsuga heterophylla*

Venereal Aid: *Symphoricarpos albus*, *Tsuga heterophylla*

### Food

Fruit: *Amelanchier alnifolia*, *Fragaria* × *ananassa*, *Ribes sanguineum*, *Rubus parviflorus*, *R. spectabilis*

Soup: *Camassia quamash*

Spice: *Amelanchier alnifolia*

Unspecified: *Corylus cornuta*, *Pteridium aquilinum*, *Quercus garryana*, *Rubus spectabilis*, *Rumex acetosella*, *R. sp.*, *Typha latifolia*

Winter Use Food: *Corylus cornuta*, *Sambucus cerulea*, *S. racemosa*

### Fiber

Basketry: *Typha latifolia*, *Xerophyllum tenax*

Clothing: *Thuja plicata*, *Typha latifolia*

Cordage: *Corylus cornuta*, *Salix lucida*

Mats, Rugs & Bedding: *Thuja plicata*, *Typha latifolia*

### Dye

Unspecified: *Tsuga heterophylla*

Yellow: *Mahonia aquifolium*

### Other

Cooking Tools: *Acer macrophyllum*, *Holodiscus discolor*, *Polystichum munitum*

Decorations: *Typha latifolia*

Fuel: *Abies grandis*, *Pseudotsuga menziesii*, *Tsuga heterophylla*

Good Luck Charm: *Pseudotsuga menziesii*

Hunting & Fishing Item: *Acer circinatum*, *Holodiscus discolor*, *Pseudotsuga menziesii*, *Taxus brevifolia*

Toys & Games: *Fomes* sp.

## Cherokee

### Drug

Abortifacient: *Angelica atropurpurea*, *Apocynum cannabinum*, *Aristolochia serpentaria*, *Armoracia rusticana*, *Asarum canadense*, *Asplenium trichomanes*, *Carya alba*, *C. laciniata*, *C. pallida*, *Chamaemelum nobile*, *Cimicifuga racemosa*, *Echinocystis lobata*, *Erigeron philadelphicus*, *E. pulchellus*, *Hedeoma pulegioides*, *Hydrangea arborescens*, *Hypericum gentianoides*, *H. hypericoides*, *H. perforatum*, *Hyssopus officinalis*, *Juniperus virginiana*, *Lindera benzoin*, *Monarda didyma*, *M. fistulosa*, *Nepeta cataria*, *Orbexilum pedunculatum*, *Petroselinum crispum*, *Platanus occidentalis*, *Polygala senega*, *Scutellaria elliptica*, *S. incana*, *S. lateriflora*, *Solidago odora*, *Stylosanthes biflora*, *Verbena hastata*

Adjuvant: *Eupatorium maculatum*, *E. purpureum*, *Gleditsia triacanthos*, *Mentha × piperita*, *M. spicata*, *Prunella vulgaris*

Analgesic: *Acer rubrum*, *A. saccharinum*, *Acorus calamus*, *Alnus serrulata*, *Anaphalis margaritacea*, *Anthemis cotula*, *Arisaema triphyllum*, *Aristolochia serpentaria*, *Artemisia biennis*, *Asarum canadense*, *Asclepias perennis*, *A. quadrifolia*, *A. syriaca*, *A. tuberosa*, *Aster linariifolius*, *A. novae-angliae*, *Blephilia ciliata*, *Cardamine diphylla*, *Carya alba*, *C. laciniata*, *C. pallida*, *Castanea pumila*, *Celastrus scandens*, *Chenopodium botrys*, *Chimaphila maculata*, *Cimicifuga racemosa*, *Cirsium altissimum*, *C. vulgare*, *Clematis virginiana*, *Cornus alternifolia*, *C. florida*, *Cunila marina*, *Cypripedium acaule*, *C. parviflorum*, *Daphne mezereum*, *Desmodium nudiflorum*, *D. perplexum*, *Epigaea repens*, *Erigeron philadelphicus*, *E. pulchellus*, *Euonymus americana*, *Gnaphalium obtusifolium*, *Hamamelis virginiana*, *Hedeoma pulegioides*, *Hepatica nobilis*, *Humulus lupulus*, *Kalmia latifolia*, *Lactuca canadensis*, *Leucothoe axillaris*, *Liatris spicata*, *Lobelia cardinalis*, *L. inflata*, *L. siphilitica*, *Magnolia acuminata*, *M. macrophylla*, *Mentha × piperita*, *M. spicata*, *Mitchella repens*, *Monarda didyma*, *M. fistulosa*, *Nicotiana rustica*, *N. tabacum*, *Panax quinquefolius*, *P. trifolius*, *Papaver somniferum*, *Pastinaca sativa*, *Phoradendron leucarpum*, *Plantago aristata*, *P. lanceolata*, *P. major*, *Platanthera ciliaris*, *Polygonum aviculare*, *P. hydropiper*, *P. persicaria*, *Prenanthes serpentaria*, *P. trifoliolata*, *Pycnanthemum flexuosum*, *P. incanum*, *Rhododendron maximum*, *Rubus idaeus*, *R. occidentalis*, *R. odoratus*, *Sabatia angularis*, *Sanicula smallii*, *Satureja hortensis*, *Senna hebecarpa*, *S. marilandica*, *Smilax glauca*, *S. herbacea*, *S. pseudochina*, *S. rotundifolia*, *Tanacetum vulgare*, *Tradescantia virginiana*, *Veratrum viride*, *Verbascum thapsus*, *Verbena hastata*, *Vernonia glauca*, *V. noveboracensis*, *Veronicastrum virginicum*, *Vicia caroliniana*, *Viola bicolor*, *V. cucullata*, *V. pedata*, *V. pubescens*, *V. rotundifolia*, *V. sororia*, *Xanthorhiza simplicissima*

Protection: *Crataegus spathulata*, *Gleditsia triacanthos*

Smoke Plant: *Anaphalis margaritacea*, *Cardamine diphylla*, *Gaultheria procumbens*, *Nicotiana rustica*, *N. tabacum*

Smoking Tools: *Oxydendrum arboreum*, *Rhododendron maximum*

Snuff: *Asarum canadense*, *A. sp.*

Soap: *Saponaria officinalis*, *Yucca filamentosa*

Tools: *Carya alba*, *C. laciniata*, *C. pallida*, *Cornus alternifolia*, *C. florida*, *Fraxinus pennsylvanica*

Toys & Games: *Zea mays*

Weapon: *Arundinaria gigantea*

## Cheyenne

### Drug

Adjuvant: *Abies* sp., *Osmorhiza berteroi*, *Sphaeralcea coccinea*

Analgesic: *Achillea millefolium*, *Acorus calamus*, *Agastache foeniculum*, *Ambrosia psilostachya*, *Arctostaphylos uva-ursi*, *Artemisia ludoviciana*, *Balsamorhiza incana*, *B. sagittata*, *Capsella bursa-pastoris*, *Echinacea angustifolia*, *Erigeron peregrinus*, *Lithospermum ruderales*, *Lomatium dissectum*, *L. orientale*, *Oplopanax horridum*, *Ratibida columnifera*, *Senecio triangularis*, *Thermopsis rhombifolia*

Antidiarrheal: *Ambrosia psilostachya*, *Frasera speciosa*, *Glycyrrhiza lepidota*, *Lomatium orientale*, *Pediemeum esculentum*, *Prunus virginiana*, *Rosa* sp., *Salix amygdaloides*

Antiemetic: *Achillea millefolium*, *Mentha arvensis*, *M. canadensis*, *Vaccinium scoparium*

Antihemorrhagic: *Ambrosia psilostachya*, *Boykinia jamesii*, *Epilobium angustifolium*, *Pterospora andromedea*, *Rumex crispus*

Antirheumatic (External): *Heuchera cylindrica*, *Lithospermum ruderales*, *Lomatium* sp., *Onosmodium molle*

Antirheumatic (Internal): *Cucurbita* sp., *Echinacea pallida*, *Heuchera cylindrica*, *Mentzelia laevicaulis*

Blood Medicine: *Actaea rubra*, *Sarcobatus vermiculatus*

Breast Treatment: *Lygodesmia juncea*, *Mertensia ciliata*

Burn Dressing: *Echinacea pallida*, *Pediemeum esculentum*, *Rhus trilobata*

Ceremonial Medicine: *Abies lasiocarpa*, *A. sp.*, *Acer negundo*, *Acorus calamus*, *Actaea rubra*, *Anaphalis margaritacea*, *Artemisia frigida*, *A. ludoviciana*, *Carex*

*nebrascensis*, *Glycyrrhiza lepidota*, *Helianthus* sp., *Hierochloa odorata*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Koeleria macrantha*, *Madia glomerata*, *Matricaria discoidea*, *Mentha arvensis*, *Monarda fistulosa*, *Pentaphylloides floribunda*, *Prunus americana*, *Psoralidium lanceolatum*, *Salix amygdaloides*, *Sarcobatus vermiculatus*, *Scirpus nevadensis*, *Sphaeralcea coccinea*, *Typha latifolia*

Cold Remedy: *Achillea millefolium*, *Acorus calamus*, *Agastache foeniculum*, *Ambrosia psilostachya*, *Arabis glabra*, *Arctostaphylos uva-ursi*, *Balsamorhiza incana*, *B. sagittata*, *Chrysothamnus nauseosus*, *Echinacea pallida*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Osmorhiza berteroi*, *Rhus trilobata*, *Stephanomeria spinosa*, *Thermopsis rhombifolia*

Cough Medicine: *Achillea millefolium*, *Arctostaphylos uva-ursi*, *Chrysothamnus nauseosus*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Pedicularis groenlandica*

Dermatological Aid: *Actaea rubra*, *Allium brevistylum*, *Astragalus adsurgens*, *Chrysothamnus nauseosus*, *Echinacea pallida*, *Grindelia squarrosa*, *Heuchera cylindrica*, *Koeleria macrantha*, *Lomatium* sp., *Matricaria discoidea*, *Mentha arvensis*, *Mertensia ciliata*, *Monarda fistulosa*, *Nicotiana* sp., *Onosmodium molle*, *Pinus ponderosa*, *Pterospora andromedea*, *Ratibida columnifera*, *Rumex crispus*, *Salix amygdaloides*, *S. sp.*, *Yucca glauca*

Diaphoretic: *Achillea millefolium*, *Agastache foeniculum*, *Stephanomeria spinosa*

Dietary Aid: *Actaea rubra*, *Amelanchier alnifolia*, *Echinacea pallida*, *Mentzelia laevicaulis*, *Prunus virginiana*, *Vaccinium scoparium*

Disinfectant: *Anaphalis margaritacea*, *Heterotheca villosa*, *Pterospora andromedea*

Diuretic: *Acorus calamus*, *Citrullus lanatus*, *Cucurbita* sp., *Rhus trilobata*

Ear Medicine: *Aster cusickii*, *Cucurbita* sp., *Mentzelia laevicaulis*

Eye Medicine: *Asclepias speciosa*, *Grindelia squarrosa*, *Rosa* sp.

Febrifuge: *Achillea millefolium*, *Agastache foeniculum*, *Balsamorhiza sagittata*, *Cucurbita* sp., *Echinacea pallida*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Mentzelia laevicaulis*, *Pediemeum argophyllum*

Gastrointestinal Aid: *Acorus calamus*, *Ambrosia psilostachya*, *Balsamorhiza incana*, *B. sagittata*, *Epilobium angustifolium*, *Glycyrrhiza lepidota*, *Lomatium dissectum*, *L. orientale*, *Osmorhiza longistylis*, *Parnassia fimbriata*, *Rosa* sp., *Salix amygdaloides*, *Typha latifolia*

Gynecological Aid: *Actaea rubra*, *Artemisia frigida*, *Balsamorhiza sagittata*, *Eriogonum umbellatum*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Lygodesmia juncea*, *Mertensia ciliata*, *Oxytropis* sp., *Ulmus americana*

Heart Medicine: *Achillea millefolium*, *Agastache foeniculum*, *Cucurbita* sp., *Mentha arvensis*

Hemostat: *Achillea millefolium*, *Artemisia frigida*, *A. ludoviciana*, *Geranium richardsonii*, *Pterospora andromedea*, *Rhus trilobata*, *Salix amygdaloides*

Herbal Steam: *Agastache foeniculum*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Madia glomerata*, *Stephanomeria spinosa*

Kidney Aid: *Cucurbita* sp., *Osmorhiza longistylis*

Laxative: *Acorus calamus*, *Ambrosia psilostachya*, *Cucurbita* sp.

Love Medicine: *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Madia glomerata*, *Mentha arvensis*

Misc. Disease Remedy: *Chrysothamnus nauseosus*, *Echinacea pallida*, *Lygodesmia juncea*, *Mentzelia laevicaulis*, *Mertensia ciliata*, *Stephanomeria spinosa*

Nose Medicine: *Artemisia ludoviciana*, *Geranium richardsonii*, *Pterospora andromedea*

Oral Aid: *Balsamorhiza sagittata*, *Echinacea angustifolia*, *E. pallida*, *Prunus americana*

Orthopedic Aid: *Arctostaphylos uva-ursi*, *Echinacea angustifolia*, *Erigeron peregrinus*, *Heuchera cylindrica*, *Lithospermum incisum*, *Onosmodium molle*

Other: *Erigeron peregrinus*, *Pentaphylloides floribunda*, *Tanacetum vulgare*

Panacea: *Acorus calamus*, *Arabis glabra*, *Balsamorhiza sagittata*, *Salix amygdaloides*, *Stephanomeria spinosa*

Pediatric Aid: *Acorus calamus*, *Amelanchier alnifolia*, *Arabis glabra*, *Lomatium orientale*, *Lygodesmia juncea*, *Oxytropis* sp., *Parnassia fimbriata*, *Prunus virginiana*, *Ulmus americana*, *Vaccinium scoparium*

Poison: *Astragalus* sp., *Pentaphylloides floribunda*, *Pulsatilla patens*

Psychological Aid: *Arctostaphylos uva-ursi*, *Artemisia ludoviciana*, *Chrysothamnus nauseosus*, *Lithospermum incisum*, *Lygodesmia juncea*, *Madia glomerata*

Pulmonary Aid: *Agastache foeniculum*, *Boykinia jamesii*, *Juniperus scopulorum*, *Pterospora andromedea*, *Rumex crispus*

Reproductive Aid: *Rhus trilobata*

Respiratory Aid: *Achillea millefolium*, *Artemisia ludoviciana*

Sedative: *Heterotheca villosa*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*, *Lithospermum incisum*, *Senecio triangularis*

Snakebite Remedy: *Ratibida columnifera*

Stimulant: *Abies lasiocarpa*, *Erigeron peregrinus*, *Koeleria macrantha*, *Lithospermum incisum*, *Mentha arvensis*, *Osmorhiza berteroi*, *Parnassia fimbriata*, *Phlox multiflora*, *Pulsatilla patens*

Strengtheners: *Tanacetum vulgare*

Throat Aid: *Achillea millefolium*, *Balsamorhiza sagittata*, *Echinacea angustifolia*, *E. pallida*, *Juniperus communis*, *J. horizontalis*, *J. scopulorum*

Tonic: *Lomatium dissectum*

Toothache Remedy: *Balsamorhiza sagittata*, *Echinacea angustifolia*, *E. pallida*, *Rhus trilobata*

Tuberculosis Remedy: *Achillea millefolium*, *Chrysothamnus nauseosus*, *Cucurbita* sp., *Stephanomeria spinosa*

Unspecified: *Agastache foeniculum*, *Amelanchier alnifolia*, *Anaphalis margaritacea*, *Arctostaphylos uva-ursi*, *Artemisia ludoviciana*, *Calochortus gunnisonii*, *Mahonia repens*, *Matricaria discoidea*, *Mentzelia laevicaulis*, *Pediomelum esculentum*, *Perideridia gairdneri*, *Prunus virginiana*, *Pulsatilla patens*, *Rosa* sp., *Sagittaria cuneata*, *Shepherdia argentea*

Venereal Aid: *Cucurbita* sp., *Madia glomerata*

Vertigo Medicine: *Tanacetum vulgare*

Veterinary Aid: *Anaphalis margaritacea*, *Astragalus* sp., *Calochortus gunnisonii*, *Equisetum arvense*, *E. hyemale*, *Monarda fistulosa*, *Rhus trilobata*, *Sagittaria cuneata*, *Sarcobatus vermiculatus*, *Thalictrum sparsiflorum*

Witchcraft Medicine: *Abies lasiocarpa*, *Acorus calamus*, *Hierochloa odorata*

## Food

Beverage: *Agastache foeniculum*, *Amelanchier alnifolia*, *Arabis glabra*, *Mentha arvensis*, *Ulmus americana*

Bread & Cake: *Prunus virginiana*

Candy: *Acer negundo*, *Asclepias speciosa*, *Pinus ponderosa*

Cooking Agent: *Opuntia polyacantha*, *Pediomelum esculentum*

Dried Food: *Calochortus gunnisonii*, *Crataegus douglasii*, *Escobaria vivipara*, *Opuntia polyacantha*, *Pediomelum esculentum*, *P. hypogaeum*, *Perideridia gairdneri*, *Ribes cereum*, *R. lacustre*

Fodder: *Populus balsamifera*, *P. deltoides*

Fruit: *Asclepias speciosa*, *Crataegus douglasii*, *Escobaria vivipara*, *Fragaria virginiana*, *Mahonia repens*, *Opuntia polyacantha*, *Physalis heterophylla*, *Prunus virginiana*, *Ribes lacustre*, *R. oxyacanthoides*, *Rosa woodsii*, *Rubus idaeus*, *Vitis vulpina*

Pie & Pudding: *Amelanchier alnifolia*, *Pediomelum esculentum*, *Prunus americana*, *P. virginiana*, *Rosa* sp., *Shepherdia argentea*

Porridge: *Calochortus gunnisonii*, *Perideridia gairdneri*

Preserves: *Shepherdia canadensis*

Sauce & Relish: *Asclepias speciosa*

Soup: *Asclepias speciosa*, *Opuntia polyacantha*

Special Food: *Amelanchier alnifolia*, *Cirsium edule*, *Prunus americana*

Spice: *Allium drummondii*, *A. schoenoprasum*

Starvation Food: *Ipomoea leptophylla*

Unspecified: *Allium drummondii*, *A. schoenoprasum*, *Apios tuberosum*, *Asclepias speciosa*, *Calochortus gunnisonii*, *Castilleja sessiliflora*, *Cirsium edule*,

*Glycyrrhiza lepidota*, *Helianthus tuberosus*, *Nuphar lutea*, *Pediomelum esculentum*, *P. hypogaeum*, *Perideridia gairdneri*, *Pinus ponderosa*, *Polygonum bistortoides*, *Populus deltoides*, *Quercus macrocarpa*, *Rosa* sp., *Rumex crispus*, *Sagittaria* sp., *Scirpus acutus*, *S. nevadensis*

Vegetable: *Apios tuberosum*

Winter Use Food: *Amelanchier alnifolia*, *Calochortus gunnisonii*, *Crataegus douglasii*, *Opuntia polyacantha*, *Pediomelum hypogaeum*, *Perideridia gairdneri*, *Prunus americana*, *P. virginiana*, *Ribes aureum*, *R. oxyacanthoides*

## Fiber

Basketry: *Eleocharis* sp., *Juncus balticus*, *Typha latifolia*

Brushes & Brooms: *Koeleria macrantha*

Building Material: *Fraxinus pennsylvanica*, *Pinus contorta*, *Populus balsamifera*, *P. deltoides*, *P. tremuloides*, *Salix amygdaloides*

Furniture: *Salix amygdaloides*

Mats, Rugs & Bedding: *Monarda fistulosa*, *Salix amygdaloides*, *Scirpus nevadensis*

Other: *Eleocharis* sp., *Juncus balticus*

## Dye

Black: *Leymus cinereus*

Blue: *Pinus ponderosa*

Green: *Populus deltoides*

Purple: *Populus deltoides*

Red: *Populus deltoides*, *Rumex venosus*

Unspecified: *Leymus cinereus*, *Pinus ponderosa*, *Populus deltoides*, *Rumex crispus*, *R. venosus*

White: *Populus deltoides*

Yellow: *Letharia vulpina*, *Rumex crispus*, *R. venosus*

## Other

Ceremonial Items: *Abies lasiocarpa*, *Acer negundo*, *Anaphalis margaritacea*, *Artemisia ludoviciana*, *Cornus sericea*, *Hierochloa odorata*, *Leymus cinereus*, *Psoraleidum lanceolatum*, *Sarcobatus vermiculatus*, *Symphoricarpos albus*

Cooking Tools: *Acer negundo*, *Artemisia* sp., *Eleocharis* sp., *Fraxinus pennsylvanica*, *Juniperus scopulorum*, *Salix amygdaloides*

Decorations: *Juncus balticus*

Fuel: *Acer negundo*

Hunting & Fishing Item: *Cornus sericea*, *Fraxinus pennsylvanica*, *Juniperus scopulorum*, *Prunus virginiana*, *Ribes* sp., *Rosa* sp., *Sarcobatus vermiculatus*

Incense & Fragrance: *Hierochloa odorata*, *Juniperus scopulorum*, *Matricaria discoidea*, *Mentha arvensis*, *Monarda fistulosa*

Musical Instrument: *Heracleum maximum*, *Juniperus scopulorum*, *Pinus ponderosa*, *Salix amygdaloides*

## Choctaw

### Drug

Abortifacient: *Galium boreale*

Analgesic: *Aralia racemosa*, *Aristolochia serpentaria*, *Arundinaria gigantea*, *Gnaphalium obtusifolium*, *Hypericum crux-andreae*, *Monarda fistulosa*, *Prenanthes aspera*, *Pycnanthemum incanum*, *Quercus marilandica*, *Ulmus americana*

Anthelmintic: *Pinus echinata*, *P. virginiana*

Antidiarrheal: *Callicarpa americana*, *Cephalanthus occidentalis*, *Malvella leprosa*, *Rubus* sp.

Antidote: *Eryngium aquaticum*

Antihemorrhagic: *Ceanothus* sp.

Blood Medicine: *Arisaema triphyllum*, *Berchemia scandens*, *Sassafras albidum*

Burn Dressing: *Malvella leprosa*

Cathartic: *Monarda fistulosa*

Cold Remedy: *Gnaphalium obtusifolium*, *Pycnanthemum albescens*

Contraceptive: *Galium boreale*

Cough Medicine: *Echinacea purpurea*, *Tephrosia hispida*

Dermatological Aid: *Aralia spinosa*, *Baptisia alba*, *Chionanthus virginicus*, *Galium uniflorum*, *Geranium maculatum*, *Heuchera americana*, *Liquidambar styraciflua*, *Magnolia grandiflora*, *Obolaria virginica*, *Polygala lutea*, *Populus deltoides*, *Sambucus cerulea*, *Saururus cernuus*, *Tephrosia florida*, *Yucca aloifolia*

Diaphoretic: *Asclepias verticillata*, *Galium asprellum*, *G. boreale*, *G. uniflorum*, *Pycnanthemum albescens*

Disinfectant: *Chionanthus virginicus*

Diuretic: *Eryngium aquaticum*, *Galium asprellum*, *G. boreale*, *G. uniflorum*, *Prenanthes aspera*

Expectorant: *Aralia racemosa*, *Eryngium aquaticum*

Eye Medicine: *Aralia racemosa*, *Cephalanthus occidentalis*, *Hypericum crux-andreae*, *H. hypericoides*, *Ilex opaca*

Febrifuge: *Cephalanthus occidentalis*, *Myrica cerifera*, *Pluchea foetida*, *Symplocos tinctoria*, *Verbesina virginica*, *Vitis aestivalis*

Gastrointestinal Aid: *Aralia racemosa*, *Aristolochia serpentaria*, *Callicarpa americana*, *Echinacea purpurea*, *Hypericum hypericoides*, *Malvella leprosa*, *Quercus stellata*, *Sambucus cerulea*

Gynecological Aid: *Polygonum aviculare*, *Quercus marilandica*, *Ulmus americana*, *Vitis aestivalis*

Herbal Steam: *Populus deltoides*

Kidney Aid: *Bignonia capreolata*, *Magnolia grandiflora*

Liver Aid: *Sambucus canadensis*

Misc. Disease Remedy: *Galium asprellum*, *Rumex verticillatus*, *Sassafras albidum*

Oral Aid: *Pityopsis graminifolia*

Other: *Callicarpa americana*, *Prenanthes aspera*

Panacea: *Pycnanthemum incanum*

Pediatric Aid: *Aralia racemosa*, *Monarda fistulosa*

Poultice: *Aralia spinosa*

Pulmonary Aid: *Ceanothus* sp., *Gnaphalium obtusifolium*

Snakebite Remedy: *Asclepias verticillata*, *Eryngium aquaticum*, *Populus deltoides*

Stimulant: *Ageratina altissima*, *Aralia racemosa*, *Asclepias verticillata*, *Eryngium aquaticum*, *Prenanthes aspera*

Throat Aid: *Myrica cerifera*

Tonic: *Ageratina altissima*, *Cephalanthus occidentalis*, *Erythrina herbacea*, *Heuchera americana*, *Rubus* sp., *Smilax bona-nox*, *S. tamnoides*, *Vitis aestivalis*

Toothache Remedy: *Ageratina altissima*, *Cephalanthus occidentalis*

Unspecified: *Yucca aloifolia*

Urinary Aid: *Sambucus cerulea*

Venereal Aid: *Eryngium aquaticum*, *Geranium maculatum*

Ceremonial Items: *Arctostaphylos uva-ursi*, *Cornus canadensis*, *C. nuttallii*, *C. sericea*, *Digitalis purpurea*, *Juniperus scopulorum*, *Rubus spectabilis*, *Symphoricarpos albus*, *Taxus brevifolia*

Containers: *Lysichiton americanus*

Cooking Tools: *Lysichiton americanus*, *Thuja plicata*

Hide Preparation: *Tsuga heterophylla*, *T. mertensiana*

Hunting & Fishing Item: *Taxus brevifolia*

Lighting: *Thuja plicata*

Smoke Plant: *Arbutus menziesii*, *Arctostaphylos tomentosa*, *A. uva-ursi*, *Cornus canadensis*, *C. nuttallii*, *C. sericea*

Toys & Games: *Picea engelmannii*, *P. sitchensis*, *Taxus brevifolia*

## Hopi

### Drug

Adjuvant: *Psilostrophe sparsiflora*

Analgesic: *Conyza canadensis*, *Cryptantha cinerea*, *Cycloloma atriplicifolium*, *Epilobium ciliatum*, *Eriogonum* sp., *Gaillardia pinnatifida*, *Heterotheca villosa*, *Ipomopsis longiflora*, *Petradoria pumila*, *Suaeda moquinii*, *Tetraneuris acaulis*

Anthelmintic: *Cirsium calcareum*

Anticonvulsive: *Atriplex confertifolia*, *A. obovata*, *Macromeria viridiflora*, *Salvia dorrii*, *Verbascum thapsus*

Antidiarrheal: *Opuntia whipplei*, *Sphaeralcea incana*, *S. sp.*

Antidote: *Physaria newberryi*

Antihemorrhagic: *Eriogonum* sp., *Lithospermum incisum*, *Sphaeralcea grossulariifolia*, *S. parvifolia*

Antirheumatic (External): *Hymenoxys bigelovii*, *Juniperus monosperma*, *Poliomintha incana*, *Senecio flaccidus*, *S. spartioides*, *Tetraneuris acaulis*

Antirheumatic (Internal): *Cycloloma atriplicifolium*

Blood Medicine: *Lithospermum incisum*

Breast Treatment: *Petradoria pumila*

Burn Dressing: *Krascheninnikovia lanata*

Cancer Treatment: *Cryptantha flava*

Carminative: *Gutierrezia microcephala*

Cathartic: *Hymenoxys bigelovii*

Ceremonial Medicine: *Astragalus* sp., *Atriplex canescens*, *Calochortus aureus*, *Chrysothamnus parryi*, *Delphinium geraniifolium*, *D. scaposum*, *Equisetum laevigatum*, *Hymenopappus filifolius*, *Lesquerella intermedia*, *Lycium pallidum*, *Nicotiana attenuata*, *Oenothera albicaulis*, *Physaria newberryi*, *Poa fendleriana*, *Rhus trilobata*, *Sarcobatus vermiculatus*, *Suaeda moquinii*, *Yucca angustissima*

Cold Remedy: *Rumex hymenosepalus*

Contraceptive: *Castilleja linariifolia*

Cough Medicine: *Machaeranthera grindelioides*

Dermatological Aid: *Artemisia filifolia*, *Chrysothamnus viscidiflorus*, *Cirsium calcareum*, *Cryptantha crassisejala*, *Dimorphocarpa wislizeni*, *Helianthus annuus*, *H. anomalous*, *H. petiolaris*, *Juniperus* sp., *Mirabilis coccineus*, *Pinus edulis*, *P. monophylla*, *Purshia stansburiana*, *Rhus trilobata*, *Rumex hymenosepalus*, *Senecio flaccidus*, *S. spartioides*, *Sphaeralcea parvifolia*, *Verbesina encelioides*, *Yucca angustissima*

Dietary Aid: *Chamaesyce fendleri*

Disinfectant: *Juniperus* sp., *Pinus edulis*, *P. monophylla*, *Yucca angustissima*

Diuretic: *Gaillardia pinnatifida*, *Sphaeralcea grossulariifolia*, *S. parvifolia*, *Stephanomeria exigua*

Ear Medicine: *Lupinus pusillus*, *Poliomintha incana*

Emetic: *Arenaria eastwoodiae*, *Astragalus* sp., *Croton texensis*, *Dalea candida*, *Delphinium scaposum*, *Hymenopappus filifolius*, *Lesquerella intermedia*, *Purshia stansburiana*, *Robinia neomexicana*, *Wyethia scabra*

Eye Medicine: *Croton texensis*, *Lupinus kingii*, *L. pusillus*, *Oenothera cespitosa*

Febrifuge: *Cycloloma atriplicifolium*, *Krascheninnikovia lanata*, *Verbesina encelioides*

Gastrointestinal Aid: *Artemisia filifolia*, *A. tridentata*, *Gutierrezia* sp., *Ipomopsis longiflora*, *Juniperus monosperma*, *J. sp.*, *Linum australe*, *Phoradendron juniperinum*, *Ribes cereum*, *Sphaeralcea* sp.

Gynecological Aid: *Asclepias subverticillata*, *A. verticillata*, *Castilleja linariifolia*, *Delphinium geraniifolium*, *D. scaposum*, *Eriogonum* sp., *Hymenoxys bigelovii*, *Ipomopsis aggregata*, *Juniperus monosperma*, *J. osteosperma*, *J. sp.*, *Lesquerella intermedia*, *Linum australe*, *Lygodesmia grandiflora*, *Machaeranthera canescens*, *M. tanacetifolia*, *Mirabilis multiflora*, *Petradoria pumila*, *Reverchonia arenaria*, *Stephanomeria pauciflora*, *Tetradymia canescens*, *Tetraneuris acaulis*

Hallucinogen: *Datura wrightii*, *Mirabilis multiflora*

Laxative: *Cirsium calcareum*, *Juniperus monosperma*, *Yucca angustissima*, *Y. baileyi*

Narcotic: *Datura wrightii*

Nose Medicine: *Chaetopappa ericoides*

Oral Aid: *Chamaesyce fendleri*, *Mahonia fremontii*

Orthopedic Aid: *Artemisia tridentata*, *Eriogonum* sp., *Juniperus* sp.,

*Krascheninnikovia lanata*, *Senecio flaccidus*, *Sphaeralcea grossulariifolia*, *S. parvifolia*, *S. sp.*, *Tetraneuris acaulis*

Other: *Datura wrightii*, *Helianthus petiolaris*, *Juniperus osteosperma*, *Salvia dorrii*

Panacea: *Chaetopappa ericoides*

Pediatric Aid: *Abronia elliptica*, *Chaetopappa ericoides*, *Chamaesyce fendleri*, *Juniperus monosperma*, *J. sp.*, *Sphaeralcea grossulariifolia*, *S. parvifolia*, *S. sp.*, *Tripterocalyx carnea*

Poison: *Datura wrightii*, *Oxytropis lambertii*, *Wyethia scabra*

Psychological Aid: *Datura wrightii*, *Macromeria viridiflora*, *Plantago patagonica*, *Verbascum thapsus*

Reproductive Aid: *Chaetopappa ericoides*, *Juniperus monosperma*, *Townsendia incana*

Sedative: *Abronia elliptica*, *Chaetopappa ericoides*, *Tripterocalyx carnea*

Snakebite Remedy: *Gaura parviflora*, *Lesquerella intermedia*

Stimulant: *Chaetopappa ericoides*, *Datura wrightii*, *Hymenoxys bigelovii*,

*Machaeranthera canescens*, *M. tanacetifolia*, *Salvia dorrii*, *Tetraneuris acaulis*

Throat Aid: *Cirsium calcareum*, *Townsendia incana*, *T. strigosa*

Tonic: *Ephedra viridis*, *Tetradymia canescens*

Toothache Remedy: *Hymenopappus filifolius*, *Mentzelia albicaulis*, *M. pumila*, *Oenothera cespitosa*, *Parryella filifolia*

Tuberculosis Remedy: *Erysimum capitatum*, *E. inconspicuum*, *Pinus edulis*, *Rhus trilobata*

Unspecified: *Hymenoxys bigelovii*, *Lithospermum incisum*, *Marrubium vulgare*, *Phoradendron juniperinum*, *P. sp.*, *Rhus trilobata*

Venereal Aid: *Ephedra torreyana*, *E. viridis*, *Stephanomeria exigua*

Veterinary Aid: *Mirabilis multiflora*, *Phacelia crenulata*

Witchcraft Medicine: *Macromeria viridiflora*, *Phoradendron juniperinum*,

*Pinus edulis*, *P. monophylla*, *Verbascum thapsus*

## Food

Beverage: *Bidens amplexans*, *Hymenopappus filifolius*, *Hymenoxys cooperi*, *Ipomopsis aggregata*, *Rhus trilobata*, *Thelesperma megapotamicum*, *T. subnudum*

Bread & Cake: *Chenopodium graveolens*, *Eriogonum corymbosum*, *Hymenopappus filifolius*, *Muhlenbergia rigens*, *Oryzopsis hymenoides*, *Panicum capillare*, *Sporobolus cryptandrus*, *Zea mays*

Candy: *Astragalus ceramicus*, *Calochortus nuttallii*, *Dalea lanata*, *Erodium cicutarium*, *Populus sp.*, *Typha angustifolia*

Cooking Agent: *Amaranthus cruentus*, *Carthamus tinctorius*, *Citrullus lanatus*, *Cucurbita moschata*, *Solanum jamesii*

Dried Food: *Capsicum annuum*, *Cucumis melo*, *Cucurbita moschata*, *Eriogonum corymbosum*, *Helianthus sp.*, *Monarda fistulosa*, *Pectis angustifolia*, *Poliomintha incana*, *Prunus persica*, *Zea mays*

## Houma

### Drug

Abortifacient: *Rumex salicifolius*, *Sonchus oleraceus*

Analgesic: *Chenopodium ambrosioides*, *Desmodium paniculatum*, *Hypericum hypericoides*, *Lagenaria siceraria*, *Pleopeltis polypodioides*, *Polygonum punctatum*, *Sambucus canadensis*, *S. cerulea*

Anthelmintic: *Chenopodium ambrosioides*, *Myrica cerifera*, *Nyssa sylvatica*, *Solanum nigrum*

Antidiarrheal: *Quercus pagoda*, *Q. virginiana*, *Sonchus oleraceus*, *Ulmus americana*

Antiemetic: *Gonolobus* sp., *Panax quinquefolius*

Antirheumatic (External): *Quercus alba*

Antirheumatic (Internal): *Panax quinquefolius*

Blood Medicine: *Cocculus carolinus*, *Ipomoea sagittata*, *Magnolia virginiana*, *Passiflora incarnata*, *Salix caroliniana*, *S. nigra*, *Sequoia sempervirens*

Burn Dressing: *Plantago cordata*

Cold Remedy: *Gamochaeta purpurea*, *Magnolia virginiana*

Dermatological Aid: *Chamaesyce nutans*, *Cirsium horridulum*, *Ipomoea sagittata*, *Juglans nigra*, *Liquidambar styraciflua*, *Parthenocissus quinquefolia*, *Plantago cordata*, *Polymnia canadensis*, *Sambucus canadensis*, *S. cerulea*, *Solanum nigrum*

Diaphoretic: *Liquidambar styraciflua*

Expectorant: *Cirsium horridulum*

Eye Medicine: *Sabal minor*

Febrifuge: *Cornus florida*, *C. foemina*, *Eupatorium serotinum*, *Hypericum hypericoides*, *Laportea canadensis*, *Liquidambar styraciflua*, *Magnolia virginiana*, *Pluchea* sp., *Rumex salicifolius*, *Salix caroliniana*, *S. nigra*, *Tillandsia usneoides*, *Xanthium strumarium*

Gastrointestinal Aid: *Chamaesyce nutans*, *Rumex salicifolius*

Gynecological Aid: *Ambrosia artemisiifolia*, *Andropogon* sp., *Conyza canadensis*, *Erigeron philadelphicus*, *Hypericum hypericoides*

Heart Medicine: *Ipomoea sagittata*, *Sanicula canadensis*

Hemorrhoid Remedy: *Pluchea* sp.

Hypotensive: *Juglans nigra*, *Sabal minor*

Kidney Aid: *Arundinaria gigantea*, *Sabal minor*, *Verbena officinalis*

Liver Aid: *Rumex salicifolius*, *Sequoia sempervirens*, *Solidago nemoralis*, *Verbena officinalis*

Misc. Disease Remedy: *Bignonia capreolata*, *Cornus florida*, *C. foemina*, *Eupatorium serotinum*, *Gamochaeta purpurea*, *Modiola caroliniana*, *Parthenocissus quinquefolia*, *Sassafras albidum*, *Senna tora*, *Strophostyles helvula*

Oral Aid: *Pleopeltis polypodioides*

Orthopedic Aid: *Phoradendron leucarpum*, *Phyla nodiflora*, *Polygonum punctatum*, *Quercus pagoda*, *Scirpus* sp., *Zanthoxylum clava-herculis*

Panacea: *Forestiera acuminata*, *Phoradendron leucarpum*

Pediatric Aid: *Andropogon* sp., *Chamaesyce nutans*, *Chenopodium ambrosioides*, *Phyla nodiflora*, *Pleopeltis polypodioides*, *Scirpus* sp., *Solanum nigrum*, *Sonchus oleraceus*

Pulmonary Aid: *Iresine diffusa*, *Typha latifolia*

Reproductive Aid: *Berchemia scandens*

Sedative: *Scirpus* sp.

Snakebite Remedy: *Ipomoea sagittata*, *Melothria pendula*

Stimulant: *Arundinaria gigantea*, *Desmodium paniculatum*, *Sabal minor*

Throat Aid: *Celtis laevigata*, *C. occidentalis*, *Cirsium horridulum*, *Modiola caroliniana*, *Quercus pagoda*

Tonic: *Quercus pagoda*, *Sambucus canadensis*, *S. cerulea*, *Toxicodendron radicans*

Toothache Remedy: *Hypericum hypericoides*, *Sonchus oleraceus*, *Zanthoxylum clava-herculis*

Tuberculosis Remedy: *Apium graveolens*, *Lepidium virginicum*

Urinary Aid: *Smilax bona-nox*, *S. laurifolia*

Venereal Aid: *Celtis laevigata*, *C. occidentalis*

Vertigo Medicine: *Pleopeltis polypodioides*

### Food

Bread & Cake: *Sabal minor*, *Smilax bona-nox*, *S. laurifolia*

Laxative: *Acer pennsylvanicum*, *Apocynum cannabinum*, *Aster macrophyllum*, *Chimaphila umbellata*, *Cornus amomum*, *Dirca palustris*, *Eupatorium perfoliatum*, *Fraxinus americana*, *F. nigra*, *Geranium maculatum*, *Juglans cinerea*, *J. nigra*, *Lycopus asper*, *Monarda sp.*, *Nepeta cataria*, *Osmorhiza sp.*, *Pinus rigida*, *Podophyllum peltatum*, *Populus balsamifera*, *Ranunculus recurvatus*, *Rhus sp.*, *Rubus odoratus*, *Sagittaria latifolia*, *Sambucus canadensis*, *Sanguinaria canadensis*, *Sanicula marilandica*, *Senna hebecarpa*, *Sisyrinchium angustifolium*, *Taraxacum officinale*, *Triosteum perfoliatum*, *Verbascum thapsus*, *Viburnum opulus*

Liver Aid: *Adiantum pedatum*, *Agrimonia sp.*, *Apocynum androsaemifolium*, *Aralia racemosa*, *Baptisia tinctoria*, *Caulophyllum thalictroides*, *Chelone glabra*, *Eupatorium maculatum*, *Fagus grandifolia*, *Gaylussacia baccata*, *Gentiana andrewsii*, *Hydrastis canadensis*, *Impatiens capensis*, *Ipomoea pandurata*, *Jeffersonia diphylla*, *Juglans cinerea*, *Panax quinquefolius*, *Phytolacca americana*, *Pinus strobus*, *Prunus serotina*, *Pteridium aquilinum*, *Rhus sp.*, *Rubus idaeus*, *R. occidentalis*, *Sambucus canadensis*, *Sanguinaria canadensis*, *Sarracenia purpurea*, *Sedum telephium*, *Solidago canadensis*, *S. juncea*, *S. rugosa*, *Tanacetum vulgare*, *Thalictrum pubescens*, *Viburnum opulus*

Love Medicine: *Anemone virginiana*, *Aster novae-angliae*, *A. sp.*, *Caltha palustris*, *Cardamine concatenata*, *C. diphylla*, *Corallorrhiza maculata*, *Dirca palustris*, *Eupatorium maculatum*, *Galium triflorum*, *Geranium maculatum*, *Geum aleppicum*, *G. canadense*, *Lilium philadelphicum*, *Linaria vulgaris*, *Lobelia cardinalis*, *L. inflata*, *L. kalmii*, *L. spicata*, *Lonicera dioica*, *Malva neglecta*, *Mitchella repens*, *Osmorhiza sp.*, *Penstemon fruticosus*, *Phytolacca americana*, *Polygonum arenastrum*, *Populus alba*, *Prenanthes trifoliolata*, *Rumex crispus*, *Sarracenia purpurea*, *Solidago canadensis*, *Spiraea sp.*, *Taraxacum officinale*, *Viburnum lantanoides*, *Vicia americana*, *V. sativa*

Misc. Disease Remedy: *Achillea millefolium*, *Acorus calamus*, *Angelica atropurpurea*, *Aralia nudicaulis*, *Armoracia rusticana*, *Asarum canadense*, *Aster puniceus*, *Ceanothus americanus*, *Cinna arundinacea*, *Clintonia borealis*, *Dirca palustris*, *Eupatorium perfoliatum*, *Hamamelis virginiana*, *Heracleum maximum*, *Inula helenium*, *Ipomoea pandurata*, *Lindera benzoin*, *Mentha spicata*, *Mitchella repens*, *Nuphar lutea*, *Panax quinquefolius*, *Pinus strobus*, *Polypodium virginianum*, *Populus tremuloides*, *Porteranthus trifoliatus*, *Prunella vulgaris*, *Prunus virginiana*, *Quercus bicolor*, *Ranunculus abortivus*, *Rhus sp.*, *Rumex crispus*, *Sambucus canadensis*, *Scutellaria lateriflora*, *Sisyrinchium montanum*, *Tsuga canadensis*, *Typha latifolia*, *Verbascum thapsus*

Nose Medicine: *Arisaema triphyllum*

Oral Aid: *Ceanothus americanus*, *Cirsium arvense*, *Coptis trifolia*, *Cornus sericea*, *Fragaria sp.*, *Geranium maculatum*, *Hydrophyllum virginianum*, *Juglans cinerea*, *Nepeta cataria*, *Oxalis stricta*, *Populus xjackii*, *Rhus sp.*, *Salix sericea*, *Syringa vulgaris*, *Tiarella cordifolia*, *Toxicodendron pubescens*

Orthopedic Aid: *Abies balsamea*, *Acer pennsylvanicum*, *Adiantum pedatum*, *Alisma plantago-aquatica*, *Ambrosia artemisiifolia*, *Angelica atropurpurea*, *A. venenosa*, *Aralia racemosa*, *Arctium sp.*, *Arisaema triphyllum*, *Asclepias incarnata*, *Baptisia tinctoria*, *Betula lenta*, *Cicuta maculata*, *Cimicifuga racemosa*, *Cornus racemosa*, *Cypripedium parviflorum*, *Dirca palustris*, *Epilobium angustifolium*, *Equisetum arvense*, *Eupatorium perfoliatum*, *Galium triflorum*, *Gentiana andrewsii*, *Gnaphalium uliginosum*, *Hamamelis virginiana*, *Hepatica nobilis*, *Iris versicolor*, *Lactuca canadensis*, *Malus sylvestris*, *Malva neglecta*, *Mitchella repens*, *Oenothera perennis*, *Osmunda cinnamomea*, *Parthenocissus quinquefolia*, *Pedicularis canadensis*, *Phytolacca americana*, *Pinus strobus*, *Plantago sp.*, *Polygala paucifolia*, *Polygonum arenastrum*, *P. aviculare*, *Polystichum acrostichoides*, *Prunella vulgaris*, *Pyrola elliptica*, *Quercus*

## [Orthopedic Aid]

*bicolor*, *Ranunculus abortivus*, *Rhamnus alnifolia*, *Rhus* sp., *Ribes americana*, *Rumex crispus*, *Sassafras albidum*, *Senecio aureus*, *Silphium perfoliatum*, *Sium suave*, *Smallanthus uvedalia*, *Spiraea* sp., *Tanacetum vulgare*, *Taraxacum officinale*, *Taxus baccata*, *Thuja occidentalis*, *Tiarella cordifolia*, *Tilia americana*, *Trillium* sp., *Tsuga canadensis*, *Typha latifolia*, *Ulmus americana*, *Uvularia perfoliata*, *U. sessilifolia*, *Verbascum thapsus*, *Viburnum dentatum*, *Zanthoxylum americanum*

Other: *Agrimonia gryposepala*, *Alisma plantago-aquatica*, *Angelica atropurpurea*, *Anthemis cotula*, *Asclepias incarnata*, *A. syriaca*, *A. tuberosa*, *Cardamine diphylla*, *Carex platyphylla*, *C. vulpinoidea*, *Carpinus caroliniana*, *Ceanothus americanus*, *Celastrus scandens*, *Circaea lutetiana*, *Elymus canadensis*, *Equisetum hyemale*, *Euonymus obovata*, *E. sp.*, *Eupatorium perfoliatum*, *E. purpureum*, *Festuca subverticillata*, *Fraxinus nigra*, *Hepatica nobilis*, *Ilex verticillata*, *Ipomoea pandurata*, *Lespedeza* sp., *Lobelia cardinalis*, *L. inflata*, *L. sp.*, *Luzula* sp., *Maianthemum racemosum*, *Mentha x piperita*, *M. spicata*, *Monarda* sp., *Myriophyllum verticillatum*, *Nepeta cataria*, *Nuphar lutea*, *Oxalis stricta*, *Parthenocissus quinquefolia*, *Phragmites australis*, *Pinus strobus*, *Polygala verticillata*, *Quercus ilicifolia*, *Q. sp.*, *Ribes americanum*, *R. rotundifolium*, *Rubus allegheniensis*, *Sanguinaria canadensis*, *Sedum telephium*, *Sisyrinchium angustifolium*, *Solanum nigrum*, *Solidago canadensis*, *S. rugosa*, *Thalictrum dioicum*, *Tiarella cordifolia*, *Tilia americana*, *Ulmus americana*, *Vaccinium* sp., *Verbena hastata*, *Vitis vulpina*

Panacea: *Achillea millefolium*, *Ageratina altissima*, *Cardamine concatenata*, *Collinsonia canadensis*, *Cornus sericea*, *Epilobium angustifolium*, *Geum canadense*, *Hamamelis virginiana*, *Inula helenium*, *Lindera benzoin*, *Lobelia cardinalis*, *Medeola virginiana*, *Osmunda cinnamomea*, *Panax quinquefolius*, *Pinus strobus*, *Platanthera psychodes*, *Prunella vulgaris*, *Rumex crispus*, *Sanguinaria canadensis*, *Saxifraga pennsylvanica*, *Tanacetum vulgare*, *Tilia americana*, *Veronicastrum virginicum*, *Viola* sp.

Pediatric Aid: *Achillea millefolium*, *Acorus calamus*, *Adiantum pedatum*, *Agrimonia gryposepala*, *Allium* sp., *A. tricoccum*, *Anthemis cotula*, *Apocynum cannabinum*, *Argentina anserina*, *Arisaema triphyllum*, *Asarum canadense*, *Asclepias incarnata*, *Aster prenanthoides*, *Carpinus caroliniana*, *Castanea dentata*, *Ceanothus americanus*, *Celastrus scandens*, *Chimaphila umbellata*, *Cimicifuga racemosa*, *Claytonia virginica*, *Collinsonia canadensis*, *Conyza canadensis*, *Coptis trifolia*, *Cornus alternifolia*, *C. amomum*, *Corylus americana*, *C. cornuta*, *Cucurbita pepo*, *Diervilla lonicera*, *Equisetum arvense*, *Euonymus europaea*, *Euphorbia helioscopia*, *Fagopyrum esculentum*, *Fragaria* sp., *Galium triflorum*, *Geranium maculatum*, *Helianthus strumosus*, *Hepatica nobilis*, *Inula helenium*, *Jeffersonia diphylla*, *Linaria vulgaris*, *Linnaea borealis*, *Lithospermum officinale*, *Lonicera canadensis*, *L. dioica*, *L. sp.*, *Lycopus asper*, *Malva neglecta*, *Medeola virginiana*, *Mentha canadensis*, *M. spicata*, *Mitchella repens*, *Monarda* sp., *Myriophyllum sibiricum*, *M. verticillatum*, *Nepeta cataria*, *Nuphar lutea*, *Onoclea sensibilis*, *Osmorhiza* sp., *Osmunda regalis*, *Panax quinquefolius*, *Pinus strobus*, *Platanthera psychodes*, *Polygala paucifolia*, *P. verticillata*, *Polygonum aviculare*, *P. hydropiper*, *Polystichum acrostichoides*, *Populus tremuloides*, *Prunella vulgaris*, *Prunus serotina*, *P. virginiana*, *Pyrola elliptica*, *Rhamnus alnifolia*, *Rhus* sp., *Rorippa sylvestris*, *Rubus allegheniensis*, *R. occidentalis*, *R. odoratus*, *Rudbeckia hirta*, *Rumex obtusifolius*, *Sagittaria latifolia*, *Sambucus canadensis*, *Sanguinaria canadensis*, *Sanicula marilandica*, *Sedum telephium*, *Senecio aureus*, *Silphium perfoliatum*, *Solidago canadensis*, *Sonchus asper*, *Spiraea* sp., *Staphylea trifolia*, *Symplocarpus foetidus*, *Syringa vulgaris*, *Tiarella cordifolia*, *Tilia americana*, *Toxicodendron pubescens*, *Triosteum perfoliatum*, *Uvularia perfoliata*, *Verbascum thapsus*, *Viburnum opulus*, *Viola* sp., *Vitis vulpina*

Poison: *Angelica atropurpurea*, *A. venenosa*, *Cardamine rhomboidea*, *Celastrus scandens*, *Cicuta maculata*, *Datura stramonium*, *Dipsacus fullonum*, *Eupatorium perfoliatum*, *Lycopus asper*, *L. virginicus*, *Onopordum acanthium*, *Parthenocissus quinquefolia*, *Podophyllum peltatum*, *Sisyrinchium montanum*,

*Trillium* sp., *Veronicastrum virginicum*

Poultice: *Cornus amomum*, *Verbena hastata*

Psychological Aid: *Actaea rubra*, *Asarum canadense*, *Cannabis sativa*, *Cardamine diphylla*, *Cornus sericea*, *Corylus cornuta*, *Eupatorium perfoliatum*, *Gentiana andrewsii*, *Ilex verticillata*, *Juglans cinerea*, *J. nigra*, *Laportea canadensis*, *Lobelia cardinalis*, *L. inflata*, *Lonicera canadensis*, *L. oblongifolia*, *Mitchella repens*, *Nicotiana rustica*, *Pinus strobus*, *Plantago* sp., *Polygonum punctatum*, *Prunella vulgaris*, *Quercus alba*, *Ranunculus abortivus*, *Salix discolor*, *Smilax herbacea*

Pulmonary Aid: *Acer saccharum*, *Aesculus hippocastanum*, *Angelica atropurpurea*, *Anthemis cotula*, *Aralia racemosa*, *Asarum canadense*, *Aster puniceus*, *Campanulastrum americanum*, *Cardamine diphylla*, *Cornus amomum*, *C. sericea*, *Cypripedium pubescens*, *Erigeron philadelphicus*, *Eupatorium perfoliatum*, *Gentiana quinquefolia*, *Hamamelis virginiana*, *Hepatica nobilis*, *Hydrastis canadensis*, *Inula helenium*, *Nuphar lutea*, *Panax trifolius*, *Pinus strobus*, *Plantago* sp., *Prunella vulgaris*, *Prunus serotina*, *Rhus* sp., *Rubus occidentalis*, *Rumex obtusifolius*, *Sanguinaria canadensis*, *Sarracenia purpurea*, *Taraxacum officinale*, *Triosteum perfoliatum*, *Veronicastrum virginicum*, *Viburnum lantanoides*, *V. opulus*

Reproductive Aid: *Athyrium filix-femina*, *Fraxinus americana*, *F. nigra*, *Hypericum perforatum*, *Lycopodium complanatum*, *Rhus hirta*, *Rumex crispus*

Respiratory Aid: *Acorus calamus*, *Anaphalis margaritacea*, *Arisaema triphyllum*, *Asarum canadense*, *Cornus alternifolia*, *Corylus americana*, *Gnaphalium uliginosum*, *Hamamelis virginiana*, *Ilex verticillata*, *Inula helenium*, *Iris versicolor*, *Mentha spicata*, *Panax quinquefolius*, *Pilea pumila*, *Plantago major*, *Prunella vulgaris*, *Prunus serotina*, *Quercus bicolor*, *Rubus allegheniensis*, *Sanguinaria canadensis*, *Taxus baccata*, *Trifolium repens*, *Trillium* sp., *Ulmus rubra*, *Veratrum viride*, *Verbascum thapsus*

Sedative: *Allium* sp., *Anthemis cotula*, *Cornus amomum*, *Cypripedium parviflorum*, *Leonurus cardiaca*, *Linaria vulgaris*, *Linnaea borealis*, *Lonicera canadensis*, *L. oblongifolia*, *Nepeta cataria*, *Prunella vulgaris*, *Rhamnus alnifolia*, *Smallanthus uvedalia*, *Solidago canadensis*, *Sonchus asper*, *Staphylea trifolia*, *Toxicodendron pubescens*

Snakebite Remedy: *Adiantum pedatum*, *Calla palustris*, *Fraxinus americana*, *Maianthemum racemosum*, *Prenanthes alba*, *P. altissima*, *P. trifoliolata*, *Ranunculus abortivus*, *Scirpus tabernaemontani*, *Waldsteinia fragarioides*

Sports Medicine: *Asclepias tuberosa*, *Cornus sericea*, *Dicentra cucullaria*, *Juncus tenuis*, *Panax trifolius*, *Sarracenia purpurea*

Stimulant: *Achillea millefolium*, *Arisaema triphyllum*, *Asarum canadense*, *Betula lenta*, *Cannabis sativa*, *Chimaphila umbellata*, *Collinsonia canadensis*, *Cypripedium parviflorum*, *Hydrastis canadensis*, *Larix laricina*, *Malva moschata*, *Monarda* sp., *Myriophyllum verticillatum*, *Oenothera biennis*, *Panax quinquefolius*, *Polystichum acrostichoides*, *Prenanthes alba*, *Prunus serotina*, *Rubus idaeus*, *Thuja occidentalis*, *Tilia americana*, *Tsuga canadensis*, *Ulmus rubra*

Strengtheners: *Aralia racemosa*, *Asclepias incarnata*, *Collinsonia canadensis*, *Dirca palustris*, *Juncus bufonius*, *Oenothera biennis*, *Plantago* sp., *Podophyllum peltatum*, *Rumex crispus*, *Viburnum opulus*

Throat Aid: *Acorus calamus*, *Aralia nudicaulis*, *Asarum canadense*, *Coptis trifolia*, *Geranium maculatum*, *Nepeta cataria*, *Pinus strobus*, *Polystichum acrostichoides*, *Porteranthus trifolius*, *Prunus serotina*, *Quercus* sp., *Rhus* sp., *Salix nigra*, *Sanguinaria canadensis*, *Scutellaria lateriflora*, *Thlaspi arvense*, *Triosteum perfoliatum*, *Ulmus rubra*

Tonic: *Allium tricoccum*, *Aralia racemosa*, *Asarum canadense*, *Caulophyllum thalictroides*, *Chimaphila umbellata*, *Dirca palustris*, *Juniperus communis*, *Leonurus cardiaca*, *Osmorhiza* sp., *Panax quinquefolius*, *Populus alba*, *Rhamnus alnifolia*, *Rubus idaeus*, *Rumex crispus*, *R. obtusifolius*, *Sassafras albidum*, *Tiarella cordifolia*

Toothache Remedy: *Acorus calamus*, *Antennaria plantaginifolia*, *Anthemis cotula*, *Asclepias incarnata*, *Celastrus scandens*, *Corylus americana*, *C. cornuta*,

*Equisetum arvense*, *Fragaria* sp., *Hamamelis virginiana*, *Juglans cinerea*, *Magnolia acuminata*, *Polymnia canadensis*, *Ranunculus abortivus*, *R. bulbosus*, *R. hispidus*, *R. recurvatus*, *Taraxacum officinale*, *Verbascum thapsus*, *Zanthoxylum americanum*

**Tuberculosis Remedy:** *Abies balsamea*, *Alisma plantago-aquatica*, *Amphicarpaea bracteata*, *Anemone virginiana*, *Aralia nudicaulis*, *A. racemosa*, *Arisaema triphyllum*, *Asarum canadense*, *Aster puniceus*, *Botrychium virginianum*, *Cardamine diphylla*, *Carpinus caroliniana*, *Corallorrhiza maculata*, *Cornus alternifolia*, *C. canadensis*, *C. rugosa*, *C. sericea*, *Cynoglossum officinale*, *Cypripedium parviflorum*, *C. pubescens*, *Dirca palustris*, *Epilobium angustifolium*, *Erigeron pulchellus*, *Eupatorium maculatum*, *Fagus grandifolia*, *Hamamelis virginiana*, *Hieracium* sp., *Hydrastis canadensis*, *Inula helenium*, *Ipomoea pandurata*, *Juglans cinerea*, *Laportea canadensis*, *Lobelia cardinalis*, *Lonicera dioica*, *Malus coronaria*, *Nicotiana rustica*, *Onoclea sensibilis*, *Ostrya virginiana*, *Panax quinquefolius*, *Pedicularis canadensis*, *Picea* sp., *Pinus strobus*, *Platanthera orbiculata*, *Polystichum acrostichoides*, *Prunella vulgaris*, *Prunus serotina*, *P. virginiana*, *Pteridium aquilinum*, *Quercus alba*, *Q. bicolor*, *Q. sp.*, *Rhus* sp., *Rubus allegheniensis*, *Salix discolor*, *S. sp.*, *Sanguinaria canadensis*, *Scirpus tabernaemontani*, *Spiraea* sp., *Symplocarpus foetidus*, *Taxus baccata*, *Tilia americana*, *Tsuga canadensis*, *Tussilago farfara*, *Ulmus rubra*, *Veratrum viride*, *Verbascum thapsus*, *Viburnum lentago*, *Zanthoxylum americanum*

**Unspecified:** *Acer saccharinum*, *A. saccharum*, *Asclepias syriaca*, *Betula lenta*, *Coptis trifolia*, *Fragaria virginiana*, *Rubus canadensis*, *Sambucus canadensis*

**Urinary Aid:** *Abies balsamea*, *Actaea pachypoda*, *Alnus incana*, *Aralia racemosa*, *Asarum canadense*, *Asclepias incarnata*, *Ceanothus americanus*, *Celastrus scandens*, *Chimaphila umbellata*, *Citrullus lanatus*, *Clematis virginiana*, *Cornus amomum*, *Diervilla lonicera*, *Dirca palustris*, *Elytrigia repens*, *Epilobium angustifolium*, *Equisetum hyemale*, *Euonymus americana*, *E. europaea*, *E. obovata*, *Fraxinus nigra*, *Galium* sp., *G. triflorum*, *Impatiens capensis*, *Juglans cinerea*, *Lonicera oblongifolia*, *Mitchella repens*, *Parthenocissus quinquefolia*, *P. vitacea*, *Plantago* sp., *Populus tremuloides*, *Pteridium aquilinum*, *Rhus* sp., *Rosa eglanteria*, *Rubus idaeus*, *Taraxacum officinale*, *Triosteum perfoliatum*, *Viburnum acerifolium*, *Vitis vulpina*

**Veneral Aid:** *Abies balsamea*, *Achillea millefolium*, *Adiantum pedatum*, *Ageratina altissima*, *Alnus incana*, *Amelanchier arborea*, *Anthemis cotula*, *Aralia nudicaulis*, *A. racemosa*, *Asarum canadense*, *Aster macrophyllus*, *Athyrium filix-femina*, *Ceanothus americanus*, *Chimaphila umbellata*, *Clematis virginiana*, *Coptis trifolia*, *Cornus alternifolia*, *C. amomum*, *C. drummondii*, *C. racemosa*, *Cynoglossum officinale*, *Dalibarda repens*, *Diervilla lonicera*, *Dirca palustris*, *Equisetum hyemale*, *Euonymus* sp., *Eupatorium maculatum*, *E. perfoliatum*, *Fraxinus americana*, *Galium* sp., *Gaultheria procumbens*, *Geranium maculatum*, *Hamamelis virginiana*, *Juglans cinerea*, *Larix laricina*, *Lindera benzoin*, *Lobelia inflata*, *Lonicera canadensis*, *L. dioica*, *Lycopodium sabinifolium*, *Magnolia acuminata*, *Mertensia virginica*, *Mitchella repens*, *Onoclea sensibilis*, *Osmorhiza* sp., *Osmunda cinnamomea*, *O. claytoniana*, *Panax quinquefolius*, *Physalis heterophylla*, *Pinus strobus*, *Polygala paucifolia*, *Polystichum acrostichoides*, *Populus tremuloides*, *Prunella vulgaris*, *Prunus serotina*, *Pteridium aquilinum*, *Ranunculus bulbosus*, *R. recurvatus*, *Rhamnus alnifolia*, *Rhus* sp., *Rubus idaeus*, *R. occidentalis*, *R. odoratus*, *Rumex crispus*, *Salix myricoides*, *Sambucus canadensis*, *Sanguinaria canadensis*, *Sanicula marilandica*, *Sicyos angulatus*, *Solidago squarrosa*, *Triosteum perfoliatum*, *Tsuga canadensis*, *Typha latifolia*, *Viburnum lantanoides*, *Zanthoxylum americanum*

**Veterinary Aid:** *Actaea rubra*, *Ageratina altissima*, *Apocynum androsaemifolium*, *Arctium* sp., *Arisaema triphyllum*, *Asarum canadense*, *Butomus umbellatus*, *Carex prasina*, *Carum carvi*, *Castanea dentata*, *Chelidonium majus*, *Cicuta maculata*, *Corallorrhiza maculata*, *Cornus racemosa*, *Eupatorium perfoliatum*, *Fraxinus americana*, *F. nigra*, *Geum aleppicum*, *Eupatorium concolor*, *Inula helenium*, *Juncus tenuis*, *Myosotis* sp., *Nuphar lutea*, *Osmunda cinnamomea*, *Pinus strobus*, *Podophyllum peltatum*, *Polygonum arenastrum*, *P. pennsylvanicum*, *P. persicaria*, *Populus balsamifera*, *P. deltoides*, *P. tremuloides*,

*Prunus virginiana*, *Pteridium aquilinum*, *Quercus alba*, *Ranunculus* sp., *Rhus* sp., *Rubus idaeus*, *Sedum telephium*, *Sicyos angulatus*, *Sisymbrium officinale*, *Sparganium eurycarpum*, *Trifolium hybridum*, *Triticum aestivum*, *Typha latifolia*, *Veronica officinalis*, *Viola* sp., *Vitis labrusca*

**Witchcraft Medicine:** *Acorus calamus*, *Ageratina altissima*, *Alnus incana*, *Amaranthus retroflexus*, *Anemone canadensis*, *A. virginiana*, *Angelica atropurpurea*, *Aquilegia canadensis*, *Arctium* sp., *Asarum canadense*, *Asclepias incarnata*, *Cardamine douglassii*, *Chelone glabra*, *Corallorrhiza maculata*, *Cornus sericea*, *Crataegus punctata*, *C. submollis*, *Epilobium angustifolium*, *Euonymus obovata*, *Eupatorium perfoliatum*, *Fagopyrum esculentum*, *Galeopsis tetrahit*, *Gentiana andrewsii*, *Hepatica nobilis*, *Ipomoea pandurata*, *Juglans nigra*, *Laportea canadensis*, *Linaria vulgaris*, *Lobelia cardinalis*, *L. inflata*, *L. siphilitica*, *Lythrum salicaria*, *Maianthemum racemosum*, *Medeola virginiana*, *Mentha × piperita*, *Nuphar lutea*, *Onopordum acanthium*, *Oxalis stricta*, *Phytolacca americana*, *Pinus strobus*, *Potamogeton* sp., *Pteridium aquilinum*, *Quercus alba*, *Q. bicolor*, *Rosa acicularis*, *Rubus allegheniensis*, *R. occidentalis*, *Sanguinaria canadensis*, *Sedum telephium*, *Silphium perfoliatum*, *Smilax tannoides*, *Sparganium eurycarpum*, *Symplocarpus foetidus*, *Taraxacum officinale*, *Trillium* sp., *Triosteum perfoliatum*, *Urtica dioica*, *Verbena hastata*, *Veronica officinalis*, *Veronicastrum virginicum*, *Viburnum acerifolium*, *Viola sagittata*, *V. striata*, *Xanthium strumarium*

## Food

**Baby Food:** *Carya ovata*, *Juglans cinerea*, *Zea mays*

**Beverage:** *Acer saccharinum*, *A. saccharum*, *Alisma plantago-aquatica*, *Aralia nudicaulis*, *Betula lenta*, *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Corylus americana*, *Fagus grandifolia*, *Juglans cinerea*, *J. nigra*, *Monarda fistulosa*, *Prunus americana*, *Quercus* sp., *Rhus glabra*, *Rubus canadensis*, *Taraxacum officinale*, *Taxus canadensis*, *Tsuga canadensis*, *Zea mays*

**Bread & Cake:** *Acer rubrum*, *A. saccharinum*, *A. saccharum*, *Amelanchier canadensis*, *Asimina triloba*, *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Citrullus lanatus*, *Corylus americana*, *Crataegus pruinosa*, *C. submollis*, *Cucumis melo*, *C. sativus*, *Cucurbita maxima*, *C. moschata*, *C. pepo*, *Fagus grandifolia*, *Fragaria vesca*, *F. virginiana*, *Gaultheria procumbens*, *Gaylussacia baccata*, *Juglans cinerea*, *J. nigra*, *Malus coronaria*, *M. sylvestris*, *Mitchella repens*, *Morus rubra*, *Phaseolus coccineus*, *P. lunatus*, *P. vulgaris*, *Physalis* sp., *Podophyllum peltatum*, *Prunus americana*, *P. nigra*, *P. pennsylvanica*, *P. persica*, *P. serotina*, *P. virginiana*, *Pyrus communis*, *Quercus* sp., *Ribes americanum*, *R. triste*, *Rubus canadensis*, *R. idaeus*, *R. occidentalis*, *R. odoratus*, *R. pubescens*, *Sambucus canadensis*, *Vaccinium angustifolium*, *V. corymbosum*, *V. macrocarpon*, *V. oxycoccos*, *V. sp.*, *Viburnum lentago*, *V. opulus*, *Vitis vulpina*, *Zea mays*

**Dried Food:** *Amelanchier canadensis*, *Arctium lappa*, *Asimina triloba*, *Citrullus lanatus*, *Crataegus pruinosa*, *C. submollis*, *Cucumis melo*, *C. sativus*, *Cucurbita maxima*, *C. moschata*, *C. pepo*, *Fragaria vesca*, *F. virginiana*, *Gaultheria procumbens*, *Gaylussacia baccata*, *Malus coronaria*, *M. sylvestris*, *Mitchella repens*, *Morus rubra*, *Phaseolus coccineus*, *P. lunatus*, *P. vulgaris*, *Physalis* sp., *Podophyllum peltatum*, *Prunus americana*, *P. nigra*, *P. pennsylvanica*, *P. persica*, *P. serotina*, *P. virginiana*, *Pyrus communis*, *P. sp.*, *Ribes americanum*, *R. triste*, *Rubus canadensis*, *R. idaeus*, *R. occidentalis*, *R. odoratus*, *R. pubescens*, *Sambucus canadensis*, *Vaccinium angustifolium*, *V. corymbosum*, *V. macrocarpon*, *V. oxycoccos*, *Viburnum lentago*, *V. opulus*, *Vitis vulpina*

**Forage:** *Artemisia biennis*, *Spartina alterniflora*, *Stellaria media*

**Fruit:** *Amelanchier canadensis*, *A. sp.*, *Asimina triloba*, *Corylus cornuta*, *Crataegus pruinosa*, *C. submollis*, *Fragaria vesca*, *F. virginiana*, *Gaultheria procumbens*, *Gaylussacia baccata*, *Malus coronaria*, *M. sylvestris*, *Mitchella repens*, *Morus rubra*, *Physalis* sp., *Podophyllum peltatum*, *Prunus americana*, *P. nigra*, *P. pennsylvanica*, *P. persica*, *P. serotina*, *P. virginiana*, *Pyrus communis*, *P. sp.*, *Ribes americanum*, *R. triste*, *Rubus canadensis*, *R. idaeus*, *R. occidentalis*, *R. odoratus*, *R. pubescens*, *R. sp.*, *Sambucus canadensis*, *Vaccinium angustifolium*, *V. corymbosum*, *V. macrocarpon*, *V. oxycoccos*, *Viburnum lentago*, *V. opulus*, *Vitis vulpina*

Pie & Pudding: *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Corylus americana*, *Cucurbita pepo*, *Fagus grandifolia*, *Gaylussacia baccata*, *Juglans cinerea*, *J. nigra*, *Quercus* sp., *Rubus occidentalis*, *Vaccinium* sp., *Zea mays*

Porridge: *Gaylussacia baccata*, *Rubus occidentalis*, *Sambucus canadensis*, *Vaccinium* sp., *Zea mays*

Preserves: *Vaccinium angustifolium*, *V. myrtilloides*

Sauce & Relish: *Amelanchier canadensis*, *Asimina triloba*, *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Corylus americana*, *Crataegus pruinosa*, *C. submollis*, *Cucurbita pepo*, *Fagus grandifolia*, *Fragaria vesca*, *F. virginiana*, *Gaultheria procumbens*, *Gaylussacia baccata*, *Juglans cinerea*, *J. nigra*, *Malus coronaria*, *M. sylvestris*, *Mitchella repens*, *Morus rubra*, *Physalis* sp., *Podophyllum peltatum*, *Prunus americana*, *P. nigra*, *P. pennsylvanica*, *P. persica*, *P. serotina*, *P. virginiana*, *Pyrus communis*, *P. sp.*, *Ribes americanum*, *R. triste*, *Rubus canadensis*, *R. idaeus*, *R. occidentalis*, *R. odoratus*, *R. pubescens*, *R. sp.*, *Sambucus canadensis*, *Vaccinium angustifolium*, *V. corymbosum*, *V. macrocarpon*, *V. oxycoccos*, *V. sp.*, *Viburnum lentago*, *V. opulus*, *Vitis vulpina*, *Zea mays*

Snack Food: *Zea mays*

Soup: *Arctium lappa*, *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Corylus americana*, *Fagus grandifolia*, *Gaylussacia baccata*, *Juglans cinerea*, *J. nigra*, *Phaseolus coccineus*, *P. lunatus*, *P. vulgaris*, *Prunus virginiana*, *Quercus* sp., *Rubus occidentalis*, *Vaccinium* sp., *Zea mays*

Special Food: *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Citrullus lanatus*, *Corylus americana*, *Cucumis melo*, *C. sativus*, *Cucurbita maxima*, *C. moschata*, *C. pepo*, *Fagus grandifolia*, *Juglans cinerea*, *J. nigra*, *Quercus* sp., *Rubus* sp., *Zea mays*

Spice: *Castanea dentata*, *Polygonum hyd:opiper*, *Rumex acetosella*

Staple: *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Corylus americana*, *Fagus grandifolia*, *Juglans cinerea*, *J. nigra*

Sweetener: *Acer saccharinum*, *A. saccharum*

Unspecified: *Apios americana*, *Cardamine concatenata*, *C. diphylla*, *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Claytonia virginica*, *Corylus americana*, *Fagus grandifolia*, *Helianthus tuberosus*, *Juglans cinerea*, *J. nigra*, *Oxalis* sp., *Pinus strobus*, *Quercus alba*, *Q. bicolor*, *Q. prinus*, *Q. rubra*, *Q. sp.*, *Ranunculus cymbalaria*, *Rhus glabra*, *Rubus aculeatissimus*, *Solanum tuberosum*, *Vaccinium angustifolium*, *V. myrtilloides*, *Vitis vulpina*

Vegetable: *Allium canadense*, *A. tricoccum*, *Amaranthus retroflexus*, *Arctium lappa*, *Asclepias syriaca*, *Asparagus officinalis*, *Brassica nigra*, *B. sp.*, *Caltha palustris*, *Chenopodium album*, *Citrullus lanatus*, *Cucumis melo*, *C. sativus*, *Cucurbita maxima*, *C. moschata*, *C. pepo*, *Hydrophyllum virginianum*, *Lathyrus japonicus*, *Onoclea sensibilis*, *Oxalis corniculata*, *Pedicularis canadensis*, *P. lanceolata*, *Phaseolus coccineus*, *P. lunatus*, *P. vulgaris*, *Phytolacca americana*, *Portulaca oleracea*, *Rorippa nasturtium-aquaticum*, *Rumex acetosella*, *R. crispus*, *Symplocarpus foetidus*, *Taraxacum officinale*, *Urtica dioica*, *Zea mays*

### Fiber

Basketry: *Cornus sericea*, *Fraxinus americana*, *Hierochloa odorata*

Brushes & Brooms: *Picea glauca*, *P. mariana*

Caulking Material: *Thuja occidentalis*

Cordage: *Dirca palustris*

Furniture: *Carya cordiformis*, *Fraxinus americana*, *F. sp.*

Mats, Rugs & Bedding: *Dryopteris* sp., *Onoclea* sp., *Osmunda* sp., *Typha latifolia*

### Dye

Brown: *Alnus viridis*, *Ledum groenlandicum*

Green: *Allium cepa*

Orange-Yellow: *Sanguinaria canadensis*

Yellow: *Allium cepa*

### Other

Ceremonial Items: *Cardamine concatenata*, *Eupatorium perfoliatum*, *Fragaria virginiana*, *Lagenaria siceraria*, *Nicotiana rustica*, *Phaseolus coccineus*, *P. lunatus*, *P. vulgaris*

Containers: *Zea mays*

Cooking Tools: *Acer rubrum*, *Zea mays*

Fertilizer: *Bromus ciliatus*, *Elymus canadensis*, *Osmorhiza* sp., *Podophyllum peltatum*, *Sagittaria latifolia*

Fuel: *Picea glauca*, *P. mariana*

Good Luck Charm: *Mitella diphylla*

Incense & Fragrance: *Melilotus officinalis*

Insecticide: *Carya cordiformis*, *C. ovata*, *Castanea dentata*, *Corylus americana*, *Fagus grandifolia*, *Hackelia virginiana*, *Juglans cinerea*, *J. nigra*, *Pinus rigida*, *Thuja occidentalis*

Planting Seeds: *Zea mays*

Protection: *Angelica atropurpurea*, *Platanthera grandiflora*, *Rubus odoratus*

Season Indicator: *Amelanchier canadensis*

Smoke Plant: *Nicotiana rustica*, *N. tabacum*, *Picea* sp.

Soap: *Symplocarpus foetidus*

Stable Gear: *Ulmus americana*

Tools: *Cornus amomum*, *Sambucus* sp.

Toys & Games: *Hordeum jubatum*

## Isleta

### Drug

Analgesic: *Frasera speciosa*, *Lepidium densiflorum*

Antirheumatic (External): *Echinocereus* sp., *Juniperus monosperma*, *Larrea tridentata*, *Marrubium vulgare*, *Pseudotsuga menziesii*

Antirheumatic (Internal): *Nolina microcarpa*

Blood Medicine: *Anemopsis californica*

Dermatological Aid: *Allium cernuum*, *Anemopsis californica*, *Ephedra torreyana*, *Gaura parviflora*, *Geastrum* sp., *Glycyrrhiza lepidota*, *Gutierrezia sarothrae*, *Larrea tridentata*, *Oenothera cespitosa*, *Panicum obtusum*, *Pinus edulis*, *Salix* sp., *Yucca glauca*

Disinfectant: *Anemopsis californica*, *Larrea tridentata*

Ear Medicine: *Croton texensis*

Emetic: *Juniperus monosperma*

Eye Medicine: *Mentha canadensis*, *Prosopis glandulosa*

Febrifuge: *Chrysothamnus* sp., *Gutierrezia sarothrae*, *Thymophylla acerosa*

Gastrointestinal Aid: *Artemisia frigida*, *Hymenopappus newberryi*, *Lactuca sativa*, *Plantago major*, *Rumex crispus*

Gynecological Aid: *Juniperus monosperma*

Heart Medicine: *Solanum* sp.

Laxative: *Artemisia* sp., *Croton texensis*, *Solanum elaeagnifolium*

Orthopedic Aid: *Populus tremuloides*, *Pseudotsuga menziesii*

Pediatric Aid: *Hymenopappus newberryi*, *Rosa woodsii*

Poison: *Atriplex canescens*, *Chrysothamnus nauseosus*, *Hackelia floribunda*, *Heterotheca villosa*

Psychological Aid: *Hymenoxys richardsonii*

Pulmonary Aid: *Anemopsis californica*, *Cucurbita foetidissima*, *Frasera speciosa*, *Nolina microcarpa*

Reproductive Aid: *Quercus gambelii*

Respiratory Aid: *Asclepias latifolia*

Throat Aid: *Allium cernuum*, *Frasera speciosa*

Toothache Remedy: *Chrysothamnus* sp.

Venereal Aid: *Chrysothamnus* sp., *Gutierrezia sarothrae*, *Hymenoxys* sp.

### Food

Beverage: *Androsace* sp., *Echinocereus triglochidiatus*, *Holodiscus dumosus*, *Hymenopappus* sp., *Osmorhiza depauperata*, *Pseudocymopterus* sp., *Thelesperma longipes*, *Zea mays*

Bread & Cake: *Cleome serrulata*, *Echinocereus triglochidiatus*, *Koeleria macrantha*, *Nolina microcarpa*, *Prosopis glandulosa*, *Zea mays*

Candy: *Apocynum cannabinum*, *Echinocereus triglochidiatus*, *Hymenoxys richardsonii*, *Populus deltoides*, *Prosopis glandulosa*, *Zea mays*

Fodder: *Equisetum laevigatum*

Forage: *Artemisia frigida*, *Erodium cicutarium*, *Lotus wrightii*, *Yucca baccata*, *Y. glauca*

Fruit: *Amelanchier utahensis*, *Cucurbita foetidissima*, *Echinocereus triglochidiatus*, *Fragaria vesca*, *Juniperus deppeana*, *Lycium pallidum*, *Nolina microcarpa*, *Opuntia* sp., *Philadelphus microphyllus*, *Physalis* sp., *Prunus americana*, *Ribes cereum*, *R. leptanthum*, *Rubus parviflorus*, *Vitis arizonica*, *Yucca baccata*, *Y. glauca*

Porridge: *Koeleria macrantha*, *Nolina microcarpa*, *Zea mays*

Preserves: *Echinocereus triglochidiatus*, *Nolina microcarpa*, *Opuntia* sp., *Ribes cereum*

Sauce & Relish: *Aletes anisatus*, *Echinocereus triglochidiatus*, *Rhus trilobata*

Special Food: *Fragaria vesca*, *Rubus parviflorus*

Spice: *Hedeoma nana*, *Monarda fistulosa*

Staple: *Koeleria macrantha*, *Nolina microcarpa*, *Pinus edulis*, *Quercus gambelii*, *Zea mays*

Sweetener: *Zea mays*

Unspecified: *Allium cernuum*, *Asparagus officinalis*, *Atriplex* sp., *Echinocereus triglochidiatus*, *Hedeoma nana*, *Pinus edulis*, *Polyporus harlowii*, *Populus deltoides*, *Prosopis pubescens*, *Yucca baccata*, *Y. glauca*, *Zea mays*

Vegetable: *Aletes anisatus*, *Allium cernuum*, *Amaranthus retroflexus*, *Asparagus officinalis*, *Atriplex argentea*, *A.* sp., *Chenopodium* sp., *Cleome serrulata*, *Echinocereus triglochidiatus*, *Mimulus glabratus*, *Portulaca oleracea*, *Rumex crispus*, *Solanum jamesii*

Winter Use Food: *Allium cernuum*, *Pinus edulis*, *Polyporus harlowii*, *Portulaca oleracea*, *Thelesperma longipes*, *Yucca baccata*, *Y. glauca*, *Zea mays*

## Fiber

Basketry: *Nolina microcarpa*, *Salix* sp., *Yucca baccata*, *Y. glauca*

Brushes & Brooms: *Bromus* sp., *Nolina microcarpa*, *Yucca baccata*, *Y. glauca*

Building Material: *Juncus* sp., *Pinus ponderosa*, *Populus deltoides*, *Salix* sp., *Typha latifolia*

Canoe Material: *Populus deltoides*

Clothing: *Gossypium* sp.

Cordage: *Nolina microcarpa*, *Yucca baccata*, *Y. glauca*

## Dye

Red: *Alnus incana*, *Cercocarpus montanus*, *Prunus americana*

Unspecified: *Cleome serrulata*

## Other

Cash Crop: *Populus deltoides*

Ceremonial Items: *Helianthus annuus*, *Nolina microcarpa*, *Polanisia dodecandra*, *Pseudotsuga menziesii*, *Verbascum thapsus*, *Zea mays*

Decorations: *Clematis columbiana*, *Yucca baccata*, *Y. glauca*

Fasteners: *Koeleria macrantha*

Fuel: *Juniperus monosperma*, *Pinus ponderosa*

Hunting & Fishing Item: *Acer glabrum*, *Fallugia paradoxa*, *Prosopis glandulosa*, *Prunus virginiana*

Insecticide: *Melilotus indicus*

Lighting: *Chrysothamnus nauseosus*, *Echinocereus triglochidiatus*

Smoke Plant: *Polanisia dodecandra*, *Verbascum thapsus*

Soap: *Gutierrezia sarothrae*, *Panicum obtusum*, *Yucca glauca*

Stable Gear: *Nolina microcarpa*

Tools: *Quercus gambelii*

Water Indicator: *Forestiera pubescens*

Weapon: *Atriplex canescens*, *Chrysothamnus nauseosus*

## Hemez

### Drug

Analgesic: *Croton texensis*

Antirheumatic (Internal): *Croton texensis*

Cathartic: *Astragalus* sp., *Dalea formosa*

Cold Remedy: *Chrysothamnus* sp.

Dermatological Aid: *Atriplex canescens*, *Grindelia* sp., *Gutierrezia sarothrae*, *Helianthus annuus*, *Opuntia* sp.

Gastrointestinal Aid: *Artemisia* sp., *Juniperus monosperma*

Gynecological Aid: *Erodium cicutarium*, *Gutierrezia sarothrae*, *Juniperus monosperma*

Kidney Aid: *Salvia* sp.

Misc. Disease Remedy: *Croton texensis*

Oral Aid: *Chrysothamnus* sp., *Rhus trilobata*

Stimulant: *Atriplex canescens*, *Senecio flaccidus*

Throat Aid: *Chrysothamnus* sp.

Urinary Aid: *Xanthium* sp.

Veterinary Aid: *Grindelia* sp., *Macranthera* sp.

## Food

Beverage: *Hymenopappus* sp., *Juniperus communis*

Bread & Cake: *Cleome serrulata*

Forage: *Melilotus officinalis*

Fruit: *Berberis fendleri*, *Juniperus monosperma*, *J. scopulorum*, *Lycium pallidum*, *Opuntia* sp., *Rhus trilobata*, *Ribes leptanthum*, *Vitis arizonica*

Special Food: *Lycium pallidum*

Unspecified: *Amaranthus retroflexus*, *Asclepias* sp., *A. subverticillata*, *Astragalus lentiginosus*, *Pinus edulis*, *Populus deltoides*, *Robinia neomexicana*, *Yucca baccata*, *Y. glauca*

Vegetable: *Cleome serrulata*

## Fiber

Basketry: *Nolina microcarpa*, *Rhus trilobata*, *Yucca baccata*

Brushes & Brooms: *Fallugia paradoxa*, *Koeleria macrantha*

Building Material: *Baileya multiradiata*, *Helianthus annuus*, *Juniperus monosperma*, *Pinus ponderosa*, *Salix exigua*

Cordage: *Geranium atropurpureum*

## Dye

Red: *Alnus incana*, *Betula occidentalis*, *Cercocarpus montanus*, *Pinus edulis*

## Other

Cash Crop: *Pinus edulis*

Ceremonial Items: *Carex* sp., *Forestiera pubescens*, *Juniperus monosperma*, *Lobelia cardinalis*, *Parthenocissus vitacea*, *Pentaphylloides floribunda*, *Pseudotsuga menziesii*, *Pterospora andromedea*, *Vitis arizonica*

Decorations: *Calamovilfa gigantea*, *Clematis ligusticifolia*, *Helianthus annuus*, *Iris missouriensis*

Good Luck Charm: *Conopholis alpina*, *Oenothera elata*

Hunting & Fishing Item: *Cornus sericea*, *Quercus gambelii*, *Robinia neomexicana*

Insecticide: *Gutierrezia sarothrae*

Preservative: *Castilleja integra*

Protection: *Erodium cicutarium*

Sacred Items: *Carex* sp.

Smoke Plant: *Arctostaphylos uva-ursi*

Soap: *Helianthus annuus*, *Yucca* sp.

Tools: *Rhus trilobata*

Toys & Games: *Sarcobatus vermiculatus*

## Kamia

### Food

Bread & Cake: *Anemopsis californica*

Porridge: *Anemopsis californica*, *Cyperus erythrorhizos*

Staple: *Atriplex torreyi*

Unspecified: *Citrullus lanatus*, *Cucumis* sp., *Cucurbita pepo*, *Phaseolus acutifolius*, *Prosopis glandulosa*, *P. pubescens*, *Vigna unguiculata*, *Zea mays*

Vegetable: *Sonchus oleraceus*

**Kansa****Other**

Ceremonial Items: *Scirpus acutus*

**Karok****Drug**

Analgesic: *Artemisia vulgaris*, *Osmorhiza berteroi*, *Pentagramma triangularis*,  
*Umbellularia californica*

Antidiarrheal: *Arctostaphylos nevadensis*

Antidote: *Arctostaphylos nevadensis*

Antirheumatic (External): *Aralia californica*, *Artemisia douglasiana*

Blood Medicine: *Taxus brevifolia*

Cathartic: *Frangula purshiana*

Ceremonial Medicine: *Arbutus menziesii*, *Equisetum hyemale*, *Pyrola asarifolia*,

Veterinary Aid: *Aesculus californica*, *Populus fremontii*, *Pteridium aquilinum*, *Sambucus cerulea*

### Food

Beverage: *Arctostaphylos manzanita*, *A. tomentosa*

Bread & Cake: *Boisduvalia densiflora*, *Quercus douglasii*, *Q. garryana*, *Q. kelloggii*, *Q. lobata*, *Umbellularia californica*

Cooking Agent: *Madia sativa*

Dried Food: *Juniperus californica*, *Prunus subcordata*, *Rubus leucodermis*, *R. vitifolius*, *Sambucus cerulea*

Fodder: *Hordeum marinum*, *Lathyrus jepsonii*, *Leymus triticoides*, *Plantago lanceolata*, *Vicia americana*

Forage: *Aesculus californica*, *Arbutus menziesii*, *Arctostaphylos manzanita*, *Asclepias eriocarpa*, *Brodiaea coronaria*, *Carex vicaria*, *Ceanothus cuneatus*, *Croton setigerus*, *Equisetum variegatum*, *Juncus effusus*, *Lupinus luteolus*, *Medicago polymorpha*, *Nuphar lutea*, *Orthocarpus lithospermoides*, *Pedicularis densiflora*, *Robinia pseudoacacia*, *Toxicodendron diversilobum*, *Trifolium* sp.

Fruit: *Aesculus californica*, *Amelanchier alnifolia*, *Arctostaphylos manzanita*, *Fragaria vesca*, *Heteromeles arbutifolia*, *Prunus subcordata*, *Ribes californicum*, *R. divaricatum*, *Rubus leucodermis*, *R. parviflorus*, *R. vitifolius*, *Sambucus cerulea*, *Solanum nigrum*, *Taxus brevifolia*

Pie & Pudding: *Sambucus cerulea*

Porridge: *Rumex crispus*

Preserves: *Prunus virginiana*, *Sambucus cerulea*, *Vitis californica*

Sauce & Relish: *Armoracia rusticana*, *Umbellularia californica*

Soup: *Quercus douglasii*, *Q. garryana*, *Q. kelloggii*

Spice: *Perideridia kelloggii*

Staple: *Amaranthus retroflexus*, *Avena fatua*, *Boisduvalia densiflora*, *Bromus marginatus*, *Capsella bursa-pastoris*, *Clarkia purpurea*, *Hemizonia luzulifolia*, *Hordeum murinum*, *Layia platyglossa*, *Leymus triticoides*, *Madia gracilis*, *Perideridia kelloggii*, *Plagiobothrys fulvus*, *Ranunculus occidentalis*, *Thysanocarpus curvipes*, *Trifolium bifidum*, *T. dichotomum*, *Wyethia longicaulis*

Starvation Food: *Pinus sabiniana*

Substitution Food: *Grindelia* sp., *Microseris laciniata*, *Mimulus guttatus*, *Monardella villosa*, *Satureja douglasii*

Unspecified: *Allium bolanderi*, *A. unifolium*, *Amsinckia lycopsoides*, *Angelica* sp., *Arctostaphylos manzanita*, *Brodiaea coronaria*, *Calochortus pulchellus*, *C. tolmiei*, *Castanopsis chrysophylla*, *Chlorogalum pomeridianum*, *Claytonia perfoliata*, *Dichelostemma pulchellum*, *Eriogonum latifolium*, *Helenium puberulum*, *Lithocarpus densiflorus*, *Lomatium utriculatum*, *Lonicera interrupta*, *Microseris laciniata*, *Nuphar lutea*, *Pedicularis densiflora*, *Perideridia kelloggii*, *Pinus lambertiana*, *Plagiobothrys fulvus*, *Sanicula tuberosa*, *Torreya californica*, *Trifolium bifidum*, *T. cyathiferum*, *T. dichotomum*, *T. fucatum*, *T. obtusiflorum*, *T. sp.*, *T. wormskioldii*, *Triteleia hyacinthina*, *T. peduncularis*, *Typha latifolia*, *Umbellularia californica*, *Wyethia longicaulis*

Vegetable: *Brassica rapa*, *Chenopodium album*, *Claytonia perfoliata*, *Eschscholzia californica*, *Heracleum maximum*, *Lupinus affinis*, *L. luteolus*, *Platystemon californicus*, *Rumex crispus*, *Trifolium variegatum*, *Vicia americana*

Winter Use Food: *Arctostaphylos manzanita*, *Rubus leucodermis*

### Fiber

Basketry: *Calycanthus occidentalis*, *Carex* sp., *Cercis canadensis*, *Juncus effusus*, *Lonicera interrupta*, *Pteridium aquilinum*, *Toxicodendron diversilobum*

Brushes & Brooms: *Perideridia kelloggii*

Building Material: *Arbutus menziesii*, *Pinus ponderosa*, *Sequoia sempervirens*

Canoe Material: *Sequoia sempervirens*

Clothing: *Apocynum cannabinum*

Cordage: *Apocynum cannabinum*, *Carex* sp., *Cercis canadensis*, *Hoita macrostachya*, *Juncus effusus*, *Salix lasiolepis*

Furniture: *Philadelphus lewisii*

Mats, Rugs & Bedding: *Chlorogalum pomeridianum*, *Typha latifolia*

Scouring Material: *Equisetum variegatum*

Sewing Material: *Apocynum cannabinum*

### Dye

Red: *Plagiobothrys fulvus*

Unspecified: *Alnus rhombifolia*

### Other

Cooking Tools: *Chlorogalum pomeridianum*, *Toxicodendron diversilobum*

Decorations: *Arbutus menziesii*, *Chlorogalum pomeridianum*, *Dodecatheon hendersonii*, *Pinus sabiniana*, *Toxicodendron diversilobum*

Fasteners: *Chlorogalum pomeridianum*, *Pinus ponderosa*

Fuel: *Alnus rhombifolia*, *Arctostaphylos manzanita*, *Crataegus rivularis*, *Pinus ponderosa*, *Populus fremontii*, *Sambucus cerulea*

Good Luck Charm: *Angelica* sp., *Daucus pusillus*, *Sanicula crassicaulis*, *Vicia americana*

Hunting & Fishing Item: *Alnus rhombifolia*, *Amelanchier alnifolia*, *Apocynum cannabinum*, *Baccharis pilularis*, *Ceanothus cuneatus*, *Cercocarpus montanus*, *Chlorogalum pomeridianum*, *Croton setigerus*, *Datisca glomerata*, *Hoita*

*macrostachya*, *Iris douglasiana*, *Marah oreganus*, *Taxus brevifolia*

Insecticide: *Pogogyne douglasii*, *Umbellularia californica*

Musical Instrument: *Pinus sabiniana*, *Sambucus cerulea*

Paint: *Chlorogalum pomeridianum*

Smoke Plant: *Nicotiana quadrivalvis*, *Salix lasiolepis*

Stable Gear: *Arbutus menziesii*

Tools: *Aesculus californica*, *Arbutus menziesii*, *Cercocarpus montanus*, *Fraxinus latifolia*

Toys & Games: *Sambucus cerulea*

Walking Sticks: *Fraxinus latifolia*

Weapon: *Cercocarpus montanus*

## Menominee

### Drug

Abortifacient: *Acorus calamus*, *Artemisia campestris*, *Quercus ellipsoidalis*, *Q. macrocarpa*, *Sanguinaria canadensis*, *Thuja occidentalis*, *Trillium grandiflorum*

Adjuvant: *Abies balsamea*, *Arctostaphylos uva-ursi*, *Chimaphila umbellata*, *Comptonia peregrina*, *Corylus americana*, *Fraxinus nigra*, *Ptelea trifoliata*, *Robinia pseudoacacia*, *Rubus idaeus*, *Sanguinaria canadensis*, *Symplocarpus foetidus*, *Taenidia integerrima*, *Thuja occidentalis*, *Zanthoxylum americanum*

Alterative: *Alnus incana*, *Helenium autumnale*

Analgesic: *Abies balsamea*, *Acorus calamus*, *Angelica atropurpurea*, *Aralia racemosa*, *Echinocystis lobata*, *Gnaphalium obtusifolium*, *Helenium autumnale*, *Heuchera americana*, *Hydrophyllum virginianum*, *Pinus strobus*, *Polygonatum biflorum*, *Solidago flexicaulis*, *Symplocarpus foetidus*, *Trillium grandiflorum*, *Tsuga canadensis*, *Valeriana edulis*, *V. uliginosa*, *Viburnum acerifolium*, *Zanthoxylum americanum*

Anthelmintic: *Apocynum cannabinum*, *Valeriana edulis*

Anticonvulsive: *Symplocarpus foetidus*

Antidiarrheal: *Adiantum pedatum*, *Betula papyrifera*, *Cornus alternifolia*, *C. amomum*, *Geranium maculatum*, *Hepatica nobilis*, *Heuchera americana*, *Hydrophyllum virginianum*, *Prunella vulgaris*, *Prunus virginiana*, *Rubus canadensis*, *Salix humilis*

Antidote: *Clintonia borealis*, *Sambucus racemosa*, *Sisyrinchium albidum*

Antihemorrhagic: *Polygonum pensylvanicum*

Antirheumatic (External): *Taxus canadensis*, *Zanthoxylum americanum*

Antirheumatic (Internal): *Gaultheria procumbens*

Blood Medicine: *Aralia racemosa*, *Chimaphila umbellata*, *Diervilla lonicera*

Burn Dressing: *Plantago rugelii*

Cancer Treatment: *Cornus alternifolia*

Cathartic: *Acorus calamus*, *Juglans cinerea*, *Sambucus racemosa*, *Ulmus rubra*, *Valeriana uliginosa*, *Veronicastrum virginicum*

Ceremonial Medicine: *Cornus amomum*, *Hamamelis virginiana*, *Veronicastrum virginicum*

Cold Remedy: *Abies balsamea*, *Acorus calamus*, *Alnus incana*, *Helenium autumnale*, *Populus balsamifera*, *Tsuga canadensis*, *Zanthoxylum americanum*

Cough Medicine: *Ceanothus americanus*, *Rhus hirta*

Dermatological Aid: *Abies balsamea*, *Achillea millefolium*, *Alnus incana*, *Anemone virginiana*, *Angelica atropurpurea*, *Aralia nudicaulis*, *A. racemosa*, *Arctium lappa*, *Asclepias tuberosa*, *Capsella bursa-pastoris*, *Castilleja sessiliflora*, *Epilobium angustifolium*, *Hierochloa odorata*, *Lactuca canadensis*, *Larix laricina*, *Lepidium virginicum*, *Lilium philadelphicum*, *Nuphar lutea*, *Petasites frigidus*, *Picea glauca*, *Pinus strobus*, *Plantago rugelii*, *Populus balsamifera*, *Prunus virginiana*, *Rhus hirta*, *Sanguinaria canadensis*, *Symplocarpus foetidus*, *Thuja occidentalis*, *Tsuga canadensis*, *Ulmus rubra*, *Uvularia grandiflora*, *Valeriana edulis*, *V. uliginosa*, *Zanthoxylum americanum*

Diaphoretic: *Nepeta cataria*, *Thuja occidentalis*, *Tsuga canadensis*

Dietary Aid: *Osmorhiza claytonii*

Disinfectant: *Gnaphalium obtusifolium*, *Trillium grandiflorum*

Diuretic: *Cucurbita pepo*, *Diervilla lonicera*, *Dirca palustris*, *Trillium grandiflorum*

Emetic: *Sambucus racemosa*, *Veronicastrum virginicum*

Eye Medicine: *Arisaema triphyllum*, *Osmorhiza claytonii*, *Quercus velutina*, *Rubus allegheniensis*, *Trillium grandiflorum*, *Vitis vulpina*

Febrifuge: *Achillea millefolium*, *Eupatorium perfoliatum*, *Leucanthemum vulgare*, *Mentha canadensis*, *Sambucus canadensis*

Gastrointestinal Aid: *Acorus calamus*, *Aralia racemosa*, *Asarum canadense*, *Cardamine maxima*, *Ceanothus americanus*, *Heuchera americana*, *Rhus hirta*, *Rosa carolina*, *Salix humilis*, *Tsuga canadensis*, *Viburnum acerifolium*

Gynecological Aid: *Adiantum pedatum*, *Arisaema dracontium*, *Caulophyllum thalictroides*, *Chimaphila umbellata*, *Comptonia peregrina*, *Cypripedium pubescens*, *Equisetum hyemale*, *Eupatorium purpureum*, *Hepatica nobilis*, *Mitchella repens*, *Osmunda cinnamomea*, *Physocarpus opulifolius*, *Polygonum pensylvanicum*, *Pteridium aquilinum*, *Rhus hirta*, *Sisyrinchium atlanticum*

Hallucinogen: *Cypripedium pubescens*

Heart Medicine: *Liatris spicata*, *Symplocarpus foetidus*

Hemorrhoid Remedy: *Cornus alternifolia*, *Rhus hirta*

Hemostat: *Equisetum sylvaticum*, *Solidago flexicaulis*, *Symplocarpus foetidus*, *Valeriana edulis*

Herbal Steam: *Maianthemum racemosum*, *Taxus canadensis*, *Tsuga canadensis*

Hunting Medicine: *Heracleum maximum*, *Panax quinquefolius*, *Valeriana uliginosa*

Internal Medicine: *Picea glauca*

Kidney Aid: *Dirca palustris*, *Equisetum hyemale*, *E. sylvaticum*, *Galium triflorum*, *Hypericum ascyron*

Laxative: *Veronicastrum virginicum*

Love Medicine: *Castilleja coccinea*, *Dicentra cucullaria*, *Echinocystis lobata*, *Pedicularis canadensis*

Oral Aid: *Coptis trifolia*

Orthopedic Aid: *Asclepias tuberosa*, *Hamamelis virginiana*

Other: *Hamamelis virginiana*, *Larix laricina*, *Zanthoxylum americanum*

Panacea: *Echinocystis lobata*, *Ligusticum filicinum*, *Ptelea trifoliata*

Pediatric Aid: *Achillea millefolium*, *Coptis trifolia*, *Monarda fistulosa*, *Prunella vulgaris*, *Prunus virginiana*, *Symplocarpus foetidus*

Poison: *Comptonia peregrina*

Psychological Aid: *Diervilla lonicera*, *Gnaphalium obtusifolium*, *Panax quinquefolius*, *Valeriana uliginosa*

Pulmonary Aid: *Abies balsamea*, *Aralia nudicaulis*, *Asclepias syriaca*, *Hypericum ascyron*, *Mentha arvensis*, *M. x piperita*, *Nepeta cataria*, *Prunus virginiana*, *Rhus hirta*, *Taenidia integerrima*, *Valeriana uliginosa*, *Verbascum thapsus*, *Zanthoxylum americanum*

Respiratory Aid: *Maianthemum racemosum*, *Monarda fistulosa*, *Taenidia integerrima*

Sedative: *Lithospermum canescens*, *Mitchella repens*, *Nepeta cataria*, *Valeriana uliginosa*, *Zanthoxylum americanum*

Snakebite Remedy: *Carex plantaginea*

Stimulant: *Gnaphalium obtusifolium*, *Polygonatum biflorum*, *Thuja occidentalis*

Throat Aid: *Coptis trifolia*, *Valeriana uliginosa*

Tonic: *Asclepias tuberosa*, *Betula papyrifera*, *Comptonia peregrina*, *Echinocystis lobata*, *Panax quinquefolius*, *Salix humilis*

Toothache Remedy: *Coptis trifolia*

Tuberculosis Remedy: *Arctium lappa*, *Hypericum ascyron*, *Rhus hirta*, *Rubus occidentalis*

Unspecified: *Abies balsamea*, *Fagus grandifolia*, *Menyanthes trifoliata*, *Myriophyllum spicatum*, *Osmunda regalis*, *Pinus banksiana*, *Quercus alba*, *Rubus allegheniensis*, *Salix bebbiana*, *Saxifraga pensylvanica*, *Silene noctiflora*, *Solidago gigantea*

Urinary Aid: *Cypripedium acaule*, *Eupatorium purpureum*, *Lonicera canadensis*, *Verbena hastata*

Venereal Aid: *Lonicera canadensis*

Veterinary Aid: *Alnus incana*, *Larix laricina*, *Lupinus perennis*, *Pedicularis canadensis*, *Prunus virginiana*, *Sisyrinchium albidum*

Witchcraft Medicine: *Arisaema triphyllum*, *Gnaphalium obtusifolium*, *Heracleum maximum*, *Lupinus perennis*, *Sanicula marilandica*, *S. odorata*, *Saracenia purpurea*, *Sisyrinchium albidum*, *Symplocarpus foetidus*

### Food

Beverage: *Ceanothus americanus*, *Prunus virginiana*, *Quercus ellipsoidalis*, *Rhus hirta*, *Zea mays*

Dried Food: *Vitis vulpina*

Fruit: *Fragaria virginiana*, *Podophyllum peltatum*, *Prunus pumila*, *P. serotina*, *P. virginiana*, *Ribes cynosbati*, *Rubus allegheniensis*, *R. idaeus*, *R. occidentalis*, *Vaccinium oxycoccos*, *Viburnum lentago*, *V. opulus*, *Vitis vulpina*

Pie & Pudding: *Quercus alba*, *Rubus allegheniensis*

Porridge: *Quercus alba*

Preserves: *Podophyllum peltatum*, *Prunus pumila*, *Ribes cynosbati*, *Vitis vulpina*

Soup: *Asclepias incarnata*, *Osmunda cinnamomea*

Special Foods: *Zea mays*

Staple: *Phaseolus vulgaris*, *Quercus alba*, *Zea mays*, *Zizania aquatica*

Starvation Food: *Celastrus scandens*

Substitution Food: *Ceanothus americanus*, *Zea mays*

Sweetener: *Acer saccharum*

Unspecified: *Allium canadense*, *Aralia racemosa*, *Asclepias incarnata*, *Corylus americana*, *Juglans cinerea*

Vegetable: *Apios americana*, *Caltha palustris*, *Cardamine maxima*, *Hydrophyllum virginianum*, *Nuphar lutea*, *Solanum tuberosum*, *Taraxacum officinale*, *Zea mays*

Winter Use Food: *Allium tricoccum*, *Amelanchier canadensis*, *A. laevis*, *A. sanguinea*, *Apios americana*, *Asclepias incarnata*, *Corylus americana*, *Cucurbita pepo*, *Fagus grandifolia*, *Rhus hirta*, *Ribes cynosbati*, *Rubus allegheniensis*, *Sagittaria cuneata*, *Vaccinium angustifolium*, *Zea mays*

### Fiber

Basketry: *Hierochloa odorata*, *Laporteia canadensis*, *Thuja occidentalis*, *Tilia americana*, *Ulmus rubra*, *Urtica dioica*

Building Material: *Scirpus tabernaemontani*

Caulking Material: *Typha latifolia*

Cordage: *Apocynum androsaemifolium*, *Asclepias syriaca*, *Dirca palustris*, *Tilia americana*

Mats, Rugs & Bedding: *Scirpus tabernaemontani*, *Tilia americana*, *Typha latifolia*, *Ulmus rubra*

Scouring Material: *Equisetum hyemale*

Sewing Material: *Apocynum androsaemifolium*, *Asclepias syriaca*, *Hierochloa odorata*, *Pinus banksiana*

Snow Gear: *Tilia americana*, *Ulmus rubra*

### Dye

Black: *Juglans cinerea*

Brown: *Juglans cinerea*

Orange-Red: *Sanguinaria canadensis*

Orange-Yellow: *Impatiens capensis*

Red: *Ranunculus recurvatus*, *Sanguinaria canadensis*, *Tsuga canadensis*

Red-Brown: *Alnus incana*

Yellow: *Oxalis corniculata*, *O. montana*, *O. stricta*, *Rhus hirta*

### Other

Designs: *Acer spicatum*

Good Luck Charm: *Valeriana uliginosa*

Hunting & Fishing Item: *Apocynum androsaemifolium*, *Asclepias syriaca*, *Fraxinus nigra*, *Krigia biflora*, *Osmunda cinnamomea*, *Panax quinquefolius*, *Tilia americana*, *Ulmus rubra*

Insecticide: *Podophyllum peltatum*

Protection: *Heracleum maximum*, *Panax quinquefolius*, *Thuja occidentalis*

Sacred Items: *Arisaema dracontium*, *Hierochloe odorata*, *Lithospermum canescens*, *Mitella diphylla*  
 Smoke Plant: *Cornus alternifolia*, *C. amomum*, *Verbascum thapsus*  
 Toys & Games: *Sambucus canadensis*

## Meskwaki

### Drug

Adjuvant: *Aralia racemosa*, *Asarum canadense*, *Cirsium vulgare*, *Desmodium illinoense*, *Juniperus virginiana*, *Panax quinquefolius*, *Ptelea trifoliata*, *Rubus idaeus*, *Sanguinaria canadensis*, *Taenidia integerrima*

Alterative: *Pycnanthemum virginianum*

Analgesic: *Acorus calamus*, *Actaea pachypoda*, *Anemone cylindrica*, *Arctium minus*, *Asarum canadense*, *Athyrium filix-femina*, *Celastrus scandens*, *Cirsium discolor*, *Comandra umbellata*, *Coreopsis tripteris*, *Cornus racemosa*, *Crataegus calpodendron*, *Dioscorea villosa*, *Echinacea angustifolia*, *Echinocystis lobata*, *Erigeron philadelphicus*, *Geranium maculatum*, *Heracleum maximum*, *Lycopus americanus*, *Monarda punctata*, *Platanus occidentalis*, *Sanguinaria canadensis*, *Silphium integrifolium*, *Sisyrinchium campestre*, *Triosteum perfoliatum*, *Viburnum opulus*, *Vitis vulpina*, *Zizia aurea*

Anthelmintic: *Amorpha canescens*, *Asclepias incarnata*, *Eupatorium perfoliatum*, *Euphorbia corollata*, *Lonicera dioica*, *Quercus macrocarpa*, *Rhus hirta*, *Ribes americanum*

Anticonvulsive: *Echinacea angustifolia*, *Maianthemum racemosum*, *Veronicastrum virginicum*

Antidiarrheal: *Agalinis tenuifolia*, *Aquilegia canadensis*, *Ceanothus americanus*, *Cornus racemosa*, *Dalea purpurea*, *Geranium maculatum*, *Parthenocissus quinquefolia*, *Polygonum amphibium*, *P. pennsylvanicum*, *Polytaenia nuttallii*, *Quercus alba*, *Salix humilis*, *Scutellaria parvula*, *Spiraea salicifolia*

Antidote: *Asarum canadense*, *Eryngium yuccifolium*, *Lespedeza capitata*, *Rubus allegheniensis*, *Rumex orbiculatus*, *Vitis vulpina*

Antiemetic: *Prunus nigra*, *Silphium perfoliatum*

Antihemorrhagic: *Alnus incana*, *Coreopsis tripteris*

Antirheumatic (Internal): *Euphorbia corollata*, *Podophyllum peltatum*

Blood Medicine: *Phlox pilosa*, *Platanus occidentalis*

Burn Dressing: *Acorus calamus*, *Anemone cylindrica*, *Aralia nudicaulis*, *Artemisia campestris*, *Geranium maculatum*, *Helianthus grosseserratus*, *Iris versicolor*, *Mirabilis nyctaginea*, *Plantago major*, *Sanguinaria canadensis*, *Solidago speciosa*

Cancer Treatment: *Crepis runcinata*, *Pedicularis canadensis*

Carminative: *Asclepias incarnata*

Cathartic: *Acorus calamus*, *Asclepias incarnata*, *Euphorbia corollata*, *Juglans cinerea*, *J. nigra*, *Podophyllum peltatum*, *Polemonium reptans*, *Sambucus canadensis*, *Triosteum perfoliatum*

Ceremonial Medicine: *Aquilegia canadensis*, *Arisaema triphyllum*, *Eryngium yuccifolium*, *Maianthemum racemosum*, *Staphylea trifolia*

Smoke Plant: *Salix lucida*

## Montana Indian

### Drug

Adjuvant: *Salix exigua*, *S. melanopsis*  
 Alterative: *Rubus parviflorus*  
 Analgesic: *Cicuta douglasii*, *Clematis hirsutissima*, *Zigadenus venenosus*  
 Antidiarrheal: *Artemisia tridentata*, *Geranium oreganum*, *Matricaria discoidea*  
 Antirheumatic (External): *Juniperus scopulorum*, *Pseudotsuga menziesii*, *Salix exigua*, *S. melanopsis*, *Sambucus cerulea*, *Zigadenus venenosus*

Burn Dressing: *Typha latifolia*

Cancer Treatment: *Orobancha fasciculata*, *Ulmus americana*

Cathartic: *Achillea millefolium*, *Apocynum androsaemifolium*, *Aralia nudicaulis*

Ceremonial Medicine: *Catabrosa aquatica*, *Glyceria fluitans*, *Juniperus scopulorum*, *Oplopanax horridus*

Cold Remedy: *Abies lasiocarpa*, *Clematis ligusticifolia*, *Salix exigua*, *S. melanopsis*

Dermatological Aid: *Abies lasiocarpa*, *Artemisia cana*, *Cornus sericea*, *Dalea purpurea*, *Erythronium grandiflorum*, *Geranium oreganum*, *Mentzelia laevicaulis*, *Pediomelum argophyllum*, *Sambucus cerulea*, *Yucca glauca*, *Zigadenus venenosus*

Dietary Aid: *Artemisia cana*, *Scirpus acutus*

Emetic: *Frangula purshiana*, *Iris missouriensis*, *Purshia tridentata*, *Sambucus cerulea*

Eye Medicine: *Artemisia tridentata*

Febrifuge: *Abies lasiocarpa*, *Apocynum androsaemifolium*, *Chimaphila umbellata*, *Mahonia repens*, *Salix exigua*, *S. melanopsis*, *Sambucus cerulea*

Gastrointestinal Aid: *Mahonia repens*, *Mentzelia laevicaulis*, *Sambucus cerulea*

Gynecological Aid: *Matricaria discoidea*, *Monarda fistulosa*

Kidney Aid: *Juniperus chinense*, *Mahonia repens*

Misc. Disease Remedy: *Rhus trilobata*, *Rubus parviflorus*

Oral Aid: *Echinacea angustifolia*

Orthopedic Aid: *Artemisia tridentata*

Poison: *Apocynum androsaemifolium*, *Cicuta maculata*, *Lomatium dissectum*, *Orobancha fasciculata*

Pulmonary Aid: *Abies lasiocarpa*, *Artemisia frigida*, *Purshia tridentata*, *Sambucus cerulea*

Snakebite Remedy: *Cicuta douglasii*, *Echinacea angustifolia*

Throat Aid: *Clematis ligusticifolia*, *Glycyrrhiza lepidota*

Tonic: *Apocynum androsaemifolium*, *Aralia nudicaulis*, *Artemisia cana*, *Glycyrrhiza lepidota*, *Mahonia repens*

Tuberculosis Remedy: *Artemisia frigida*

Unspecified: *Artemisia cana*, *Frangula purshiana*, *Mentha canadensis*

Venereal Aid: *Grindelia squarrosa*, *Pseudotsuga menziesii*

Veterinary Aid: *Clematis hirsutissima*

### Food

Beverage: *Amelanchier alnifolia*, *Mahonia repens*, *Prunus virginiana*, *Sambucus cerulea*

Bread & Cake: *Amelanchier alnifolia*, *Camassia quamash*, *Helianthus annuus*, *Lomatium cous*, *Pediomelum esculentum*, *Prunus virginiana*, *Tsuga heterophylla*, *Vaccinium membranaceum*

Cooking Agent: *Nuphar lutea*, *Pediomelum esculentum*

Dried Food: *Arctostaphylos uva-ursi*, *Lomatium cous*, *Opuntia polyacantha*, *Pediomelum esculentum*, *Shepherdia argentea*, *S. canadensis*, *Thuja plicata*, *Vaccinium membranaceum*

Fodder: *Claytonia lanceolata*, *C. multicaulis*, *Opuntia polyacantha*, *Pascopyrum smithii*, *Populus angustifolia*, *P. balsamifera*, *P. deltoides*, *P. tremuloides*

Forage: *Amelanchier alnifolia*, *Bouteloua gracilis*, *Claytonia lanceolata*, *Erythronium grandiflorum*, *Fritillaria pudica*, *Pascopyrum smithii*

Fruit: *Amelanchier alnifolia*, *Arctostaphylos uva-ursi*, *Crataegus columbiana*, *Elaeagnus commutata*, *Fragaria* sp., *Mahonia repens*, *Moneses uniflora*, *Opuntia polyacantha*, *Parthenocissus quinquefolia*, *Prunus virginiana*, *Rhus trilobata*, *Ribes americanum*, *R. aureum*, *R. cereum*, *R. hudsonianum*, *R. lacustre*, *R. oxyacanthoides*, *R. viscosissimum*, *Rosa acicularis*, *R. nutkana*, *R. woodsii*, *Rubus idaeus*, *R. leucodermis*, *Sambucus cerulea*, *Shepherdia argentea*, *S. canadensis*, *Vaccinium membranaceum*

Ice Cream: *Shepherdia canadensis*

Pie & Pudding: *Amelanchier alnifolia*, *Prunus virginiana*, *Sambucus cerulea*, *Vaccinium membranaceum*

Porridge: *Helianthus annuus*, *Lomatium cous*, *Nuphar lutea*, *Pediomelum esculentum*

*lentum*

Preserves: *Amelanchier alnifolia*, *Mahonia repens*, *Opuntia polyacantha*, *Prunus virginiana*, *Sambucus cerulea*, *Shepherdia argentea*, *Vaccinium membranaceum*

Sauce & Relish: *Acer negundo*, *Claytonia cordifolia*, *C. parviflora*, *C. perfoliata*, *Scirpus acutus*, *Shepherdia argentea*, *Sium suave*

Snack Food: *Nuphar lutea*

Soup: *Amelanchier alnifolia*, *Arctostaphylos uva-ursi*, *Lomatium cous*, *Nuphar lutea*, *Prunus virginiana*

Staple: *Balsamorhiza sagittata*, *Camassia quamash*, *Chenopodium album*, *Lomatium ambiguum*, *L. cous*, *L. simplex*, *L. triternatum*, *Polygonum douglasii*, *Prunus virginiana*, *Scirpus acutus*

Starvation Food: *Alectoria fremontii*, *Arctostaphylos uva-ursi*, *Pinus contorta*, *Rosa* sp.

Substitution Food: *Pseudotsuga menziesii*

Sweetener: *Camassia quamash*

Unspecified: *Amaranthus blitoides*, *Astragalus crassicaarpus*, *Balsamorhiza sagittata*, *Beckmannia syzigachne*, *Calochortus* sp., *Camassia scilloides*, *Carex* sp., *Claytonia lanceolata*, *C. multicaulis*, *Descurainia incana*, *Erythronium grandiflorum*, *Fritillaria pudica*, *Glycyrrhiza lepidota*, *Lewisia rediviva*, *Leymus condensatus*, *Lomatium ambiguum*, *L. cous*, *L. dissectum*, *L. simplex*, *L. triternatum*, *Matricaria discoidea*, *Mentzelia albicaulis*, *Microseris nutans*, *Nuphar lutea*, *Opuntia polyacantha*, *Oryzopsis hymenoides*, *Pediomelum esculentum*, *Perideridia gairdneri*, *Phragmites australis*, *Pinus albicaulis*, *P. flexilis*, *P. ponderosa*, *Populus angustifolia*, *P. balsamifera*, *P. deltoides*, *P. tremuloides*, *Pteridium aquilinum*, *Rosa* sp., *Rubus parviflorus*, *Rumex aquaticus*, *R. crispus*, *R. salicifolius*, *Sagittaria cuneata*, *Scirpus acutus*, *S. robustus*, *Thuja plicata*, *Triglochin maritimum*, *Typha latifolia*, *Valeriana edulis*, *Vicia americana*, *Wyethia amplexicaulis*, *W. helianthoides*

Vegetable: *Allium* sp., *Amaranthus blitoides*, *Argentina anserina*, *Balsamorhiza sagittata*, *Chenopodium album*, *Cirsium undulatum*, *Heracleum maximum*, *Lomatium simplex*, *L. triternatum*, *Oxyria digyna*, *Pediomelum esculentum*, *Perideridia gairdneri*, *Rumex aquaticus*, *R. crispus*, *R. paucifolius*, *R. salicifolius*, *Sarcobatus vermiculatus*, *Urtica dioica*

Winter Use Food: *Amelanchier alnifolia*, *Camassia scilloides*, *Crataegus columbiana*, *Fragaria* sp., *Lonicera involucrata*, *Pediomelum esculentum*, *Prunus virginiana*, *Shepherdia argentea*, *Vaccinium membranaceum*

Venereal Aid: *Cordylanthus ramosus*, *C. wrightii*, *Ephedra nevadensis*, *E. trifurca*, *E. viridis*, *Ranunculus cymbalaria*

Veterinary Aid: *Atriplex confertifolia*, *Datura* sp., *D. wrightii*, *Gutierrezia microcephala*, *G. sarothrae*, *Ipomopsis longiflora*, *Muhlenbergia dubia*, *Verbascum thapsus*

Witchcraft Medicine: *Eriogonum fasciculatum*, *Gentiana affinis*, *Sphaeralcea coccinea*

## Food

Baby Food: *Calochortus nuttallii*

Beverage: *Agave* sp., *Anthemis* sp., *Arctostaphylos pringlei*, *Dalea purpurea*, *Ephedra torreyana*, *E. viridis*, *Lycium pallidum*, *Opuntia phaeacantha*, *Penstemon* sp., *Phoradendron juniperinum*, *Rhus trilobata*, *Salix exigua*, *Tragopogon porrifolius*, *Zea mays*

Bread & Cake: *Amaranthus retroflexus*, *Artemisia carruthii*, *Chenopodium fremontii*, *C. sp.*, *Cleome serrulata*, *Cupressus* sp., *Helianthus annuus*, *Opuntia phaeacantha*, *Oryzopsis hymenoides*, *Pinus edulis*, *Rhus trilobata*, *Sporobolus contractus*, *S. cryptandrus*, *Yucca baccata*, *Zea mays*

Candy: *Chloracantha spinosa*, *Dugaldia hoopesii*, *Hymenoxys richardsonii*, *Lactuca tatarica*, *Opuntia phaeacantha*, *Pinus edulis*, *Populus angustifolia*, *P. deltoides*, *Quercus pungens*

Cooking Agent: *Opuntia phaeacantha*, *Solanum elaeagnifolium*

Dessert: *Yucca baccata*

Dried Food: *Agave* sp., *Allium macropetalum*, *Amelanchier utahensis*, *Chenopodium album*, *Citrullus lanatus*, *Cleome serrulata*, *Cucumis melo*, *Cucurbita moschata*, *Cymopterus acaulis*, *Datura wrightii*, *Daucus pusillus*, *Lycium pallidum*, *Opuntia phaeacantha*, *O. sp.*, *Rhus trilobata*, *Shepherdia argentea*, *Yucca baccata*

Fodder: *Artemisia filifolia*, *Atriplex argentea*, *A. canescens*, *Avena sativa*, *Bouteloua* sp., *Juniperus monosperma*, *Oryzopsis hymenoides*, *Salix exigua*

Forage: *Amaranthus blitoides*, *Atriplex argentea*, *A. canescens*, *Cercocarpus montanus*, *Chrysothamnus nauseosus*, *Dimorphocarpa wislizeni*, *Ipomopsis aggregata*, *Juniperus* sp., *Kochia scoparia*, *Krascheninnikovia lanata*, *Oryzopsis hymenoides*, *Oxytropis* sp., *Penstemon* sp., *Portulaca oleracea*, *Purshia stansburiana*, *P. tridentata*, *Salix exigua*, *Sarcobatus vermiculatus*, *Sisymbrium officinale*, *Sophora nuttalliana*, *Sporobolus cryptandrus*, *Yucca* sp.

Fruit: *Amelanchier alnifolia*, *A. utahensis*, *Arctostaphylos pringlei*, *Celtis laevigata*, *Cupressus* sp., *Datura wrightii*, *Echinocereus* sp., *Juniperus monosperma*, *Lycium pallidum*, *Opuntia phaeacantha*, *O. sp.*, *Phoradendron juniperinum*, *Physalis lanceolata*, *P. pubescens*, *P. subulata*, *Prunus* sp., *Rhus trilobata*, *Ribes cereum*, *R. inerme*, *Rosa woodsii*, *Rubus arizonensis*, *Sarcobatus vermiculatus*, *Shepherdia argentea*, *Yucca baccata*, *Y. glauca*

Pie & Pudding: *Atriplex canescens*

Porridge: *Agave* sp., *Amaranthus blitoides*, *A. retroflexus*, *Arctostaphylos pringlei*, *Artemisia carruthii*, *Chenopodium* sp., *Cupressus* sp., *Descurainia pinnata*, *Helianthus annuus*, *Oryzopsis hymenoides*, *Pinus edulis*, *Prunus virginiana*, *Rhus trilobata*, *Rumex hymenosepalus*, *Sisymbrium altissimum*, *S. officinale*, *Suaeda moquinii*, *Yucca baccata*, *Zea mays*

Preserves: *Arctostaphylos pringlei*, *Cucurbita moschata*, *Opuntia phaeacantha*, *Physalis pubescens*, *Pinus edulis*, *Yucca baccata*

Sauce & Relish: *Allium cernuum*, *Cleome multicaulis*, *Cucumis melo*, *Cucurbita moschata*, *Opuntia* sp., *Yucca baccata*

Soup: *Agave* sp., *Allium cernuum*, *Cleome multicaulis*, *C. serrulata*, *Cymopterus acaulis*, *Lycium pallidum*, *Phaseolus vulgaris*, *Sisymbrium officinale*

Special Food: *Castilleja lineata*, *Cleome multicaulis*, *Dalea candida*, *Datura wrightii*, *Fragaria vesca*, *Lycium pallidum*, *Pinus edulis*, *Yucca baccata*, *Zea mays*

Spice: *Allium cernuum*, *Cleome serrulata*, *Cymopterus acaulis*, *C. purpureus*

Staple: *Amaranthus blitoides*, *A. palmeri*, *A. sp.*, *Chenopodium album*, *C. sp.*, *Opuntia phaeacantha*, *Oryzopsis hymenoides*, *Physalis pubescens*, *Pinus edulis*, *Quercus* sp., *Rhus trilobata*, *Zea mays*

Starvation Food: *Calochortus nuttallii*, *Juniperus monosperma*, *Sphaeralcea coccinea*

Substitution Food: *Cymopterus montanus*, *Thelesperma longipes*, *T. megapotamicum*

Sweetener: *Amaranthus palmeri*, *A. sp.*

Unspecified: *Agave sp.*, *Allium cepa*, *A. cernuum*, *A. macropetalum*, *Amaranthus retroflexus*, *Artemisia carruthii*, *Asclepias sp.*, *Calochortus aureus*, *C. luteus*, *C. nuttallii*, *Capsicum annuum*, *Cercis canadensis*, *Cleome serrulata*, *Cuscuta sp.*, *Cymopterus montanus*, *Daucus pusillus*, *Eriogonum alatum*, *E. rotundifolium*, *Humulus lupulus*, *Juglans major*, *Lomatium orientale*, *Mammillaria sp.*, *Mentzelia multiflora*, *Neomammillaria sp.*, *Opuntia phaeacantha*, *O. sp.*, *Oryzopsis hymenoides*, *Panicum capillare*, *Pinus edulis*, *Populus angustifolia*, *P. deltoides*, *Portulaca oleracea*, *Quercus gambelii*, *Q. sp.*, *Rumex hymenosepalus*, *Salsola australis*, *Sphaeralcea angustifolia*, *Verbesina encelioides*, *Zea mays*

Vegetable: *Allium cernuum*, *A. macropetalum*, *Amaranthus blitoides*, *A. retroflexus*, *Chenopodium album*, *Cleome multicaulis*, *C. serrulata*, *Cucurbita pepo*, *Cymopterus acaulis*, *Phaseolus vulgaris*, *Rumex hymenosepalus*, *Salsola australis*, *Solanum jamesii*, *Zea mays*

Winter Use Food: *Allium cepa*, *A. cernuum*, *A. macropetalum*, *Amaranthus retroflexus*, *Amelanchier utahensis*, *Cleome serrulata*, *Daucus pusillus*, *Lycium pallidum*, *Yucca baccata*, *Y. glauca*

### Fiber

Basketry: *Quercus sp.*, *Rhus trilobata*, *Salix sp.*, *Yucca sp.*

Brushes & Brooms: *Muhlenbergia cuspidata*, *M. pungens*, *M. sp.*, *Senecio flaccidus*

Building Material: *Artemisia tridentata*, *Cercocarpus montanus*, *Chrysothamnus viscidiflorus*, *Juniperus monosperma*, *J. osteosperma*, *J. sp.*, *Parthenocissus vitacea*, *Pinus edulis*, *P. sp.*, *Populus deltoides*, *P. sp.*, *Yucca sp.*, *Zea mays*

Clothing: *Juniperus sp.*, *Purshia tridentata*, *Yucca sp.*

Cordage: *Agave sp.*, *Gossypium sp.*, *Salix sp.*, *Yucca sp.*

Furniture: *Pinus edulis*, *Populus angustifolia*, *P. deltoides*, *Quercus x pauciloba*, *Salix sp.*

Mats, Rugs & Bedding: *Agave utahensis*, *Juniperus sp.*, *Purshia stansburiana*, *Yucca sp.*

Sewing Material: *Gossypium sp.*, *Rhus trilobata*

### Dye

Black: *Gaultheria humifusa*, *Pinus edulis*, *Rhus trilobata*

Blue: *Delphinium scaposum*, *Lupinus lyallii*, *Rhus trilobata*

Brown: *Alnus incana*, *Ephedra viridis*, *Juglans major*, *J. regia*, *Mirabilis sp.*, *Purshia stansburiana*, *Quercus pungens*, *Rumex hymenosepalus*

Green: *Allium sp.*, *Chrysothamnus nauseosus*, *Iris sp.*, *Juniperus monosperma*, *Lupinus lyallii*, *Prunus sp.*, *Rumex hymenosepalus*

Mordant: *Rhus trilobata*

Orange: *Chrysothamnus viscidiflorus*, *Rumex hymenosepalus*, *Thelesperma subnudum*

Orange-Yellow: *Dahlia pinnata*

Purple: *Cerasus crenulata*, *Mirabilis sp.*, *Prunus sp.*

Red: *Alnus incana*, *Helianthus annuus*, *Juniperus occidentalis*, *Mirabilis sp.*, *Opuntia polyacantha*, *Prunus americana*, *Rumex hymenosepalus*

Red-Brown: *Celtis laevigata*, *Heuchera bracteata*

Red-Yellow: *Malus sylvestris*

Unspecified: *Juniperus sp.*, *Nolina microcarpa*

Yellow: *Artemisia sp.*, *Atriplex canescens*, *Chrysothamnus nauseosus*, *C. sp.*, *C. viscidiflorus*, *Dugaldia hoopesii*, *Gutierrezia sarothrae*, *Hymenoxys richardsonii*, *Mahonia fremontii*, *Mirabilis sp.*, *Petradoria pumila*, *Prunus persica*, *Rumex hymenosepalus*

Yellow-Brown: *Purshia stansburiana*

### Other

Cash Crop: *Chrysothamnus nauseosus*, *Pinus edulis*, *Pseudotsuga menziesii*

Ceremonial Items: *Amaranthus albus*, *Arabis holboellii*, *Artemisia sp.*, *Arundo donax*, *Aster sp.*, *Astragalus allochrous*, *A. mollissimus*, *Bambusa sp.*, *Bouteloua gracilis*, *Brickellia grandiflora*, *Campanula uniflora*, *Cercocarpus montanus*, *Chenopodium graveolens*, *C. sp.*, *Chrysothamnus nauseosus*, *Dalea candida*, *Delphinium scaposum*, *Eriogonum alatum*, *Fendlera rupicola*, *Forestiera pubescens*, *Gutierrezia sarothrae*, *Helianthus annuus*, *Ipomopsis longiflora*, *Juniperus monosperma*, *J. occidentalis*, *J. sp.*, *J. virginiana*, *Krascheninnikovia lanata*, *Lagenaria siceraria*, *Lithospermum incisum*, *Lupinus brevicaulis*, *L. sp.*, *Mentzelia multiflora*, *Nicotiana attenuata*, *N. trigonophylla*, *Oxytropis lambertii*, *Phoradendron sp.*, *Phragmites australis*, *Picea pungens*, *P. sp.*, *Pinus edulis*, *P. flexilis*, *P. sp.*, *Populus deltoides*, *P. sp.*, *P. tremuloides*, *Prunus sp.*, *P. virginiana*, *Pseudotsuga menziesii*, *Purshia stansburiana*, *Quercus pungens*, *Q. sp.*, *Rhus trilobata*, *Rosa woodsii*, *Salix sp.*, *Sarcobatus vermiculatus*, *Senecio flaccidus*, *Shinersoseris rostrata*, *Thalictrum fendleri*, *Townsendia strigosa*, *Typha latifolia*, *Yucca baccata*, *Y. elata*, *Y. glauca*, *Y. sp.*, *Zea mays*

Analgesic: *Ageratina herbacea*, *Androsace septentrionalis*, *Apocynum cannabinum*, *Arabis perennans*, *Arenaria lanuginosa*, *Artemisia tridentata*, *Atriplex argentea*, *A. canescens*, *Bahia dissecta*, *Brickellia grandiflora*, *Campanula rotundifolia*, *Castilleja linariifolia*, *Chamaesyce albomarginata*, *C. fendleri*, *C. serpyllifolia*, *Chrysothamnus nauseosus*, *Clematis hirsutissima*, *C. ligusticifolia*, *Cordylanthus wrightii*, *Corydalis aurea*, *Dalea candida*, *Datura wrightii*, *Dracocephalum parviflorum*, *Erigeron concinnus*, *E. speciosus*, *Eriogonum jamesii*, *E. leptophyllum*, *Erysimum capitatum*, *Galium fendleri*, *Gutierrezia sarothrae*, *Heuchera novomexicana*, *H. parvifolia*, *Ipomopsis longiflora*, *Juniperus monosperma*, *J. scopulorum*, *Lotus wrightii*, *Marrubium vulgare*, *Menodora scabra*, *Monarda pectinata*, *M. punctata*, *Nicotiana attenuata*, *Oenothera coronopifolia*, *Oxalis drummondii*, *Penstemon barbatus*, *P. jamesii*, *Pericome caudata*, *Pinus edulis*, *Polygonum aviculare*, *P. ramosissimum*, *Potentilla norvegica*, *Prunus virginiana*, *Psilostrophe tagetina*, *Psoralidium lanceolatum*, *Quercus gambelii*, *Q. × pauciloba*, *Ratibida tagetes*, *Rhus trilobata*, *Sanvitalia abertii*, *Senecio multilobatus*, *Tetradymia canescens*, *Thermopsis rhombifolia*, *Zinnia grandiflora*

Antidiarrheal: *Chamaesyce fendleri*, *C. serpyllifolia*, *Eriogonum alatum*  
 Antidote: *Amaranthus retroflexus*, *Bouteloua gracilis*, *Chenopodium album*, *C. incanum*, *Gutierrezia sarothrae*, *Krascheninnikovia lanata*  
 Antiemetic: *Gaillardia pinnatifida*, *Gaura coccinea*  
 Antihemorrhagic: *Sphaeralcea fendleri*  
 Antirheumatic (Internal): *Bahia dissecta*, *Ipomopsis longiflora*  
 Blood Medicine: *Castilleja integra*, *Cleome serrulata*, *Eriogonum racemosum*  
 Burn Dressing: *Castilleja integra*, *Mirabilis linearis*, *M. oblongifolia*, *Oenothera flava*, *Penstemon barbatus*, *Pinus edulis*, *Silene laciniata*  
 Cathartic: *Chrysothamnus nauseosus*, *Glycyrrhiza lepidota*, *Lotus wrightii*, *Orthocarpus purpureoalbus*, *Petradoria pumila*, *Psilostrophe tagetina*, *Quercus gambelii*, *Ratibida tagetes*, *Senecio multicapitatus*, *Zinnia grandiflora*  
 Ceremonial Medicine: *Achillea millefolium*, *Agastache pallidiflora*, *Agoseris aurantiaca*, *Amelanchier utahensis*, *Antennaria parvifolia*, *Apocynum cannabinum*, *A. × floribundum*, *Arceuthobium campylopodum*, *A. vaginatum*, *Arctostaphylos pungens*, *A. uva-ursi*, *Asclepias asperula*, *A. tuberosa*, *Aster praealtus*, *Astragalus allochrous*, *A. bisulcatus*, *A. humistratus*, *A. kentrophylla*, *A. mollissimus*, *A. praelongus*, *Atriplex canescens*, *Baccharis wrightii*, *Besseyia plantaginea*, *Brickellia grandiflora*, *Calochortus gunnisonii*, *Campanula rotundifolia*, *Carex micropiera*, *Ceanothus fendleri*, *Chamaesyce fendleri*, *C. serpyllifolia*, *Chrysothamnus nauseosus*, *Cleome serrulata*, *Coreopsis tinctoria*, *Cornus sericea*, *Cosmos parviflorus*, *Cryptantha cinerea*, *Cuscuta megalocarpa*, *Cyperus esculentus*, *Datura wrightii*, *Dichantheium oligosanthes*, *Draba helleriana*, *Echinochloa crus-gavonis*, *Eleocharis montevidensis*, *E. rostellata*, *Erigeron bellidiastrum*, *E. canus*, *E. divergens*, *E. eximius*, *E. flagellaris*, *Eriogonum alatum*, *E. annuum*, *Erysimum capitatum*, *Fallugia paradoxa*, *Forestiera pubescens*, *Galium fendleri*, *Gnaphalium stramineum*, *Gutierrezia sarothrae*, *Heterotheca villosa*, *Houstonia wrightii*, *Hymenoxys richardsonii*, *Ipomopsis longiflora*, *I. multiflora*, *Iris missouriensis*, *Juniperus communis*, *J. monosperma*, *J. scopulorum*, *Lactuca serriola*, *Lesquerella rectipes*, *Limosella aquatica*, *Lonicera arizonica*, *L. involucrata*, *Lupinus caudatus*, *Luzula multiflora*, *Lycium pallidum*, *L. torreyi*, *Mahonia repens*, *Maianthemum stellatum*, *Monarda pectinata*, *Monolepis nuttalliana*, *Nicotiana attenuata*, *Oenothera albicaulis*, *O. pallida*, *O. primiveris*, *Orthocarpus purpureoalbus*, *Parryella filifolia*, *Paxistima myrsinites*, *Penstemon jamesii*, *Pericome caudata*, *Peteria scoparia*, *Petradoria pumila*, *Picea engelmannii*, *Pinus edulis*, *P. flexilis*, *P. ponderosa*, *Polygonum lapathifolium*, *Potamogeton natans*, *Prunus virginiana*, *Pseudocymopterus montanus*, *Pseudotsuga menziesii*, *Psilostrophe tagetina*, *Psoralidium lanceolatum*, *Purshia stansburiana*, *P. tridentata*, *Pyrrhopappus pauciflorus*, *Quercus gambelii*, *Ranunculus cymbalaria*, *Ratibida tagetes*, *Ribes pinetorum*, *Rorippa palustris*, *Rosa woodsii*, *Rumex crispus*, *R. hymenosepalus*, *R. salicifolius*, *Salix exigua*, *S. lucida*, *Schoenocrambe linearifolia*, *Scirpus acutus*, *S. pallidus*, *Senecio fendleri*, *S. multilobatus*, *Sinapis arvensis*, *Stachys rothrockii*, *Symphoricarpos oreophilus*, *Tetraclea coulteri*, *Tetradymia canescens*, *Thalictrum fendleri*, *Thlaspi montanum*, *Tragopogon porrifolius*, *T. pratensis*, *Trifolium dubium*, *Typha latifolia*, *Verbena bracteata*, *V. macedougalii*, *Veronica americana*, *V. peregrina*, *Viola nephrophylla*, *Yucca baccata*, *Zinnia grandiflora*  
 Cold Remedy: *Chrysothamnus nauseosus*, *Juniperus scopulorum*, *Melilotus officinalis*, *Pinus edulis*, *Sanvitalia abertii*, *Tetradymia canescens*  
 Contraceptive: *Bahia dissecta*, *Erigeron speciosus*, *Eriogonum jamesii*, *Phlox stansburyi*, *Rhus trilobata*, *Yucca glauca*  
 Cough Medicine: *Agastache pallidiflora*, *Artemisia carruthii*, *A. frigida*, *A. tridentata*, *Atriplex canescens*, *Brickellia californica*, *B. eupatorioides*, *Chrysothamnus nauseosus*, *Cryptantha fendleri*, *Draba helleriana*, *Ephedra torreyana*, *Erigeron eximius*, *Eriogonum alatum*, *Humulus lupulus*, *Hymenopappus filifolius*, *Iva xanthifolia*, *Juniperus communis*, *J. monosperma*, *Mirabilis linearis*, *Monarda pectinata*, *M. punctata*, *Nicotiana attenuata*, *Penstemon barbatus*, *Pericome caudata*, *Pinus edulis*, *P. flexilis*, *P. ponderosa*, *Purshia stansburiana*, *Ratibida tagetes*, *Tetradymia canescens*, *Thermopsis rhombifolia*, *Valeriana acutiloba*, *Verbascum thapsus*

Dermatological Aid: *Abronia fragrans*, *Agastache pallidiflora*, *Agoseris aurantiaca*, *Allionia incarnata*, *Arenaria lanuginosa*, *Artemisia carruthii*, *A. dracuncululus*, *A. tridentata*, *Asclepias tuberosa*, *Astragalus humistratus*, *Atriplex argentea*, *A. canescens*, *Besseyia plantaginea*, *Bouteloua gracilis*, *B. simplex*, *Calochortus gunnisonii*, *Campanula parryi*, *Chamaesyce fendleri*, *C. serpyllifolia*, *Cheilanthes wootonii*, *Cleome serrulata*, *Convolvulus arvensis*, *Conyza canadensis*, *Cryptantha cinerea*, *Cystopteris fragilis*, *Dimorphocarpa wislizeni*, *Draba reptans*, *Drymaria glandulosa*, *Dyssodia papposa*, *Erigeron flagellaris*, *Eriogonum abertianum*, *E. alatum*, *E. annuum*, *E. cernuum*, *Geranium lentum*, *Grindelia nuda*, *Gutierrezia sarothrae*, *Helianthella parryi*, *Helianthus annuus*, *Heterotheca villosa*, *Heuchera novomexicana*, *Houstonia wrightii*, *Hymenopappus filifolius*, *Hymenoxys richardsonii*, *Ipomopsis longiflora*, *Juniperus monosperma*, *Krascheninnikovia lanata*, *Lappula occidentalis*, *Limosella aquatica*, *Lupinus argenteus*, *L. caudatus*, *L. kingii*, *Machaeranthera gracilis*, *Mahonia repens*, *Malacothrix fendleri*, *Mirabilis multiflora*, *Monarda fistulosa*, *Monolepis nuttalliana*, *Myosurus cupulatus*, *M. minimus*, *Oenothera primiveris*, *Opuntia macrorhiza*, *Oxalis drummondii*, *Parthenocissus vitacea*, *Pennisetum glaucum*, *Penstemon barbatus*, *P. fendleri*, *Pericome caudata*, *Petelia scoparia*, *Petradoria pumila*, *Phlox gracilis*, *P. stansburyi*, *Picradeniopsis oppositifolia*, *Potentilla hippiana*, *Psilostrophe tagetina*, *Rhus trilobata*, *Rumex crispus*, *Salsola australis*, *Sanvitalia abertii*, *Senecio fendleri*, *Silene douglasii*, *S. laciniata*, *S. noctiflora*, *Sphaeralcea fendleri*, *Stachys rothrockii*, *Talinum parviflorum*, *Taraxacum officinale*, *Thlaspi montanum*, *Tragopogon porrifolius*, *T. pratensis*, *Verbena bracteata*, *Woodsia neomexicana*, *Zigadenus elegans*

Diaphoretic: *Artemisia carruthii*, *A. tridentata*, *Juniperus monosperma*, *Pericome caudata*

Dietary Aid: *Hilaria jamesii*, *Plantago patagonica*

Disinfectant: *Agastache pallidiflora*, *Agoseris aurantiaca*, *Apocynum xfloribundum*, *Brickellia brachyphylla*, *Campanula rotundifolia*, *Carex inops*, *Coreopsis tinctoria*, *Dalea candida*, *Dichantheium oligosanthes*, *Equisetum laevigatum*, *Erigeron canus*, *E. concinnus*, *E. divergens*, *E. flagellaris*, *Eriogonum annuum*, *Forestiera pubescens*, *Gutierrezia sarothrae*, *Heuchera novomexicana*, *Houstonia wrightii*, *Ipomopsis longiflora*, *Lathyrus eucosmus*, *Leptodactylon pungens*, *Lotus wrightii*, *Marrubium vulgare*, *Oenothera villosa*, *Phlox stansburyi*, *Plantago major*, *Purshia tridentata*, *Salix lucida*, *Sinapis arvensis*, *Stachys rothrockii*, *Tetradymia canescens*, *Tetraneuris argentea*, *Tradescantia occidentalis*, *Veronica peregrina*

Diuretic: *Besseyia plantaginea*, *Hieracium fendleri*

Ear Medicine: *Pinus edulis*

Emetic: *Achillea millefolium*, *Agoseris aurantiaca*, *Amelanchier utahensis*, *Apocynum cannabinum*, *A. xfloribundum*, *Arctostaphylos pungens*, *A. wu-ursi*, *Asclepias asperula*, *Astragalus allochrous*, *A. bisulcatus*, *A. mollissimus*, *A. praelongus*, *Atriplex canescens*, *Baccharis wrightii*, *Besseyia plantaginea*, *Brickellia grandiflora*, *Carex microptera*, *Ceanothus fendleri*, *Chrysothamnus nauseosus*, *Cornus sericea*, *Cuscuta megalocarpa*, *Cyperus esculentus*, *Draba helleriana*, *Echinochloa crus-pavonis*, *Eleocharis montevidensis*, *E. rostellata*, *Erysimum capitatum*, *Fallugia paradoxa*, *Forestiera pubescens*, *Galium fendleri*, *Gnaphalium stramineum*, *Grindelia nuda*, *Heterotheca villosa*, *Hymenoxys richardsonii*, *Iris missouriensis*, *Juniperus communis*, *J. monosperma*, *Lactuca serriola*, *Lonicera arizonica*, *L. involucrata*, *Lupinus caudatus*, *Luzula multiflora*, *Lycium pallidum*, *L. torreyi*, *Mahonia repens*, *Maianthemum stellatum*, *Monolepis nuttalliana*, *Oenothera pallida*, *Parryella filifolia*, *Paxistima myrsinites*, *Pericome caudata*, *Petradoria pumila*, *Picea engelmannii*, *Pinus edulis*, *P. flexilis*, *P. ponderosa*, *Potamogeton natans*, *Prunus virginiana*, *Pseudocymopterus montanus*, *Pseudotsuga muenziesii*, *Purshia stansburiana*, *P. tridentata*, *Pyrhopappus pauciflorus*, *Quercus gambelii*, *Ranunculus cymbalaria*, *Ribes pinetorum*, *Rosa woodsii*, *Rumex crispus*, *R. salicifolius*, *Salix exigua*, *S. lucida*, *Scirpus acutus*, *S. pallidus*, *Sinapis arvensis*, *Sisymbrium altissimum*, *Symphoricarpos oreophilus*, *Tetradymia canescens*, *Tragopogon*

*porrifolius*, *Trifolium dubium*, *Typha latifolia*, *Veronica americana*, *V. peregrina*, *Viola nephrophylla*, *Zinnia grandiflora*

Eye Medicine: *Arenaria lanuginosa*, *Aster praealtus*, *Astragalus bisulcatus*, *Campanula rotundifolia*, *Cirsium calcareum*, *C. neomexicanum*, *C. undulatum*, *Draba helleriana*, *Dracocephalum parviflorum*, *Erigeron divergens*, *Ipomopsis longiflora*, *Lesquerella rectipes*, *Lithospermum incisum*, *Machaeranthera gracilis*, *Malacothrix fendleri*, *Mentzelia laciniata*, *M. multiflora*, *Psilostrophe tagetina*, *Rorippa palustris*, *Schoenocrambe linearifolia*, *Thermopsis rhombifolia*, *Vicia americana*

Febrifuge: *Agastache pallidiflora*, *Ageratina herbacea*, *Arenaria lanuginosa*, *Artemisia carruthii*, *Brickellia californica*, *Chrysothamnus nauseosus*, *Dalea candida*, *Dracocephalum parviflorum*, *Erigeron eximius*, *Gilia inconspicua*, *Gutierrezia sarothrae*, *Juniperus communis*, *J. monosperma*, *J. scopulorum*, *Mentha arvensis*, *Monarda pectinata*, *M. punctata*, *Pericome caudata*, *Pinus edulis*, *P. flexilis*, *P. ponderosa*, *Purshia tridentata*, *Ratibida columnifera*, *R. tagetes*, *Sanvitalia abertii*, *Tetradymia canescens*, *Verbascum thapsus*, *Verbena macdougalii*

Gastrointestinal Aid: *Apocynum cannabinum*, *Aster praealtus*, *Atriplex canescens*, *Brassica juncea*, *Carex inops*, *Castilleja linariifolia*, *Cercocarpus montanus*, *Chamaesyce albomarginata*, *C. fendleri*, *C. serpyllifolia*, *Convolvulus arvensis*, *Corydalis aurea*, *Dalea candida*, *Dyssodia papposa*, *Ephedra torreyana*, *Eriogonum jamesii*, *Gaillardia pinnatifida*, *Gaura hexandra*, *Grindelia nuda*, *Gutierrezia sarothrae*, *Heterotheca villosa*, *Heuchera parvifolia*, *Ipomopsis longiflora*, *Juniperus monosperma*, *J. scopulorum*, *Linum lewisii*, *L. puberulum*, *Lotus wrightii*, *Machaeranthera tanacetifolia*, *Marrubium vulgare*, *Menodora scabra*, *Myosurus cupulatus*, *Oenothera coronopifolia*, *Orthocarpus purpureoalbus*, *Penstemon barbatus*, *Phoradendron juniperinum*, *Picradeniopsis oppositifolia*, *Polygonum aviculare*, *P. ramosissimum*, *Prunus virginiana*, *Pseudocymopterus montanus*, *Psilostrophe tagetina*, *Psoralidium lanceolatum*, *Ratibida tagetes*, *Rhus trilobata*, *Sarcobatus vermiculatus*, *Senecio fendleri*, *Sphaeralcea digitata*, *Tetradymia canescens*, *Tetraneuris argentea*, *Veronica peregrina*, *Zinnia grandiflora*

Gynecological Aid: *Androsace occidentalis*, *Artemisia tridentata*, *Bahia dissecta*, *Bouteloua gracilis*, *Calochortus gunnisonii*, *Capsicum annuum*, *Castilleja integra*, *C. linariifolia*, *Cercocarpus montanus*, *Chamaesyce fendleri*, *C. serpyllifolia*, *Chrysothamnus depressus*, *C. nauseosus*, *Cordylanthus wrightii*, *Corydalis aurea*, *Echeandia flavescens*, *Erigeron speciosus*, *Eriogonum jamesii*, *E. leptophyllum*, *Erysimum capitatum*, *Euphorbia lurida*, *Gutierrezia sarothrae*, *Heuchera parvifolia*, *Ipomopsis longiflora*, *Juniperus monosperma*, *Leptodactylon pungens*, *Marrubium vulgare*, *Menodora scabra*, *Opuntia macrorhiza*, *Pennellia micrantha*, *Penstemon barbatus*, *P. linarioides*, *Pericome caudata*, *Phlox stansburyi*, *Psoralidium lanceolatum*, *Purshia tridentata*, *Quercus gambelii*, *Rhus trilobata*, *Rumex hymenosepalus*, *Sanvitalia abertii*, *Senecio multicapitatus*, *S. multilobatus*, *Stephanomeria pauciflora*, *Taraxacum officinale*, *Townsendia exscapa*, *Yucca baccata*, *Y. glauca*

Hallucinogen: *Datura wrightii*

Heart Medicine: *Heterotheca villosa*

Hemostat: *Chamaesyce albomarginata*, *C. fendleri*, *C. serpyllifolia*, *Erigeron flagellaris*, *Gayophytum ramosissimum*, *Trifolium dubium*

Herbal Steam: *Picradeniopsis oppositifolia*, *Tetradymia canescens*

Hunting Medicine: *Antennaria rosulata*, *Aster praealtus*, *Besseyia plantaginea*, *Campanula rotundifolia*, *Castilleja miniata*, *Cercocarpus montanus*, *Chamaebatiaria millefolium*, *Datura wrightii*, *Erigeron eximius*, *E. formosissimus*, *Helianthus petiolaris*, *Hieracium fendleri*, *Humulus lupulus*, *Ipomopsis aggregata*, *Limosella aquatica*, *Lonicera utahensis*, *Mirabilis linearis*, *Monolepis nuttalliana*, *Oenothera villosa*, *Pinus flexilis*, *Purshia tridentata*, *Ranunculus inamoenus*, *Senecio neomexicanus*, *Thermopsis rhombifolia*, *Valeriana acutifolia*, *Verbesina encelioides*, *Veronica peregrina*

Internal Medicine: *Aster praealtus*, *Machaeranthera gracilis*, *Sidalcea neomexicana*, *Tradescantia occidentalis*

Kidney Aid: *Draba helleriana*, *Juniperus scopulorum*

Laxative: *Mahonia repens*

Misc. Disease Remedy: *Artemisia carruthii*, *Asclepias tuberosa*, *Brickellia grandiflora*, *Erigeron eximius*, *Galium fendleri*, *Hedeoma drummondii*, *Holodiscus discolor*, *Humulus lupulus*, *Iva xanthifolia*, *Lycium pallidum*, *L. torreyi*, *Marrubium vulgare*, *Mentha arvensis*, *Monarda pectinata*, *Pericome caudata*, *Peteria scoparia*, *Pinus edulis*, *Psoralidium tenuiflorum*, *Salsola australis*, *Valeriana acutiloba*

Narcotic: *Datura wrightii*

Nose Medicine: *Atriplex canescens*, *Chaetopappa ericoides*, *Heterotheca villosa*, *Polygonum douglasii*

Oral Aid: *Abronia fragrans*, *Eriogonum alatum*, *Phlox gracilis*, *Rumex crispus*, *Sanvitalia abertii*, *Schkuhria multiflora*, *Schoenocrambe linearifolia*

Orthopedic Aid: *Agoseris aurantiaca*, *Clematis columbiana*, *C. ligusticifolia*, *Corydalis aurea*, *Hackelia floribunda*, *Heuchera novomexicana*, *Menodora scabra*, *Mirabilis oxybaphoides*, *Oenothera albicaulis*, *Tetradymia canescens*

Other: *Atriplex argentea*, *Brickellia eupatorioides*, *Corydalis aurea*, *Eriogonum annuum*, *Helianthus annuus*, *Malva neglecta*, *Pinus edulis*, *Tetraneuris argentea*, *Tripterocalyx carnea*

Panacea: *Acer glabrum*, *Agoseris aurantiaca*, *Amelanchier utahensis*, *Androsace septentrionalis*, *Arabis fendleri*, *Arenaria fendleri*, *Argythamnia cyanophylla*, *Artemisia carruthii*, *A. frigida*, *A. ludoviciana*, *Astragalus humistratus*, *A. kentrophyta*, *Besseyia plantaginea*, *Bouteloua gracilis*, *Calliandra humilis*, *Calochortus aureus*, *C. gunnisonii*, *Calylophus hartwegii*, *Cercocarpus montanus*, *Cheilanthes wootonii*, *Cirsium neomexicanum*, *C. undulatum*, *Coreopsis tinctoria*, *Cryptantha cinerea*, *Cymopterus bulbosus*, *Dalea candida*, *Draba helleriana*, *Erigeron divergens*, *Eriogonum alatum*, *E. annuum*, *E. jamesii*, *E. leptophyllum*, *Fragaria vesca*, *Gaura coccinea*, *Geranium atropurpureum*, *G. lentum*, *G. richardsonii*, *Glandularia wrightii*, *Gnaphalium stramineum*, *Gutierrezia sarothrae*, *Helianthella parryi*, *Helianthus petiolaris*, *Heliomeris longifolia*, *Heterotheca villosa*, *Heuchera novomexicana*, *H. parvifolia*, *Houstonia wrightii*, *Hymenopappus filifolius*, *Ipomopsis longiflora*, *Krascheninnikovia lanata*, *Linanthus nuttallii*, *Linum puberulum*, *Lithospermum incisum*, *L. multiflorum*, *Lotus wrightii*, *Lupinus kingii*, *Lycium pallidum*, *L. torreyi*, *Menodora scabra*, *Myosurus aristatus*, *Oenothera albicaulis*, *O. cespitosa*, *O. coronopifolia*, *O. elata*, *O. flava*, *Orobancha fasciculata*, *Penstemon barbatus*, *P. virgatus*, *Physalis pubescens*, *Picradeniopsis oppositifolia*, *Plantago major*, *Polygonum ramosissimum*, *Potentilla crinita*, *P. hippiana*, *P. pennsylvanica*, *Prunus virginiana*, *Quercus gambelii*, *Ratibida tagetes*, *Rumex crispus*, *R. salicifolius*, *Sanvitalia abertii*, *Senecio fendleri*, *Silene drummondii*, *Sphaeralcea coccinea*, *S. digitata*, *Stephanomeria pauciflora*, *Tetraneuris argentea*, *Tragia nepetifolia*, *Vicia americana*

Pediatric Aid: *Androsace occidentalis*, *Antennaria rosulata*, *Besseyia plantaginea*, *Brickellia brachyphylla*, *Capsicum annuum*, *Cryptantha cinerea*, *Eriogonum alatum*, *Gaura coccinea*, *Grindelia nuda*, *Hilaria jamesii*, *Juniperus monosperma*, *Orobancha fasciculata*, *Ratibida tagetes*, *Salix lucida*, *Senecio fendleri*

Poison: *Hackelia floribunda*, *Hordeum jubatum*, *Hymenoxys richardsonii*, *Toxicodendron radicans*, *Urtica dioica*, *Yucca glauca*

Preventive Medicine: *Thlaspi montanum*

Psychological Aid: *Frasera speciosa*, *Verbascum thapsus*

Respiratory Aid: *Arenaria fendleri*, *A. lanuginosa*, *Clematis hirsutissima*, *Erysimum capitatum*, *Gaillardia pinnatifida*, *Lesquerella rectipes*, *Machaeranthera gracilis*, *M. tanacetifolia*

Snakebite Remedy: *Artemisia filifolia*, *Aster falcatus*, *A. praealtus*, *Chaetopappa ericoides*, *Conyza canadensis*, *Cryptantha fulvocanescens*, *Erigeron divergens*, *E. flagellaris*, *Eriogonum leptophyllum*, *Gutierrezia sarothrae*, *Mentzelia albicaulis*, *Oenothera pallida*, *Sanvitalia abertii*

Stimulant: *Juniperus monosperma*, *Mentha arvensis*

Strengtheners: *Frasera speciosa*, *Verbascum thapsus*

Throat Aid: *Bouteloua simplex*, *Cleome serrulata*, *Corydalis aurea*, *Oenothera*

*albicaulis*, *O. flava*, *O. pallida*, *Penstemon jamesii*, *Psilostrophe tagetina*, *Sanvitalia abertii*, *Tragopogon pratensis*

Toothache Remedy: *Artemisia frigida*, *Astragalus bisulcatus*, *Atriplex canescens*, *Chaetopappa ericoides*, *Chamaesyce fendleri*, *C. serpyllifolia*, *Cryptantha fulvocanescens*, *Descurainia pinnata*, *D. sophia*, *Erysimum capitatum*, *Heterotheca villosa*, *Lesquerella rectipes*, *Lycium pallidum*, *L. torreyi*, *Mentzelia albicaulis*, *Pennellia micrantha*, *Pericome caudata*, *Sanvitalia abertii*

Tuberculosis Remedy: *Valeriana acutiloba*

Urinary Aid: *Gutierrezia sarothrae*

Venereal Aid: *Androsace septentrionalis*, *Arenaria lanuginosa*, *Baccharis wrightii*, *Coreopsis tinctoria*, *Draba helleriana*, *Heterotheca villosa*, *Heuchera parvifolia*, *Potentilla norvegica*, *Psoralidium lanceolatum*, *Ratibida tagetes*

Veterinary Aid: *Artemisia carruthii*, *A. tridentata*, *Asclepias asperula*, *Atriplex canescens*, *Bouteloua gracilis*, *Cerastium beeringianum*, *Chamaesyce fendleri*, *C. serpyllifolia*, *Cirsium neomexicanum*, *C. undulatum*, *Commelina dianthifolia*, *Dalea candida*, *Datura wrightii*, *Echeandia flavescens*, *Elymus trachycaulus*, *Erigeron flagellaris*, *Eriogonum abertianum*, *Frasera speciosa*, *Grindelia nuda*, *Gutierrezia sarothrae*, *Ipomopsis longiflora*, *Juniperus monosperma*, *Lathyrus eucosmus*, *Mirabilis linearis*, *Nicotiana attenuata*, *Penstemon barbatus*, *Peteria scoparia*, *Psoralidium tenuiflorum*, *Ratibida columnifera*, *Rumex hymenosepalus*, *Silene douglasii*, *Solanum triflorum*, *Sporobolus cryptandrus*, *Talinum parviflorum*, *Tradescantia occidentalis*, *T. pinetorum*, *Tragopogon porrifolius*, *T. pratensis*, *Verbascum thapsus*

Witchcraft Medicine: *Agastache pallidiflora*, *Agoseris aurantiaca*, *Androsace septentrionalis*, *Antennaria parvifolia*, *A. rosulata*, *Aster oblongifolius*, *Besseyia plantaginea*, *Campanula rotundifolia*, *Castilleja miniata*, *Clematis hirsutissima*, *C. ligusticifolia*, *Datura wrightii*, *Draba helleriana*, *Erigeron eximius*, *Eriogonum annuum*, *Heliomeris multiflora*, *Humulus lupulus*, *Iva xanthifolia*, *Juniperus scopulorum*, *Limosella aquatica*, *Myosurus aristatus*, *Pericome caudata*, *Peteria scoparia*, *Psoralidium lanceolatum*, *Solidago velutina*, *Tetradymia canescens*, *Tetraneuris argentea*, *Thermopsis rhombifolia*, *Thlaspi montanum*, *Tripterocalyx carnea*, *Valeriana acutiloba*

### Food

Beverage: *Mirabilis multiflora*, *M. oxybaphoides*, *Thelesperma megapotamicum*

Bread & Cake: *Amaranthus retroflexus*, *Chenopodium album*, *C. incanum*, *Descurainia pinnata*, *D. sophia*, *Prunus virginiana*, *Yucca baccata*

Candy: *Lygodesmia juncea*, *Pinus edulis*, *Senecio multicapitatus*, *Stephanomeria pauciflora*

Dried Food: *Allium cernuum*, *Cleome serrulata*, *Cymopterus bulbosus*, *Lycium pallidum*, *L. torreyi*, *Machaeranthera gracilis*, *Opuntia macrorhiza*, *Rhus trilobata*

Fodder: *Aristida purpurea*, *Atriplex canescens*, *A. rosea*, *Avena sativa*, *Beckmannia syzigachne*, *Bromus anomalus*, *B. tectorum*, *Chamaebatiaria millefolium*, *Cleome serrulata*, *Corydalis aurea*, *Cryptantha cinerea*, *C. fendleri*, *Descurainia pinnata*, *D. sophia*, *Echinochloa crus-gavonis*, *Elymus elymoides*, *E. trachycaulus*, *Erodium cicutarium*, *Helianthus annuus*, *Heliomeris longifolia*, *H. multiflora*, *Heterotheca villosa*, *Lappula occidentalis*, *Lepidium montanum*, *Marrubium vulgare*, *Medicago sativa*, *Monolepis nuttalliana*, *Muhlenbergia filiformis*, *M. mexicana*, *Oryzopsis hymenoides*, *Panicum capillare*, *P. obtusum*, *Phaseolus vulgaris*, *Poa fendleriana*, *Rorippa teres*, *Salsola australis*, *Sarcobatus vermiculatus*, *Stipa robusta*, *Tridens muticus*, *Triticum aestivum*, *Zea mays*

Forage: *Astragalus mollissimus*, *Bouteloua gracilis*, *B. simplex*, *Carex microptera*, *Hilaria jamesii*, *Panicum obtusum*

Fruit: *Amelanchier utahensis*, *Echinocereus coccineus*, *Juniperus deppeana*, *Lycium pallidum*, *L. torreyi*, *Opuntia macrorhiza*, *Parthenocissus vitacea*, *Physalis pubescens*, *Prunus persica*, *P. virginiana*, *Rhus trilobata*, *Ribes cereum*, *R. pinetorum*, *Rosa woodsii*, *Yucca glauca*

Pie & Pudding: *Solanum tuberosum*

Porridge: *Atriplex rosea*, *Eriogonum alatum*, *Oryzopsis hymenoides*, *Sporobolus cryptandrus*, *S. wrightii*

Preserves: *Pinus edulis*, *Yucca baccata*

Special Food: *Amaranthus retroflexus*, *Chenopodium album*, *C. incanum*, *Zea mays*

Spice: *Atriplex canescens*, *Capsicum annum*, *Cucurbita maxima*, *C. pepo*, *Portulaca oleracea*

Staple: *Amaranthus albus*, *A. cruentus*, *Mentzelia multiflora*, *Quercus gambelii*

Starvation Food: *Pinus edulis*, *Populus tremuloides*, *Senecio multicapitatus*

Unspecified: *Allium cepa*, *A. cernuum*, *A. drummondii*, *Calochortus aureus*, *C. gunnisonii*, *Ceanothus fendleri*, *Chenopodium leptophyllum*, *C. watsonii*, *Citrullus lanatus*, *Cleome serrulata*, *Cucumis melo*, *Cucurbita maxima*, *C. pepo*, *Cymopterus bulbosus*, *Eriogonum alatum*, *Fragaria vesca*, *Helianthus annuus*, *Juniperus monosperma*, *Mammillaria wrightii*, *Orobanche fasciculata*, *Phaseolus lunatus*, *Pinus ponderosa*, *Pseudocymopterus montanus*, *Quercus grisea*, *Q. ×pauciloba*, *Rhus trilobata*, *Triticum aestivum*, *Typha latifolia*, *Yucca glauca*

Vegetable: *Amaranthus retroflexus*, *Pisum sativum*, *Portulaca oleracea*, *Solanum jamesii*, *Zea mays*

Winter Use Food: *Amaranthus retroflexus*, *Chenopodium album*, *C. incanum*, *Citrullus lanatus*, *Cucurbita maxima*, *C. pepo*, *Cymopterus bulbosus*, *Juniperus deppeana*, *Opuntia macrorhiza*, *Phaseolus vulgaris*, *Pinus edulis*, *Prunus virginiana*, *Solanum jamesii*, *S. tuberosum*, *Zea mays*

### Fiber

Basketry: *Parryella filifolia*, *Pinus edulis*, *Rhus trilobata*, *Typha latifolia*, *Yucca baccata*

Brushes & Brooms: *Aristida purpurea*, *Artemisia tridentata*, *Muhlenbergia andina*, *M. mexicana*, *Phleum pratense*, *Yucca baccata*

Building Material: *Juniperus monosperma*, *Pinus edulis*, *P. ponderosa*, *Populus ×acuminata*, *Quercus gambelii*, *Salix lucida*

Clothing: *Juniperus monosperma*, *Purshia stansburiana*, *Rhus trilobata*

Cordage: *Asclepias subverticillata*, *Yucca baccata*, *Y. glauca*

Furniture: *Juniperus monosperma*, *Pinus ponderosa*, *Quercus gambelii*

Mats, Rugs & Bedding: *Chrysothamnus nauseosus*, *Purshia stansburiana*, *P. tridentata*, *Typha latifolia*

Scouring Material: *Festuca idahoensis*, *Koeleria macrantha*, *Sporobolus cryptandrus*

Snow Gear: *Pinus ponderosa*, *Yucca baccata*

Sporting Equipment: *Yucca baccata*

### Dye

Black: *Atriplex rosea*, *Pinus edulis*, *Quercus ×pauciloba*, *Rhus trilobata*, *Thalictrum fendleri*, *Yucca glauca*

Brown: *Cercocarpus montanus*

Orange-Yellow: *Thelesperma megapotamicum*

Red: *Atriplex canescens*, *Cercocarpus montanus*, *Yucca glauca*

Red-Brown: *Alnus incana*

Unspecified: *Juniperus monosperma*, *Quercus gambelii*, *Yucca baccata*

Yellow: *Atriplex canescens*, *Chrysothamnus nauseosus*, *Tetradymia canescens*

## Okanagan

### Drug

Analgesic: *Arabis drummondii*, *Artemisia dracunculoides*, *Asclepias speciosa*, *Ceanothus velutinus*, *Luetkea pectinata*, *Mentha canadensis*, *Valeriana sitchensis*

Antidiarrheal: *Artemisia campestris*

Antiemetic: *Rubus pubescens*

Antihemorrhagic: *Arctostaphylos uva-ursi*, *Rubus pubescens*

Antirheumatic (External): *Artemisia dracunculoides*, *Populus tremuloides*, *Pseudotsuga menziesii*, *Zigadenus venenosus*

Antirheumatic (Internal): *Actaea rubra*, *Populus tremuloides*, *Sambucus racemosa*

Blood Medicine: *Aralia nudicaulis*, *Oplopanax horridus*, *Veratrum viride*

Burn Dressing: *Equisetum laevigatum*

Cathartic: *Abies grandis*, *Heracleum maximum*

Cold Remedy: *Mentha canadensis*, *Pinus contorta*, *Valeriana sitchensis*

Cough Medicine: *Pinus contorta*

Dermatological Aid: *Achillea millefolium*, *Aralia nudicaulis*, *Caltha leptosepala*, *Chaenactis douglasii*, *Chimaphila umbellata*, *Crataegus douglasii*, *Linum lewisii*, *Luetkea pectinata*, *Mentha canadensis*, *Oplopanax horridus*, *Rhododendron albiflorum*, *Sambucus racemosa*, *Valeriana sitchensis*

Diaphoretic: *Artemisia dracunculoides*

Dietary Aid: *Actaea rubra*, *Aster foliaceus*

Eye Medicine: *Abies grandis*, *Achillea millefolium*, *Arctostaphylos uva-ursi*, *Juniperus communis*, *Penstemon fruticosus*, *Pinus ponderosa*

Gastrointestinal Aid: *Asarum caudatum*, *Aster foliaceus*, *Crataegus douglasii*, *Luetkea pectinata*, *Mentha canadensis*, *Oplopanax horridus*, *Populus tremuloides*, *Pulsatilla occidentalis*, *Rhododendron albiflorum*, *Rubus pubescens*

Gynecological Aid: *Artemisia campestris*, *A. dracunculoides*, *Chimaphila umbellata*, *Cornus sericea*, *Goodyera oblongifolia*, *Luetkea pectinata*

Hemorrhoid Remedy: *Sedum divergens*, *S. spathulifolium*

Hemostat: *Anemone multifida*

Kidney Aid: *Arabis drummondii*, *Arctostaphylos uva-ursi*, *Juniperus communis*, *Penstemon fruticosus*, *Pseudotsuga menziesii*

Laxative: *Sedum divergens*

Oral Aid: *Rhus glabra*

Orthopedic Aid: *Arabis drummondii*, *Artemisia dracunculoides*, *Penstemon fruticosus*, *Pinus contorta*

Pediatric Aid: *Linum lewisii*, *Mentha canadensis*, *Sedum divergens*, *S. spathulifolium*

Sedative: *Sedum spathulifolium*

Snakebite Remedy: *Achillea millefolium*, *Chaenactis douglasii*

Stimulant: *Potentilla glandulosa*

Throat Aid: *Pinus contorta*

Tonic: *Achillea millefolium*, *Aralia nudicaulis*, *Arctostaphylos uva-ursi*, *Clematis ligusticifolia*, *Heracleum maximum*, *Juniperus communis*, *Oplopanax horridus*, *Potentilla glandulosa*, *Rubus pubescens*, *Streptopus roseus*

Toothache Remedy: *Sambucus racemosa*

Urinary Aid: *Arabis drummondii*, *Arctostaphylos uva-ursi*, *Juniperus scopulorum*, *Pseudotsuga menziesii*

Reproductive Aid: *Panax quinquefolius*

Respiratory Aid: *Salix lucida*, *Verbascum thapsus*

Sedative: *Cypripedium acaule*

Throat Aid: *Berberis vulgaris*

Tonic: *Acer pensylvanicum*, *Aralia racemosa*, *Baptisia tinctoria*, *Eupatorium perfoliatum*, *Galium aparine*, *Prunus serotina*, *Pyrola asarifolia*, *Streptopus amplexifolius*

Unspecified: *Lycopodium dendroideum*, *Mitchella repens*

Venereal Aid: *Acer pensylvanicum*, *Aralia racemosa*, *Baptisia tinctoria*, *Eupatorium perfoliatum*, *Galium aparine*, *Pyrola asarifolia*, *Streptopus amplexifolius*

### Food

Beverage: *Taxus canadensis*

Candy: *Picea* sp.

## Pima

### Drug

Analgesic: *Ambrosia ambrosioides*, *Datura discolor*, *Encelia farinosa*, *Isocoma pluriflora*, *Krameria grayi*, *Larrea tridentata*, *Proboscidea althaeifolia*, *P. parviflora*, *Prosopis velutina*, *Ricinus communis*, *Ziziphus obtusifolia*

Anthelmintic: *Helianthus annuus*

Antidiarrheal: *Larrea tridentata*, *Plantago ovata*, *Pluchea sericea*, *Prosopis velutina*, *Sphaeralcea angustifolia*, *S. emoryi*, *Xanthium strumarium*

Antihemorrhagic: *Ambrosia ambrosioides*

Antirheumatic (External): *Atriplex polycarpa*, *Larrea tridentata*, *Proboscidea althaeifolia*, *P. parviflora*, *Ziziphus obtusifolia*

Antirheumatic (Internal): *Larrea tridentata*

Burn Dressing: *Prosopis velutina*

Carminative: *Larrea tridentata*

Cathartic: *Asclepias subulata*, *Phoradendron californicum*, *Prosopis velutina*, *Ricinus communis*, *Sonchus oleraceus*, *Yucca baccata*

Cold Remedy: *Anemopsis californica*, *Cyperus esculentus*, *Larrea tridentata*, *Rumex hymenosepalus*, *Sambucus cerulea*, *Solanum elaeagnifolium*

Cough Medicine: *Ambrosia ambrosioides*, *Anemopsis californica*, *Cyperus esculentus*, *Isocoma pluriflora*, *Krameria grayi*, *Rumex hymenosepalus*

Dermatological Aid: *Anemopsis californica*, *Atriplex lentiformis*, *Chamaesyce polycarpa*, *Cucurbita pepo*, *Datura discolor*, *Descurainia pinnata*, *Ephedra fasciculata*, *E. trifurca*, *Heliotropium curassavicum*, *Krameria erecta*, *K. grayi*, *Larrea tridentata*, *Malva parviflora*, *Orobancha ludoviciana*, *Phoradendron californicum*, *Pluchea sericea*, *Populus fremontii*, *Prosopis pubescens*, *P. velutina*, *Ricinus communis*, *Rumex hymenosepalus*, *Ziziphus obtusifolia*

Diaphoretic: *Anemopsis californica*, *Chamaesyce polycarpa*

Disinfectant: *Krameria grayi*, *Prosopis velutina*

Ear Medicine: *Datura discolor*, *Mammillaria grahamii*

Emetic: *Anemopsis californica*, *Asclepias subulata*, *Chamaesyce polycarpa*, *Larrea tridentata*, *Prosopis velutina*

Eye Medicine: *Asclepias subulata*, *Datura discolor*, *Krameria grayi*, *Pluchea sericea*, *Prosopis velutina*, *Sisymbrium irio*, *Xanthium strumarium*, *Ziziphus obtusifolia*

Febrifuge: *Helianthus annuus*, *Krameria grayi*, *Larrea tridentata*, *Salix goodingii*, *Sambucus cerulea*

Gastrointestinal Aid: *Anemopsis californica*, *Asclepias subulata*, *Chamaesyce polycarpa*, *Datura discolor*, *Larrea tridentata*, *Opuntia acanthocarpa*, *Phoradendron californicum*, *Pluchea sericea*, *Prosopis velutina*, *Sambucus cerulea*, *Sphaeralcea angustifolia*

Gynecological Aid: *Ambrosia ambrosioides*, *Carnegia gigantea*, *Datura discolor*, *Opuntia engelmannii*, *O. phaeacantha*, *Prosopis pubescens*

Hemorrhoid Remedy: *Datura discolor*

Hemostat: *Acourtia wrightii*

Laxative: *Chamaesyce polycarpa*, *Pectis papposa*, *Ricinus communis*, *Xanthium strumarium*

Misc. Disease Remedy: *Peniocereus greggii*

Oral Aid: *Larrea tridentata*, *Prosopis velutina*, *Rumex hymenosepalus*

Orthopedic Aid: *Carnegia gigantea*, *Isocoma pluriflora*

Other: *Anemopsis californica*, *Datura discolor*, *Ephedra trifurca*, *Prosopis velutina*, *Sonchus oleraceus*

Panacea: *Asclepias subulata*, *Larrea tridentata*

Pediatric Aid: *Krameria grayi*, *Pluchea sericea*, *Prosopis velutina*

Poison: *Asclepias subulata*, *Chamaesyce polycarpa*, *Cuscuta* sp., *Ricinus communis*

Sedative: *Pluchea sericea*

Snakebite Remedy: *Chamaesyce polycarpa*, *Cyperus esculentus*

Strengthening: *Larrea tridentata*

Throat Aid: *Anemopsis californica*, *Krameria grayi*, *Rumex hymenosepalus*, *Sambucus cerulea*

Toothache Remedy: *Larrea tridentata*

Tuberculosis Remedy: *Anemopsis californica*, *Larrea tridentata*

Unspecified: *Larrea tridentata*, *Rumex hymenosepalus*

Urinary Aid: *Larrea tridentata*

Venereal Aid: *Anemopsis californica*, *Ephedra antisiphilitica*, *E. fasciculata*, *E. trifurca*, *Thamnosma montana*

Veterinary Aid: *Cyperus esculentus*, *Helianthus annuus*, *Pluchea sericea*, *Xanthium strumarium*

### Food

 Antidiarrheal: *Acer circinatum*, *Achillea millefolium*, *Artemisia campestris*, *Balsamorhiza sagittata*, *Ceanothus velutinus*, *Chrysothamnus nauseosus*, *Cornus sericea*, *Crataegus douglasii*, *Fragaria vesca*, *F. virginiana*, *Picea sitchensis*, *Polygonum aviculare*, *Prunus virginiana*, *Ribes cereum*, *Rosa acicularis*, *R. nutkana*, *R. pisocarpa*, *R. woodsii*, *Solidago canadensis*, *Symphoricarpos albus*, *Valeriana dioica*, *V. sitchensis*  
 Antiemetic: *Acer glabrum*, *Cornus sericea*, *Rosa acicularis*, *R. nutkana*, *R. pisocarpa*, *R. woodsii*, *Rubus pubescens*  
 Antihemorrhagic: *Arctostaphylos uva-ursi*, *Athyrium filix-femina*, *Pteridium aquilinum*, *Rubus idaeus*, *R. pubescens*  
 Antirheumatic (External): *Achillea millefolium*, *Arnica cordifolia*, *Artemisia dracuncululus*, *A. ludoviciana*, *A. tridentata*, *Ceanothus velutinus*, *Eriogonum androsaceum*, *E. heracleoides*, *E. sp.*, *Geum* sp., *G. triflorum*, *Juniperus scopulorum*, *Mahonia aquifolium*, *M. nervosa*, *Mentha canadensis*, *Nuphar lutea*, *Oxytropis* sp., *Penstemon fruticosus*, *Philadelphus lewisii*, *Pinus contorta*, *P. ponderosa*, *Platanthera leucostachys*, *Populus tremuloides*, *Pseudotsuga menziesii*, *Pteridium aquilinum*, *Pulsatilla occidentalis*, *Ranunculus uncinatus*, *Urtica dioica*, *Veratrum viride*, *Zigadenus venenosus*  
 Antirheumatic (Internal): *Actaea rubra*, *Ceanothus velutinus*, *Juniperus communis*, *Mahonia aquifolium*, *M. nervosa*, *Maianthemum racemosum*, *M. stellatum*, *Populus tremuloides*, *Sambucus cerulea*, *S. racemosa*

Blood Medicine: *Aralia nudicaulis*, *Cornus nuttallii*, *Mahonia aquifolium*, *M. nervosa*, *Oplopanax horridus*, *Veratrum californicum*, *V. viride*  
 Breast Treatment: *Philadelphus lewisii*  
 Burn Dressing: *Equisetum laevigatum*, *E. sp.*, *Larix occidentalis*, *Lomatium dissectum*  
 Cancer Treatment: *Ceanothus velutinus*, *Gaillardia aristata*, *Larix occidentalis*, *Maianthemum racemosum*, *Picea engelmannii*, *Shepherdia canadensis*, *Trifolium pratense*  
 Cathartic: *Abies grandis*, *Frangula purshiana*, *Heracleum maximum*, *Juniperus communis*, *Penstemon confertus*, *Shepherdia canadensis*  
 Ceremonial Medicine: *Eriogonum heracleoides*, *Heracleum maximum*, *Populus balsamifera*, *Valeriana dioica*, *V. sitchensis*  
 Cold Remedy: *Abies amabilis*, *A. grandis*, *A. lasiocarpa*, *Achillea millefolium*, *Antennaria* sp., *Artemisia dracuncululus*, *A. ludoviciana*, *A. tridentata*, *Aruncus dioicus*, *Betula papyrifera*, *Chrysothamnus nauseosus*, *Cornus sericea*, *Juniperus communis*, *J. scopulorum*, *Lomatium dissectum*, *L. nudicaule*, *Maianthemum stellatum*, *Mentha arvensis*, *M. canadensis*, *Osmorhiza occidentalis*, *Pinus contorta*, *Polypodium glycyrrhiza*, *P. hesperium*, *Prunus virginiana*, *Pseudotsuga menziesii*, *Pteridium aquilinum*, *Ribes hudsonianum*, *Spiraea betulifolia*, *Tsuga heterophylla*, *T. mertensiana*, *Valeriana dioica*, *V. sitchensis*, *Verbascum thapsus*  
 Contraceptive: *Amelanchier alnifolia*, *Betula papyrifera*  
 Cough Medicine: *Abies lasiocarpa*, *Antennaria* sp., *Betula papyrifera*, *Larix occidentalis*, *Picea engelmannii*, *Pinus contorta*, *Prunus virginiana*, *Rosa woodsii*, *Rumex crispus*, *Verbascum thapsus*  
 Dermatological Aid: *Abies lasiocarpa*, *Achillea millefolium*, *Agoseris glauca*, *Alnus rubra*, *Aquilegia formosa*, *Arabis drummondii*, *Aralia nudicaulis*, *Arnica cordifolia*, *Artemisia dracuncululus*, *A. sp.*, *Aruncus dioicus*, *Asarum caudatum*, *Asclepias speciosa*, *Astragalus purshii*, *A. sp.*, *Caltha leptosepala*, *Chaenactis douglasii*, *Chimaphila umbellata*, *Clematis columbiana*, *C. ligusticifolia*, *Commandra umbellata*, *Cornus canadensis*, *Crataegus douglasii*, *Epilobium angustifolium*, *Equisetum arvense*, *Erigeron compositus*, *E. filifolius*, *E. sp.*, *Eriogonum androsaceum*, *E. heracleoides*, *E. sp.*, *Fragaria virginiana*, *Helianthus annuus*, *H. petiolaris*, *Heuchera cylindrica*, *H. micrantha*, *Hierochloa odorata*, *Juniperus scopulorum*, *Larix occidentalis*, *Leptarrhena pyrolifolia*, *Linum lewisii*, *Lomatium dissectum*, *Lonicera involucrata*, *Luetkea pectinata*, *Lysichiton americanus*, *Mentha canadensis*, *Monotropa uniflora*, *Nicotiana attenuata*, *N. tabacum*, *Nuphar lutea*, *Oplopanax horridus*, *Oxytropis monticola*, *O. sp.*, *Paxistima myrsinites*, *Penstemon confertus*, *Philadelphus lewisii*, *Picea engelmannii*, *Pinus contorta*, *P. ponderosa*, *Plantago major*, *Polemonium elegans*, *P. pulcherrimum*, *Populus balsamifera*, *P. tremuloides*, *Potentilla gracilis*, *Pseudotsuga menziesii*, *Pteridium aquilinum*, *Ranunculus glaberrimus*, *Rhododendron albiflorum*, *Rosa acicularis*, *R. nutkana*, *R. pisocarpa*, *R. woodsii*, *Rubus parviflorus*, *Salix cordata*, *S. sp.*, *Sambucus racemosa*, *Shepherdia canadensis*, *Symphoricarpos albus*, *Thalictrum occidentale*, *Urtica dioica*, *Valeriana dioica*, *V. sitchensis*, *Verbascum thapsus*  
 Diaphoretic: *Artemisia dracuncululus*, *Lomatium nudicaule*, *Oxytropis* sp.  
 Dietary Aid: *Actaea rubra*, *Arctostaphylos uva-ursi*, *Asclepias speciosa*, *Aster foliaceus*, *Balsamorhiza sagittata*, *Ceanothus velutinus*, *Larix occidentalis*, *Lonicera involucrata*, *Oplopanax horridus*, *Pteridium aquilinum*, *Solidago simplex*, *Streptopus amplexifolius*  
 Disinfectant: *Artemisia ludoviciana*, *Astragalus purshii*, *Eriogonum heracleoides*, *Geum triflorum*, *Heracleum maximum*, *Juniperus scopulorum*, *Oxytropis campestris*, *Pinus contorta*, *Platanthera leucostachys*, *Populus tremuloides*, *Pseudotsuga menziesii*, *Ranunculus uncinatus*, *Shepherdia canadensis*, *Tsuga heterophylla*, *T. mertensiana*, *Urtica* sp.  
 Diuretic: *Arabis drummondii*, *Arctostaphylos uva-ursi*, *Juniperus scopulorum*, *Pseudotsuga menziesii*  
 Ear Medicine: *Pinus ponderosa*, *Sorbus sitchensis*  
 Eye Medicine: *Abies grandis*, *Achillea millefolium*, *Arctostaphylos uva-ursi*,

## [Eye Medicine]

*Calochortus macrocarpus*, *Campanula rotundifolia*, *Claytonia perfoliata*, *Comandra umbellata*, *Cryptogramma sitchensis*, *Equisetum hyemale*, *E. laevigatum*, *E. sp.*, *Eriogonum heracleoides*, *Juniperus communis*, *Mahonia aquifolium*, *M. nervosa*, *Penstemon fruticosus*, *P. sp.*, *Picea sitchensis*, *Pinus ponderosa*, *Pulsatilla occidentalis*, *Ribes lacustre*, *Rosa gymnocarpa*, *Symphoricarpos albus*, *Trillium ovatum*

Febrifuge: *Lomatium nudicaule*

Gastrointestinal Aid: *Abies sp.*, *Achillea millefolium*, *Amelanchier alnifolia*, *Artemisia ludoviciana*, *Aruncus dioicus*, *Asarum caudatum*, *Aster foliaceus*, *Chaenactis douglasii*, *Chrysothamnus nauseosus*, *Cornus nuttallii*, *Crataegus douglasii*, *Erigeron sp.*, *Eriogonum androsaceum*, *E. heracleoides*, *E. sp.*, *Frangula purshiana*, *Juniperus communis*, *J. scopulorum*, *Larix occidentalis*, *Luetkea pectinata*, *Maianthemum racemosum*, *Mentha canadensis*, *Nuphar lutea*, *Oplopanax horridus*, *Penstemon confertus*, *P. fruticosus*, *Populus tremuloides*, *Pulsatilla occidentalis*, *Rhododendron albiflorum*, *Rhus glabra*, *Ribes hudsonianum*, *R. lacustre*, *R. oxyacanthoides*, *Rubus idaeus*, *R. pubescens*, *Shepherdia canadensis*, *Spiraea betulifolia*, *Streptopus amplexifolius*, *Symphoricarpos albus*, *Valeriana dioica*, *V. sitchensis*

Gland Medicine: *Erigeron sp.*

Gynecological Aid: *Acer glabrum*, *Amelanchier alnifolia*, *Artemisia campestris*, *A. dracuncululus*, *Calamagrostis rubescens*, *Chimaphila umbellata*, *Cornus sericea*, *Equisetum hyemale*, *E. laevigatum*, *E. sp.*, *Erigeron sp.*, *Geranium viscosissimum*, *Goodyera oblongifolia*, *Juniperus scopulorum*, *Larix occidentalis*, *Luetkea pectinata*, *Maianthemum racemosum*, *Phacelia hastata*, *Populus balsamifera*, *Prunus virginiana*, *Pyrola sp.*, *Ribes lacustre*, *Rosa acicularis*, *R. nutkana*, *R. pisocarpa*, *R. woodsii*, *Symphoricarpos albus*, *Thuja plicata*

Heart Medicine: *Juniperus communis*, *J. scopulorum*, *Maianthemum racemosum*, *Shepherdia canadensis*

Hemorrhoid Remedy: *Philadelphus lewisii*, *Plantago major*, *Sedum divergens*, *S. sp.*, *S. spathulifolium*, *Urtica dioica*

Hemostat: *Anemone multifida*, *Scirpus acutus*

Herbal Steam: *Eriogonum androsaceum*, *E. heracleoides*, *E. sp.*, *Geum sp.*, *G. triflorum*, *Mentha canadensis*, *Oxytropis sp.*, *Platanthera leucostachys*, *Ranunculus uncinatus*

Hunting Medicine: *Astragalus purshii*, *Platanthera leucostachys*, *Polystichum munitum*, *Rosa gymnocarpa*, *Valeriana dioica*, *V. sitchensis*

Hypotensive: *Juniperus communis*, *Shepherdia canadensis*

Internal Medicine: *Paxistima myrsinites*, *Rhus glabra*

Kidney Aid: *Arabis drummondii*, *Arctostaphylos uva-ursi*, *Juniperus communis*, *J. scopulorum*, *Penstemon fruticosus*, *P. sp.*, *Pseudotsuga menziesii*, *Sorbus sitchensis*

Laxative: *Frangula purshiana*, *Mahonia aquifolium*, *M. nervosa*, *Oplopanax horridus*, *Prunus virginiana*, *Sedum divergens*, *S. spathulifolium*, *Shepherdia canadensis*, *Symphoricarpos albus*

Liver Aid: *Cryptogramma sitchensis*, *Frangula purshiana*, *Heuchera cylindrica*, *H. micrantha*, *Sambucus racemosa*, *Shepherdia canadensis*

Love Medicine: *Aquilegia formosa*, *Delphinium menziesii*, *Dodecatheon jeffreyi*, *Geranium viscosissimum*, *Geum sp.*, *Platanthera leucostachys*, *Sagittaria latifolia*

Misc. Disease Remedy: *Acer circinatum*, *Achillea millefolium*, *Anaphalis margaritacea*, *Artemisia ludoviciana*, *Aruncus dioicus*, *Gaillardia aristata*, *Geum sp.*, *Juniperus scopulorum*, *Mentha arvensis*, *Oplopanax horridus*, *Pinus contorta*, *Prunus virginiana*, *Rubus leucodermis*, *Solidago spathulata*, *Thuja plicata*, *Tsuga heterophylla*, *T. mertensiana*, *Valeriana dioica*, *V. sitchensis*, *Veratrum viride*

Oral Aid: *Arctostaphylos uva-ursi*, *Heuchera cylindrica*, *H. micrantha*, *Hieracium sp.*, *Polypodium glycyrrhiza*, *P. hesperium*, *Pseudotsuga menziesii*, *Rhus glabra*, *Sedum spathulifolium*

Orthopedic Aid: *Abies lasiocarpa*, *Achillea millefolium*, *Arabis drummondii*,

*Arctostaphylos uva-ursi*, *Artemisia dracuncululus*, *A. ludoviciana*, *Aruncus dioicus*, *Ceanothus velutinus*, *Chimaphila umbellata*, *Cicuta douglasii*, *Erigeron compositus*, *Eriogonum androsaceum*, *E. heracleoides*, *E. sp.*, *Geum sp.*, *G. triflorum*, *Larix occidentalis*, *Lomatium dissectum*, *Lonicera involucrata*, *Oxytropis sp.*, *Paxistima myrsinites*, *Penstemon fruticosus*, *P. sp.*, *Pinus contorta*, *Platanthera leucostachys*, *Populus balsamifera*, *Prunus emarginata*, *Pseudotsuga menziesii*, *Pteridium aquilinum*, *Ranunculus uncinatus*, *Salix sp.*, *Solidago canadensis*, *Urtica dioica*, *Veratrum viride*, *Zigadenus venenosus*

Other: *Chrysothamnus nauseosus*, *Clematis ligusticifolia*, *Eriogonum androsaceum*, *E. heracleoides*, *E. sp.*, *Juniperus scopulorum*, *Ribes lacustre*

Panacea: *Abies amabilis*, *A. grandis*, *A. lasiocarpa*, *Achillea millefolium*, *Artemisia tridentata*, *Ceanothus velutinus*, *Chrysothamnus nauseosus*, *Cicuta douglasii*, *Cornus sericea*, *Crataegus douglasii*, *Larix occidentalis*, *Oplopanax horridus*, *Picea sitchensis*, *Pinus monticola*, *Ribes hudsonianum*, *Taxus brevifolia*

Pediatric Aid: *Abies grandis*, *Achillea millefolium*, *Artemisia dracuncululus*, *Asarum caudatum*, *Clematis ligusticifolia*, *Cornus sericea*, *Fragaria vesca*, *F. virginiana*, *Larix occidentalis*, *Linum lewisii*, *Lomatium macrocarpum*, *Mentha canadensis*, *Pinus contorta*, *P. ponderosa*, *Polygonum aviculare*, *Populus tremuloides*, *Ribes cereum*, *R. hudsonianum*, *Rosa woodsii*, *Rubus parviflorus*, *Scirpus acutus*, *Sedum divergens*, *S. spathulifolium*, *Solidago canadensis*, *Symphoricarpos albus*, *Veratrum viride*

Poison: *Actaea rubra*, *Anemone multifida*, *Artemisia dracuncululus*, *Asclepias speciosa*, *Cicuta douglasii*, *Cornus sericea*, *Lonicera involucrata*, *Lupinus polyphyllus*, *L. sericeus*, *L. sp.*, *Ranunculus glaberrimus*, *R. repens*, *R. sceleratus*, *R. sp.*, *R. uncinatus*, *Rhus glabra*, *Rosa gymnocarpa*, *Symphoricarpos albus*, *Toxicodendron radicans*, *Veratrum californicum*, *Zigadenus elegans*

Psychological Aid: *Cornus nuttallii*, *Lewisia pygmaea*, *Lysichiton americanus*, *Mahonia nervosa*, *Picea engelmannii*, *Populus tremuloides*, *Thuja plicata*

Pulmonary Aid: *Actaea rubra*, *Cornus nuttallii*, *Eriogonum heracleoides*, *Philadelphus lewisii*, *Pinus contorta*

Reproductive Aid: *Lomatium macrocarpum*, *Lonicera ciliosa*

Respiratory Aid: *Larix occidentalis*, *Veratrum californicum*

Sedative: *Asarum caudatum*, *Balsamorhiza sagittata*, *Lomatium macrocarpum*, *Lonicera ciliosa*, *Pinus ponderosa*, *Ribes hudsonianum*, *Sedum spathulifolium*, *Shepherdia canadensis*, *Solidago canadensis*

Snakebite Remedy: *Acer glabrum*, *Achillea millefolium*, *Chaenactis douglasii*, *Chamaesyce glyptosperma*

Stimulant: *Aralia nudicaulis*, *Artemisia tridentata*, *Chaenactis douglasii*, *Potentilla glandulosa*

Strengtheners: *Aquilegia formosa*, *A. sp.*, *Cornus sericea*, *Larix occidentalis*, *Ribes cereum*

Throat Aid: *Artemisia tridentata*, *Corylus cornuta*, *Erigeron sp.*, *Heuchera cylindrica*, *H. micrantha*, *Lonicera involucrata*, *Maianthemum racemosum*, *Pinus contorta*, *Polypodium glycyrrhiza*, *P. hesperium*, *Ribes hudsonianum*, *Rosa woodsii*, *Veratrum viride*

Tonic: *Abies sp.*, *Acer macrophyllum*, *Achillea millefolium*, *Amelanchier alnifolia*, *Aralia nudicaulis*, *Arctostaphylos uva-ursi*, *Asarum caudatum*, *Asclepias speciosa*, *Chaenactis douglasii*, *Chimaphila umbellata*, *Clematis ligusticifolia*, *Geum triflorum*, *Heracleum maximum*, *Juniperus communis*, *Lonicera ciliosa*, *Mahonia aquifolium*, *Oplopanax horridus*, *Potentilla glandulosa*, *Prunella vulgaris*, *Prunus virginiana*, *Pseudotsuga menziesii*, *Ribes lacustre*, *R. oxyacanthoides*, *Rosa gymnocarpa*, *Rubus idaeus*, *R. pubescens*, *Shepherdia canadensis*, *Solidago simplex*, *Spiraea x pyramidata*, *Streptopus roseus*

Toothache Remedy: *Achillea millefolium*, *Alnus rubra*, *A. viridis*, *Arabis holboellii*, *Clematis ligusticifolia*, *Salix sp.*, *Sambucus canadensis*, *S. cerulea*, *S. racemosa*

Tuberculosis Remedy: *Abies amabilis*, *A. grandis*, *A. lasiocarpa*, *Arnica cordifolia*, *Artemisia tridentata*, *Cassiope mertensiana*, *C. sp.*, *Chrysothamnus nauseosus*, *Eriogonum heracleoides*, *Gaillardia aristata*, *Juniperus communis*,

*J. scopulorum*, *Larix occidentalis*, *Paxistima myrsinites*, *Phyllodoce empetri-formis*, *P. sp.*, *Ranunculus sp.*, *Ribes hudsonianum*, *Shepherdia canadensis*, *Valeriana dioica*, *V. sitchensis*

Unspecified: *Abies amabilis*, *A. grandis*, *A. lasiocarpa*, *Achillea millefolium*, *Anemone sp.*, *Apocynum cannabinum*, *Arnica latifolia*, *Artemisia campestris*, *A. frigida*, *A. sp.*, *Asarum caudatum*, *Calyso bulbosa*, *Castilleja miniata*, *C. sp.*, *Ceanothus velutinus*, *Chaenactis douglasii*, *Dicentra formosa*, *Epilobium sp.*, *Erigeron filifolius*, *Eriogonum heracleoides*, *Geranium richardsonii*, *G. viscosissimum*, *Geum sp.*, *Hackelia hispida*, *Heracleum maximum*, *Heuchera cylindrica*, *H. micrantha*, *Hieracium sp.*, *Kalmia polifolia*, *Ligusticum canbyi*, *Linnaea borealis*, *Lupinus polyphyllus*, *L. rivularis*, *Mentha canadensis*, *Mentzelia laevicaulis*, *Pedicularis bracteosa*, *P. racemosa*, *Phacelia linearis*, *Picea sitchensis*, *Pinus monticola*, *Populus balsamifera*, *Prunus emarginata*, *P. virginiana*, *Pulsatilla occidentalis*, *Salix interior*, *Stenanthium occidentale*, *Stephanomeria tenuifolia*, *Streptopus roseus*, *Triteleia grandiflora*, *Urtica dioica*

Urinary Aid: *Achillea millefolium*, *Arabis drummondii*, *Arctostaphylos uva-ursi*, *Chrysothamnus nauseosus*, *Clematis ligusticifolia*, *Equisetum arvense*, *E. hymale*, *E. laevigatum*, *E. sp.*, *E. telmateia*, *Juniperus scopulorum*, *Lonicera involucrata*, *Pseudotsuga menziesii*

Veneral Aid: *Abies grandis*, *Achillea millefolium*, *Actaea rubra*, *Apocynum cannabinum*, *Arabis drummondii*, *Artemisia frigida*, *Aster foliaceus*, *Ceanothus velutinus*, *Chrysothamnus nauseosus*, *Elaeagnus commutata*, *Eriogonum androsaceum*, *E. heracleoides*, *E. sp.*, *Heracleum maximum*, *Mahonia aquifolium*, *M. nervosa*, *Populus tremuloides*, *Rhus glabra*, *Rosa acicularis*, *R. nutkana*, *R. pisocarpa*, *R. woodsii*, *Sambucus cerulea*, *Solidago simplex*, *Spiraea betulifolia*, *Veratrum californicum*

Veterinary Aid: *Achlys triphylla*, *Aquilegia formosa*, *A. sp.*, *Artemisia dracuncululus*, *Cicuta douglasii*, *Juniperus scopulorum*, *Leymus cinereus*, *Lomatium dissectum*, *Lupinus polyphyllus*, *L. sericeus*, *L. sp.*, *Penstemon fruticosus*, *Pinus ponderosa*, *Solidago canadensis*, *Valeriana dioica*, *V. sitchensis*, *Viola sp.*, *Zigadenus elegans*

Witchcraft Medicine: *Abies grandis*, *Geranium viscosissimum*, *Lithospermum ruderales*

## Food

Beverage: *Abies grandis*, *Amelanchier alnifolia*, *Arctostaphylos uva-ursi*, *Chimaphila umbellata*, *Geum triflorum*, *Juniperus communis*, *Ledum groenlandicum*, *Lomatium nudicaule*, *Penstemon confertus*, *Pinus contorta*, *Prunella vulgaris*, *Prunus virginiana*, *Ribes divaricatum*, *R. inerme*, *R. oxyacanthoides*, *Rosa acicularis*, *R. gymnocarpa*, *R. nutkana*, *R. pisocarpa*, *R. woodsii*, *Shepherdia canadensis*, *Spiraea betulifolia*, *S. xpyramidata*

Bread & Cake: *Amelanchier alnifolia*, *Balsamorhiza sagittata*, *Claytonia lanceolata*, *Gaultheria shallon*, *Lewisia rediviva*, *Oemleria cerasiformis*, *Rubus idaeus*, *Shepherdia canadensis*, *Vaccinium ovalifolium*, *V. parvifolium*

Candy: *Agoseris glauca*, *Erythronium grandiflorum*, *Larix occidentalis*, *Lonicera ciliosa*, *Pinus contorta*, *Polypodium glycyrrhiza*, *P. hesperium*, *Shepherdia canadensis*, *Tragopogon sp.*

Dessert: *Balsamorhiza sagittata*, *Cornus sericea*, *Lycopus uniflorus*, *Opuntia fragilis*, *O. polyacantha*, *Prunus emarginata*

Dried Food: *Agaricus sp.*, *Allium cernuum*, *Amelanchier alnifolia*, *Balsamorhiza sagittata*, *Cirsium edule*, *C. hookerianum*, *C. undulatum*, *C. vulgare*, *Cornus sericea*, *Crataegus douglasii*, *Erythronium grandiflorum*, *Fragaria vesca*, *F. virginiana*, *Fritillaria lanceolata*, *Heracleum maximum*, *Lewisia rediviva*, *Lilium columbianum*, *Lomatium dissectum*, *L. macrocarpum*, *L. nudicaule*, *Mahonia aquifolium*, *Nuphar lutea*, *Pinus albicaulis*, *P. contorta*, *Prunus virginiana*, *Ribes lacustre*, *R. sanguineum*, *Rubus idaeus*, *R. leucodermis*, *R. spectabilis*, *R. ursinus*, *Sagittaria latifolia*, *Sambucus cerulea*, *Sium suave*, *Sorbus sitchensis*, *Vaccinium cespitosum*, *V. deliciosum*, *V. membranaceum*, *V. ovalifolium*, *V. scoparium*, *Viburnum edule*

Fodder: *Astragalus giganteus*, *A. miser*, *Carex atherodes*, *C. obnupta*, *C. rostrata*,

*Castilleja miniata*, *Elymus trachycaulus*, *Epilobium angustifolium*, *Lupinus sp.*, *Trifolium pratense*, *Vicia americana*

Forage: *Aquilegia formosa*, *Arctostaphylos uva-ursi*, *Astragalus purshii*, *Bromus sp.*, *Carex atherodes*, *C. obnupta*, *C. rostrata*, *C. sp.*, *Ceanothus velutinus*, *Hackelia diffusa*, *Heracleum maximum*, *Hydrophyllum fendleri*, *H. occidentale*, *Lathyrus nevadensis*, *Lonicera ciliosa*, *L. involucrata*, *Maianthemum racemosum*, *Oxytropis campestris*, *Paxistima myrsinites*, *Penstemon fruticosus*, *Phragmites australis*, *Populus balsamifera*, *P. tremuloides*, *Ribes hudsonianum*, *Rosa acicularis*, *R. woodsii*, *Salix sp.*, *Shepherdia canadensis*, *Sium suave*, *Spiraea douglasii*, *Valeriana dioica*, *V. sitchensis*, *Vicia sp.*

Frozen Food: *Amelanchier alnifolia*, *Heracleum maximum*, *Lomatium nudicaule*, *Ribes lacustre*, *Rubus idaeus*, *Vaccinium membranaceum*

Fruit: *Amelanchier alnifolia*, *Arctostaphylos uva-ursi*, *Citrus limon*, *C. medica*, *C. sinensis*, *Cornus sericea*, *Crataegus columbiana*, *C. douglasii*, *Cucumis melo*, *Disporum hookeri*, *Fragaria vesca*, *F. virginiana*, *Gaultheria shallon*, *Lomatium nudicaule*, *Lonicera involucrata*, *Mahonia aquifolium*, *Maianthemum racemosum*, *M. stellatum*, *Malus fusca*, *Oemleria cerasiformis*, *Prunus emarginata*, *P. virginiana*, *Ribes cereum*, *R. divaricatum*, *R. hudsonianum*, *R. inerme*, *R. oxyacanthoides*, *R. sanguineum*, *Rosa gymnocarpa*, *Rubus idaeus*, *R. leucodermis*, *R. parviflorus*, *R. pedatus*, *R. spectabilis*, *R. ursinus*, *Sambucus cerulea*, *S. racemosa*, *Shepherdia argentea*, *S. canadensis*, *Sorbus sitchensis*, *Streptopus amplexifolius*, *Vaccinium membranaceum*, *V. myrtillus*, *V. ovalifolium*, *V. ovatum*, *V. oxycoccus*, *V. parvifolium*, *V. sp.*, *Viburnum edule*, *V. opulus*

Pie & Pudding: *Amelanchier alnifolia*, *Erythronium grandiflorum*, *Gaultheria shallon*, *Lewisia rediviva*, *Lomatium macrocarpum*, *Ribes divaricatum*, *R. inerme*, *R. oxyacanthoides*, *Vaccinium cespitosum*, *V. deliciosum*, *V. myrtilloides*, *V. scoparium*

Porridge: *Pinus albicaulis*, *P. ponderosa*

Preservative: *Rhododendron albiflorum*

Preserves: *Amelanchier alnifolia*, *A. sp.*, *Crataegus douglasii*, *Gaultheria shallon*, *Mahonia aquifolium*, *M. nervosa*, *Prunus sp.*, *Ribes lacustre*, *Rosa acicularis*, *R. woodsii*, *Rubus idaeus*, *Sambucus cerulea*, *Shepherdia canadensis*, *S. sp.*, *Vaccinium cespitosum*, *V. deliciosum*, *V. membranaceum*, *V. parvifolium*, *V. scoparium*, *V. sp.*, *Viburnum edule*

Sauce & Relish: *Acer macrophyllum*, *Prunus virginiana*, *Rosa acicularis*, *R. woodsii*, *Viburnum edule*

Snack Food: *Corylus cornuta*

Soup: *Arctostaphylos uva-ursi*, *Cirsium edule*, *Erythronium grandiflorum*, *Lilium columbianum*, *Sambucus racemosa*, *Sorbus sitchensis*, *Viburnum edule*

Special Food: *Allium cernuum*, *Lewisia rediviva*

Spice: *Amelanchier alnifolia*, *Fragaria vesca*, *Fritillaria lanceolata*, *Lilium columbianum*, *Lomatium macrocarpum*, *L. nudicaule*, *Maianthemum racemosum*, *Penstemon fruticosus*, *Ribes sanguineum*, *Sambucus cerulea*, *S. racemosa*, *Sorbus sitchensis*

Staple: *Balsamorhiza sagittata*, *Pteridium aquilinum*

Starvation Food: *Balsamorhiza sagittata*, *Opuntia fragilis*, *O. polyacantha*

Sweetener: *Amelanchier alnifolia*, *Pseudotsuga menziesii*, *Rubus parviflorus*

Unspecified: *Abies lasiocarpa*, *A. sp.*, *Acer macrophyllum*, *Alectoria jubata*, *Allium acuminatum*, *A. cernuum*, *Amelanchier alnifolia*, *Argentina anserina*, *Astragalus miser*, *Balsamorhiza sagittata*, *Calochortus macrocarpus*, *Camassia quamash*, *C. scilloides*, *Carex rostrata*, *Cirsium edule*, *C. hookerianum*, *C. undulatum*, *C. vulgare*, *Claytonia lanceolata*, *Cornus sericea*, *Corylus cornuta*, *Crataegus columbiana*, *C. douglasii*, *Cucumis sp.*, *Dryopteris arguta*, *D. expansa*, *D. sp.*, *Epilobium angustifolium*, *Erythronium grandiflorum*, *Fritillaria lanceolata*, *F. pudica*, *Helianthus sp.*, *Heracleum maximum*, *Hieracium sp.*, *Hydrophyllum fendleri*, *H. occidentale*, *Larix occidentalis*, *Lewisia columbiana*, *L. pygmaea*, *L. rediviva*, *Lilium columbianum*, *Lithospermum incisum*, *Lomatium dissectum*, *L. macrocarpum*, *L. nudicaule*, *Lycopus uniflorus*, *Maianthemum racemosum*, *Mentha arvensis*, *Opuntia fragilis*, *O. polyacantha*, *Osmorhiza berteroi*, *Peucedanum sp.*, *Picea engelmannii*, *Pinus albicaulis*,

Sweetener: *Chamaesyce serpyllifolia*, *Yucca baccata*

Unspecified: *Artemisia carruthii*, *Asclepias subverticillata*, *Astragalus lentiginosus*, *Chenopodium leptophyllum*, *Cleome serrulata*, *Cucurbita pepo*, *Oenothera triloba*, *Oryzopsis hymenoides*, *Populus angustifolia*, *P. deltoides*, *Ribes cereum*, *Solanum fendleri*, *Yucca glauca*

Vegetable: *Chenopodium album*, *C. leptophyllum*, *Coriandrum sativum*, *Phaseolus vulgaris*

Winter Use Food: *Pinus edulis*

**Fiber**

Basketry: *Chrysothamnus nauseosus*, *Parryella filifolia*, *Rhus trilobata*, *Salix irrorata*, *Yucca baccata*

Brushes & Brooms: *Bouteloua gracilis*, *Yucca glauca*

Building Material: *Salix irrorata*, *Sporobolus contractus*

Clothing: *Asclepias subverticillata*, *Gossypium hirsutum*, *Yucca baccata*

Cordage: *Asclepias subverticillata*, *Gossypium hirsutum*, *Yucca baccata*, *Y. glauca*

Mats, Rugs & Bedding: *Sporobolus contractus*, *Yucca baccata*, *Y. glauca*

**Dye**

Black: *Castilleja integra*

Red: *Coreopsis tinctoria*

Red-Brown: *Alnus incana*

Yellow: *Chrysothamnus nauseosus*, *Psilostrophe tagetina*

**Other**

Ceremonial Items: *Amaranthus cruentus*, *Asclepias subverticillata*, *Atriplex canescens*, *Cleome serrulata*, *Cucurbita pepo*, *Datura wrightii*, *Eriogonum jamesii*, *Erysimum* sp., *Gossypium hirsutum*, *Helianthus annuus*, *Mahonia fremontii*, *Muhlenbergia rigens*, *Nicotiana attenuata*, *Oenothera albicaulis*, *Opuntia imbricata*, *Pectis papposa*, *Penstemon barbatus*, *Polanisia dodecandra*, *Psilostrophe tagetina*, *Yucca baccata*, *Zea mays*

Containers: *Cucurbita pepo*

Cooking Tools: *Bouteloua gracilis*, *Cucurbita pepo*, *Salix irrorata*

Decorations: *Artemisia frigida*, *Cleome serrulata*, *Zea mays*

Fertilizer: *Artemisia frigida*, *Thelypodium wrightii*

Fuel: *Juniperus monosperma*

Incense & Fragrance: *Pectis papposa*

Paint: *Amaranthus cruentus*, *Cleome serrulata*, *Mahonia fremontii*, *Psilostrophe tagetina*

Protection: *Cycloloma atriplicifolium*, *Lycium pallidum*

Smoke Plant: *Nicotiana attenuata*

Soap: *Yucca baccata*, *Y. glauca*

Tools: *Juniperus monosperma*, *Yucca baccata*

Toys & Games: *Zea mays*

Weapon: *Lithospermum incisum*

# Index of Usages

Plants are listed under the categories of usage, which are arranged first by the five main categories—Drug, Food, Fiber, Dye, Other—and then alphabetically by the particular usage. Plants are identified below to the level of genus. For all usages given below, check all entries under that genus in the Catalog of Plants. For example, one may find Drug, Cold Remedy, below and see that *Rhus* was used by the Cahuilla, Cheyenne, Chippewa, Comanche, and Iroquois. The specific ethnobotanical information and the sources from which the information was obtained may be found by turning to *Rhus* in the Catalog of Plants and examining Drug, Cold Remedy, under the entries for that genus.

## Drug

### Abortifacient

*Abies*: Cree, Woodlands

*Achillea*: Sanpoil

*Acorus*: Delaware; Delaware, Oklahoma; Menominee; Mohegan; Sioux, Fort Peck

*Aletris*: Micmac

*Aleurites*: Hawaiian

*Alnus*: Cree, Woodlands; Kutenai

*Ambrosia*: Zuni

*Anemone*: Blackfoot

*Angelica*: Cherokee

*Apocynum*: Cherokee

*Aralia*: Chippewa; Iroquois

*Arctostaphylos*: Cree, Woodlands

*Aristolochia*: Cherokee

*Armoracia*: Cherokee

*Artemisia*: Blackfoot; Chippewa; Dakota; Kawaiisu; Menominee; Omaha; Pawnee; Ponca; Sioux

*Asarum*: Cherokee

*Asplenium*: Cherokee

*Aster*: Cree, Woodlands

*Betula*: Blackfoot

*Carex*: Songish

*Carya*: Cherokee

*Castilleja*: Quileute

*Ceanothus*: Iroquois

*Celastrus*: Iroquois

*Celtis*: Iroquois

*Chamaemelum*: Cherokee

*Chenopodium*: Mahuna

*Cimicifuga*: Cherokee

*Cocos*: Hawaiian

*Croton*: Luiseño

*Draba*: Blackfoot

*Echinocystis*: Cherokee

*Equisetum*: Costanoan; Cree; Quinault

*Erigeron*: Cherokee

*Euonymus*: Iroquois

*Eupatorium*: Chippewa

*Fagus*: Iroquois

*Fragaria*: Iroquois; Malecite; Micmac

*Fraxinus*: Abnaki

*Galium*: Choctaw

*Garrya*: Pomo, Kashaya

*Grindelia*: Cree

*Hedeoma*: Cherokee

*Hepatica*: Chippewa

*Heteromeles*: Costanoan (Olhonean)

*Hydrangea*: Cherokee

*Hypericum*: Cherokee; Iroquois

*Hysopus*: Cherokee

*Iva*: Mahuna

*Juniperus*: Cherokee

*Quercus*: Navajo; Tewa  
*Rhus*: Navajo, Ramah  
*Ribes*: Havasupai  
*Sapindus*: Papago  
*Sarcobatus*: Navajo  
*Taxus*: Haisla & Hanaksiala; Hesquiat; Salish, Coast; Swinomish  
*Tsuga*: Haisla & Hanaksiala  
*Typha*: Ojibwa

# Index of Synonyms

Synonymous plant names used in the original sources are listed alphabetically and are cross-referenced to the names used in the Catalog of Plants. Names for species, subspecies, and varieties are all in lowercase, although some were capitalized in the original sources. Variations in names appearing in some sources are indicated in parentheses.

- Abies canadensis*, see *Picea glauca*  
*Abies nigra*, see *Picea mariana*  
*Abies nobilis*, see *A. procera*  
*Acanthochiton wrightii*, see *Amaranthus acanthochiton*  
*Acer neomexicana*, see *A. glabrum* var. *neomexicanum*  
*Acer pennsylvanicum*, see *A. pensylvanicum*  
*Acer rubra*, see *A. rubrum*  
*Acer saccharinum* var. *nigrum*, see *A. nigrum*  
*Acer saccharophorum*, see *A. saccharum*  
*Acerates auriculata*, see *Asclepias auriculata*  
*Achillaea*, see *Achillea*  
*Achillea borealis*, see *A. millefolium* var. *borealis*  
*Achillea borealis* ssp. *arenicola*, see *A. millefolium* var. *arenicola*  
*Achillea lanulosa*, see *A. millefolium* var. *occidentalis*  
*Achillea millifolium*, see *A. millefolium*  
*Achilles*, see *Achillea*  
*Achyls triphylla*, see *Achlys triphylla*  
*Aciphyllaea acerosa*, see *Thymophylla acerosa*  
*Aciphyllaea acerosa*, see *Thymophylla acerosa*  
*Aconitum delphinifolium*, see *A. delphinifolium*  
*Acrostichum danaeaeifolium*, see *A. danaeaeifolium*  
*Actaea alba*, see *A. pachypoda*  
*Actaea arguta*, see *A. rubra* ssp. *arguta*  
*Actaea eburnea*, see *A. pachypoda*  
*Actaea spicata*, see *A. rubra*  
*Actaea spicata* ssp. *rubra*, see *A. rubra* ssp. *rubra*  
*Actinea acaulis*, see *Tetraneuris acaulis* var. *arizonica*  
*Actinea argentea*, see *Tetraneuris argentea*  
*Actinea richardsoni*, see *Hymenoxys richardsonii* var. *richardsonii*  
*Actinea scaposa*, see *Tetraneuris argentea*  
*Actinella richardsoni*, see *Hymenoxys richardsonii*  
*Acuan illinoensis*, see *Desmanthus illinoensis*  
*Adenostoma fasciculatum*, see *A. fasciculatum*  
*Adiantum jordani*, see *A. jordanii*  
*Adiantum pedatum* var. *aleuticum*, see *A. aleuticum*  
*Aesculus arguta*, see *A. glabra* var. *arguta*  
*Aesculus californicus*, see *A. californica*  
*Aesculus octandra*, see *A. flava*  
*Agastache anethiodora*, see *A. foeniculum*  
*Agastache neo(-)mexicana*, see *A. pallidiflora* ssp. *neomexicana* var. *neomexicana*  
*Agastache scrophulariaefolia*, see *A. scrophulariifolia*  
*Agastrache*, see *Agastache*  
*Agave couesii*, see *A. parryi*  
*Agave virginica*, see *Manfreda virginica*  
*Agoseris gracilens*, see *A. aurantiaca*  
*Agoseris purpurea*, see *A. aurantiaca* var. *purpurea*  
*Agoseris villosa*, see *A. glauca*  
*Agropyron occidentale*, see *Pascopyrum smithii*  
*Agropyron repens*, see *Elytrigia repens* var. *repens*  
*Agropyron smithii*, see *Pascopyrum smithii*  
*Agropyron spicatum*, see *Pseudoroegneria spicata* ssp. *spicata*  
*Agropyron tenerum*, see *Elymus trachycaulus* ssp. *trachycaulus*  
*Agropyron trachycaulum*, see *Elymus trachycaulus* ssp. *trachycaulus*  
*Agrostis cryptandra*, see *Sporobolus cryptandrus*  
*Alium acuminatum*, see *Allium acuminatum*  
*Alium bolanderi*, see *Allium bolanderi*  
*Allionia coccinea*, see *Mirabilis coccinea*  
*Allionia nyctaginea*, see *Mirabilis nyctaginea*  
*Allium schoenoprosium* var. *sibiricum*, see *A. schoenoprasum* var. *sibiricum*  
*Allium cernuum*, see *A. cernuum*  
*Allium deserticola*, see *A. macropetalum*  
*Allium deserticum*, see *A. macropetalum*  
*Allium drummondii*, see *A. drummondii*  
*Allium mutabile*, see *A. canadense* var. *mobile*  
*Allium nuttalli(i)*, see *A. drummondii*  
*Allium palmeri*, see *A. bisceptrum* var. *palmeri*  
*Allium recurvatum*, see *A. cernuum* var. *obtusum*  
*Allium sabulicola*, see *A. geyeri* var. *tenerum*  
*Allium sibiricum*, see *A. schoenoprasum* var. *sibiricum*  
*Alnus crispa*, see *A. viridis* ssp. *crispa*  
*Alnus crispa* ssp. *sinuata*, see *A. viridis* ssp. *sinuata*  
*Alnus fruticosa*, see *A. viridis* ssp. *sinuata*  
*Alnus mollis*, see *A. viridis* ssp. *crispa*  
*Alnus oregana*, see *A. rubra*  
*Alnus oregona*, see *A. rubra*  
*Alnus rugosa* (var. *americana*), see *A. incana* ssp. *rugosa*  
*Alnus sinuata*, see *A. viridis* ssp. *sinuata*  
*Alnus sitchensis*, see *A. viridis* ssp. *sinuata*  
*Alnus tenuifolia*, see *A. incana* ssp. *tenuifolia*  
*Alocasia macrorrhiza*, see *A. macrorrhizos*  
*Alopecurus aristulatus*, see *A. aequalis* var. *aequalis*  
*Althaea rosea*, see *Alcea rosea*  
*Alycine apios*, see *Apios tuberosum*  
*Alyxia clivaeformis*, see *A. oliviformis*  
*Amaranth*, see *Amaranthus*  
*Amaranthus graecizans*, see *A. albus*  
*Amaranthus hybridus paniculatus*, see *A. cruentus*  
*Amaranthus paniculatus*, see *A. cruentus*  
*Amaranthus torreyi*, see *A. arenicola*  
*Amarantus*, see *Amaranthus*  
*Amblogyne torreyi*, see *Amaranthus arenicola*  
*Ambrosia artemisiaefolia*, see *A. artemisiifolia*  
*Ambrosia artemisiifolia*, see *A. artemisiifolia*  
*Ambrosia elatior*, see *A. artemisiifolia* var. *elatior*  
*Amelanchier*, see *Amelanchier*  
*Amelanchier cusickii*, see *A. alnifolia* var. *cusickii*

- Amelanchier florida*, see *A. alnifolia* var. *semiintegrifolia*  
*Amelanchier huronensis*, see *A. sanguinea* var. *sanguinea*  
*Amelanchier mormonica*, see *A. utahensis* ssp. *utahensis*  
*Amelanchier oblongifolia*, see *A. arborea* var. *arborea*  
*Amelanchier prunifolia*, see *A. utahensis*  
*Amelanchier spicata*, see *A. stolonifera*  
*Amelanchier utahensis*, see *A. utahensis*  
*Amelanchier venulosa*, see *A. utahensis*  
*Amianthium muscaetoxicum*, see *A. muscitoxicum*  
*Ammobroma sonora*, see *Pholisma sonora*  
*Ammodenia peploides major*, see *Honckenia peploides* ssp. *major*  
*Amoracia lapathifolia*, see *A. rusticana*  
*Amorpha angustifolia*, see *A. fruticosa*  
*Amorpha fragrans*, see *A. fruticosa*  
*Amorpha microphyllum*, see *A. nana*  
*Ampelopsis quinquefolia*, see *Parthenocissus quinquefolia* var. *quinquefolia*  
*Amphicarpa bracteata*, see *Amphicarpaea bracteata*  
*Amphicarpa monoica*, see *Amphicarpaea bracteata*  
*Amphicarpa pitcheri*, see *Amphicarpaea bracteata*  
*Amphicarpaea monoica*, see *A. bracteata*  
*Amsinckia parviflora*, see *A. lycopoides*  
*Amsinckia tessellata*, see *A. tessellata*  
*Amsinckia*, see *Amsinckia*  
*Amsonia brevifolia*, see *A. tomentosa* var. *tomentosa*  
*Anacharis canadensis*, see *Elodea canadensis*  
*Andromeda glaucophylla*, see *A. polifolia* var. *glaucophylla*  
*Andropogon furcatus*, see *A. gerardii*  
*Andropogon saccharoides*, see *Bothriochloa saccharoides*  
*Andropogon scoparius*, see *Schizachyrium scoparium* ssp. *scoparium*  
*Anemone globosa*, see *A. multifida* var. *globosa*  
*Anemone nuttalliana*, see *Pulsatilla patens* ssp. *multifida*  
*Anemone occidentalis*, see *Pulsatilla occidentalis*  
*Anemone patens* (var. *wolfgangiana*), see *Pulsatilla patens* ssp. *multifida*  
*Anemone pennsylvanicum*, see *A. canadensis*  
*Angelica hendersonii*, see *A. tomentosa* var. *hendersonii*  
*Angelica lineariloba*, see *A. lineariloba*  
*Anisostichus capreolata*, see *Bignonia capreolata*  
*Anogra albicaulis*, see *Oenothera albicaulis*  
*Anogra pallida*, see *Oenothera pallida* ssp. *pallida*  
*Anogra runcinata*, see *Oenothera pallida* ssp. *runcinata*  
*Antennaria aprica*, see *A. parvifolia*  
*Antennaria margaritacea*, see *Anaphalis margaritacea*  
*Antennaria neodioica*, see *A. howellii* ssp. *neodioica*  
*Antennaria parviflora*, see *A. parvifolia*  
*Anthemis nobilis*, see *Chamaemelum nobile*  
*Anthemus*, see *Anthemis*  
*Anthericum torreyi*, see *Echeandia flavescens*  
*Antidesma pulvinatum*, see *A. pulvinatum*  
*Aphyllon fasciculatum*, see *Orobancha fasciculata*  
*Apios apios*, see *A. americana*  
*Apios (t)uberosa*, see *A. americana*  
*Apium graveolum*, see *A. graveolens*  
*Aplopappus gracilis*, see *Machaeranthera gracilis*  
*Aplopappus heterophyllus*, see *Isocoma pluriflora*  
*Aplopappus lanuginosus*, see *Stenotus lanuginosus* var. *lanuginosus*  
*Aplopappus nanus*, see *Ericameria nana*  
*Aplopappus nuttallii*, see *Machaeranthera grindelioides* var. *grindelioides*  
*Aplopappus palmeri*, see *Ericameria palmeri* var. *palmeri*  
*Aplopappus propinquus*, see *Ericameria brachylepis*  
*Aplopappus squarrosus* ssp. *grindelioides*, see *Hazardia squarrosa* var. *squarrosa*  
*Apocynum androsaemifolium* var. *nevadense*, see *A. cannabinum*  
*Apocynum androsaemilifolium*, see *A. androsaemifolium*  
*Apocynum angustifolium*, see *A. cannabinum*  
*Apocynum cannabinum*, see *A. cannabinum*  
*Apocynum hypericifolium*, see *A. cannabinum*  
*Apocynum medium*, see *A. xfloribundum*  
*Apocynum pubescens*, see *A. cannabinum*  
*Apocynum sibiricum* var. *salignum*, see *A. cannabinum*  
*Apocynum suksdorfii* var. *angustifolium*, see *A. cannabinum*  
*Apocynum viride*, see *A. cannabinum*  
*Aquilegia truncata*, see *A. formosa* var. *formosa*  
*Arabis drummondii*, see *A. drummondii*  
*Arabis hoelboellii*, see *A. holboellii*  
*Arachis hypogaeae*, see *A. hypogaea*  
*Aragallus lagopus*, see *Oxytropis lagopus*  
*Aralia medicinalis*, see *A. nudicaulis*  
*Aralia nudicaulis*, see *A. nudicaulis*  
*Aralia trifolia*, see *Panax trifolius*  
*Arbor vitae*, see *Thuja occidentalis*  
*Arctostaphylos*, see *Arctostaphylos*  
*Arctostachylos*, see *Arctostaphylos*  
*Arctostaphulos*, see *Arctostaphylos*  
*Arctos(-)taphyl(1)os*, see *Arctostaphylos*  
*Arctostaphylos cinerea*, see *A. xcinerea*  
*Arctostaphylos mariposa*, see *A. viscida* ssp. *mariposa*  
*Arctostaphylos parryi*, see *A. parryana*  
*Arctostaphylos*, see *Arctostaphylos*  
*Arctostaphylos*, see *Arctostaphylos*  
*Ardisia escallonioides*, see *A. escallonioides*  
*Arenaria confusa*, see *A. lanuginosa* ssp. *saxosa*  
*Arenaria peploides*, see *Honckenia peploides* ssp. *peploides*  
*Arenaria saxosa*, see *A. lanuginosa* ssp. *saxosa*  
*Argemone intermedia*, see *A. polyanthemus*  
*Argemone platyceras*, see *A. polyanthemus*  
*Argyria tiliifolia*, see *Ipomoea tiliacea*  
*Arisaema atrorubens*, see *A. triphyllum* ssp. *triphyllum*  
*Arisaema quinatum*, see *A. triphyllum* ssp. *quinatum*  
*Aristida divaricata*, see *A. divaricata*  
*Aristida fendleriana*, see *A. purpurea* var. *longiseta*  
*Aristida longiseta*, see *A. purpurea* var. *longiseta*  
*Aristolchia*, see *Aristolochia*  
*Armoracia lapathifolia*, see *A. rusticana*  
*Artemisia*, see *Artemisia*  
*Artemisia aromatica*, see *A. dracuncululus*  
*Artemisia australis* var. *escholsiana*, see *Artemisia australis*  
*Artemisia canadensis*, see *A. campestris* ssp. *borealis* var. *borealis*  
*Artemisia discolor*, see *A. ludoviciana* ssp. *incompta*  
*Artemisia forwoodii*, see *A. campestris* ssp. *caudata*  
*Artemisia glauca*, see *Artemisia dracuncululus* ssp. *glauca*  
*Artemisia gnaphalo(i)des*, see *A. ludoviciana* ssp. *ludoviciana*  
*Artemisia heterophylla*, see *A. furcata* var. *heterophylla*  
*Artemisia ludoviciana*, see *A. ludoviciana*  
*Artemisia ludoviciana*, see *A. ludoviciana*  
*Artemisia mexicana*, see *A. ludoviciana* ssp. *mexicana*  
*Artemisia pacifica*, see *A. campestris* ssp. *pacifica*  
*Artemisia telesii*, see *A. telesii*  
*Artemisia trifida*, see *A. tripartita* ssp. *tripartita*  
*Artemisia unalaskensis*, see *A. vulgaris* var. *kamtschatica*  
*Artemisia vulgaris* var. *heterophylla*, see *A. douglasiana*  
*Artemisia vulgaris* var. *ludoviciana*, see *A. ludoviciana* ssp. *ludoviciana*  
*Artemisia wrightii*, see *A. carruthii*  
*Artemisia*, see *Artemisia*  
*Artocarpus incisa*, see *A. altilis*  
*Arum esculentum*, see *Colocasia esculenta*  
*Aruncus acuminatus*, see *A. dioicus* var. *acuminatus*  
*Aruncus aruncus*, see *A. dioicus* var. *vulgaris*  
*Aruncus sylvester*, see *A. dioicus* var. *vulgaris*  
*Arundinaria macrosperma*, see *A. gigantea*  
*Arundinaria tecta*, see *A. gigantea* ssp. *tecta*  
*Arutostaphylos*, see *Arctostaphylos*  
*Asarum apiifolia*, see *Hexastylis arifolia*  
*Asarum arifolia*, see *Hexastylis arifolia* var. *arifolia*  
*Asarum arifolium*, see *Hexastylis arifolia* var. *arifolia*  
*Asclepias incarnata*, see *Asclepias incarnata*  
*Asclepias syriaca*, see *Asclepias syriaca*  
*Asclepias galioides*, see *A. subverticillata*  
*Asclepias mexicana*, see *A. fascicularis*  
*Asclepias viridis flora*, see *A. viridiflora*  
*Asclepiodora decumbens*, see *Asclepias asperula* ssp. *capricornu*  
*Asclepias syriaca*, see *Asclepias syriaca*  
*Ascyrum*, see *Hypericum*

- Ascyrum crux andreae*, see *Hypericum crux-andreae*  
*Ascyrum hypericoides*, see *Hypericum hypericoides* ssp. *hypericoides*  
*Ascyrum linifolium*, see *Hypericum hypericoides* ssp. *hypericoides*  
*Aseyrum*, see *Hypericum*  
*Aspidium acrostichoides*, see *Polystichum acrostichoides*  
*Aspidium cristatum*, see *Dryopteris cristata*  
*Aspidium spinulosum*, see *Dryopteris carthusiana*  
*Asplenium cyclosorum*, see *Athyrium filix-femina* ssp. *cyclosorum*  
*Asplenium filix-femina*, see *Athyrium filix-femina*  
*Asplenium filix-femina*, see *Athyrium filix-femina*  
*Aster arenosus*, see *Chaetopappa ericoides*  
*Aster canescens*, see *Machaeranthera canescens* ssp. *canescens* var. *canescens*  
*Aster cichoriaceus*, see *Machaeranthera canescens* ssp. *glabra* var. *aristata*  
*Aster coerulescens*, see *A. praealtus* var. *coerulescens*  
*Aster commutatus* var. *crassulus*, see *A. falcatus* var. *crassulus*  
*Aster ericaefolius*, see *Chaetopappa ericoides*  
*Aster exilis*, see *A. subulatus* var. *ligulatus*  
*Aster frondosus*, see *Brachyactis frondosa*  
*Aster geyeri*, see *A. laevis* var. *geyeri*  
*Aster hesperius*, see *A. lanceolatus* ssp. *hesperius*  
*Aster incanopilosus*, see *A. falcatus* var. *commutatus*  
*Aster leucanthemifolius*, see *Machaeranthera canescens* ssp. *canescens* var. *leucanthemifolia*  
*Aster leucelene*, see *Chaetopappa ericoides*  
*Aster multiflorus*, see *A. ericoides* var. *ericoides*  
*Aster paniculatus*, see *A. lanceolatus* ssp. *lanceolatus* var. *lanceolatus*  
*Aster parviflorus*, see *Machaeranthera parviflora*  
*Aster salicifolius*, see *A. praealtus* var. *praealtus*  
*Aster spinosus*, see *Chloracantha spinosa*  
*Aster tanacetifolius*, see *Machaeranthera tanacetifolia*  
*Astragalus aboriginum*, see *A. australis*  
*Astragalus caroliniana*, see *A. canadensis* var. *canadensis*  
*Astragalus carolinianus*, see *A. canadensis* var. *canadensis*  
*Astragalus caryocarpus*, see *A. crassicarpus* var. *crassicarpus*  
*Astragalus ceramicus imperfectus*, see *A. ceramicus* var. *filifolius*  
*Astragalus decumbens*, see *A. miser* var. *decumbens*  
*Astragalus diphysus*, see *A. lentiginosus* var. *diphysus*  
*Astragalus haydenianus*, see *A. bisulcatus* var. *haydenianus*  
*Astragalus impensus*, see *A. kentrophyta* var. *elatus*  
*Astragalus jemensis*, see *A. cyaneus*  
*Astragalus junceus*, see *A. convallarius* var. *convallarius*  
*Astragalus matthewsii*, see *A. mollissimus* var. *matthewsii*  
*Astragalus nitidus*, see *A. adsurgens* var. *robustior*  
*Astragalus palans*, see *A. lentiginosus* var. *palans*  
*Astragalus pictus filifolius*, see *A. ceramicus* var. *ceramicus*  
*Astragalus scaposus*, see *A. calycosus* var. *scaposus*  
*Astragalus sonorae*, see *A. humistratus* var. *sonorae*  
*Astragalus canadensis*, see *Astragalus canadensis*  
*Atheropogon curtipendula*, see *Bouteloua curtipendula* var. *curtipendula*  
*Athyrium angustum*, see *A. filix-femina* ssp. *angustum*  
*Athyrium filix-foemina*, see *A. filix-femina*  
*Atragene pseudalpina*, see *Clematis columbiana* var. *columbiana*  
*Atriplex argentea*, see *A. argentea*  
*Atriplex bracteosa*, see *A. serenana*  
*Atriplex cornuta*, see *A. argentea*  
*Atriplex expansa*, see *A. argentea* ssp. *expansa*  
*Atriplex jonesii*, see *A. confertifolia*  
*Atriplex philonitra*, see *A. powellii*  
*Audibertias stachyoides*, see *Salvia mellifera*  
*Azalea occidentalis*, see *Rhododendron occidentale* var. *occidentale*  
*Baccharis consanguinea*, see *B. pilularis*  
*Baccharis glutinosa*, see *B. salicifolia*  
*Baccharis viminea*, see *B. salicifolia*  
*Baeria chrysostoma*, see *Lasthenia californica*  
*Bahia neomexicana*, see *Schkuhria multiflora*  
*Bahia oppositifolia*, see *Picradeniopsis oppositifolia*  
*Bahia woodhousei*, see *Picradeniopsis woodhousei*  
*Balsamorhiza hirsuta*, see *B. hookeri* var. *hirsuta*  
*Balsamorhiza terebinthacea*, see *B. xterebinthacea*  
*Balsamorhiza*, see *Balsamorhiza*  
*Baptisia leucantha*, see *B. alba* var. *macrophylla*  
*Batis vermiculata*, see *Sarcobatus vermiculatus*  
*Beckmannia erucaeformis*, see *B. syzigachne*  
*Beloperone californica*, see *Justicia californica*  
*Benzoin aestivale*, see *Lindera benzoin* var. *benzoin*  
*Benzoin*, see *Lindera*  
*Berberis aquifolium*, see *Mahonia aquifolium*  
*Berberis nervosa*, see *Mahonia nervosa* var. *nervosa*  
*Berberis aquifolium*, see *Mahonia aquifolium*  
*Berberis dictyota*, see *Mahonia dictyota*  
*Berberis fremontii*, see *Mahonia fremontii*  
*Berberis fremontii*, see *Mahonia fremontii*  
*Berberis haematocarpa*, see *Mahonia haematocarpa*  
*Berberis nervosa*, see *Mahonia nervosa* var. *nervosa*  
*Berberis pinnata*, see *Mahonia pinnata* ssp. *pinnata*  
*Berberis repens*, see *Mahonia repens*  
*Berberis* sp., see *Berberis* sp., and *Mahonia* sp.  
*Betula alba*, see *B. pubescens* ssp. *pubescens*  
*Betula alba* (var. *papyrifera*), see *B. papyrifera*  
*Betula excelsa*, see *B. alleghaniensis*  
*Betula exilis*, see *B. nana*  
*Betula fontinalis*, see *B. occidentalis*  
*Betula glandulosa*, see *B. nana*  
*Betula lutea*, see *B. alleghaniensis* var. *alleghaniensis*  
*Betula occidentalis* × *papyrifera*, see *B. occidentalis*  
*Bidens gracilis*, see *B. amplexans*  
*Bidens levis*, see *B. laevis*  
*Bigelovia douglasii* (var. *stenophylla*), see *Chrysothamnus viscidiflorus*  
*Bigelovia graveolens*, see *Chrysothamnus nauseosus*  
*Bigelovia howardii*, see *Chrysothamnus parryi* ssp. *howardii*  
*Bigelovia parishii*, see *Ericameria parishii*  
*Bigelovia graveolens*, see *Chrysothamnus nauseosus*  
*Bignonia crucigera*, see *B. capreolata*  
*Biscutella wislizeni*, see *Dimorphocarpa wislizeni*  
*Bistorta bistortoides*, see *Polygonum bistortoides*  
*Blennosperma californicum*, see *B. nanum*  
*Blepharipappus platyglossus*, see *Layia platyglossa*  
*Blitum capitatum*, see *Chenopodium capitatum* var. *capitatum*  
*Blitum nuttallianum*, see *Monolepis nuttalliana*  
*Bloomeria aurea*, see *B. crocea* var. *aurea*  
*Boebera papposa*, see *Dyssodia papposa*  
*Boerhaavia erecta*, see *Boerhavia erecta*  
*Bossekia parviflora*, see *Rubus parviflorus*  
*Bossekia parvifolia*, see *Rubus parviflorus*  
*Botriochloa saccharoides*, see *Bothriochloa saccharoides*  
*Botrychium virginicum*, see *B. virginianum*  
*Bouteloua cligostachya*, see *B. gracilis*  
*Bouteloua oligostachya*, see *B. gracilis*  
*Boykinia elat(e)a*, see *B. occidentalis*  
*Brassica alba*, see *Sinapis alba*  
*Brassica arvensis*, see *Moricandia arvensis*  
*Brassica campestris*, see *B. rapa* var. *rapa*  
*Brassica geniculata*, see *Hirschfeldia incana*  
*Brassica hirta*, see *Sinapis alba*  
*Brassica kaber*, see *Sinapis arvensis*  
*Brassica napu*, see *B. napus*  
*Brassica oleraceae*, see *B. oleracea*  
*Brauneria angustifolia*, see *Echinacea angustifolia* var. *angustifolia*  
*Brauneria pallida*, see *Echinacea pallida*  
*Brauneria purpurea*, see *Echinacea purpurea*  
*Brayodendron texanum*, see *Diospyros texana*  
*Brickellia grandiflora* var. *minor*, see *Brickellia grandiflora*  
*Brodiaea capitata* (var. *pauciflora*), see *Dichelostemma pulchellum*  
*Brodiaea congesta*, see *Dichelostemma pulchellum*  
*Brodiaea douglasii*, see *Triteleia grandiflora*

# Index of Common Names

Common plant names appearing in the original sources are listed alphabetically and are cross-referenced to the scientific names used in the Catalog of Plants. For brevity, not all common names have been able to be listed. For example, common names that include the genus name used in the Catalog of Plants are not usually listed in this index, so remember that some “common” names are in fact genus names, which are listed alphabetically in the Catalog of Plants. A few examples of such names are asparagus (*Asparagus*), citrus (*Citrus*), dahlia (*Dahlia*), iris (*Iris*), phlox (*Phlox*), and spiraea (*Spiraea*). But when the common name includes a different genus name (e.g., rock spiraea for *Holodiscus discolor*, *H. dumosus*, and *Petrophyton caespitosum*) it is listed. Plants are identified below to the level of species and a particular common name may apply only to a single subspecies or variety of that species. Word division as used in the original sources has been followed when possible, but indexing often required other word divisions. Some misspellings in the original sources have been corrected and some editorial conventions have been adopted to facilitate finding names in the index. Unlike scientific names, common plant names do not follow rules of nomenclature. This index is intended as a handy finding tool rather than as a consistently uniform catalog of common names.

A-a-li-i: *Dodonaea viscosa*

Acid Berry: *Rhus trilobata*

Aconite, Kamchatka: *Aconitum maximum*

Adam and Eve: *Aplectrum hyemale*

Adam's Needle: *Yucca filamentosa*

Adder's Mouth: *Malaxis unifolia*

Adder's Tongue, Yellow: *Erythronium americanum*

Adelia: *Forestiera pubescens*

Agrimony: *Agrimonia gryposepala*, *A. parviflora*

Agueweed: *Gentianella quinquefolia*

Ahahea: *Bobea* sp.

Ahinahina: *Artemisia australis*

Ahuawa: *Cyperus laevigatus*

Airplant: *Catopsis* sp., *Guzmania* sp., *Tillandsia* sp.

Akala: *Rubus hawaiensis*, *R. macraei*

Aki-aki: *Stenotaphrum secundatum*

Akia Launui: *Wikstroemia* sp.

A-koko: *Chamaesyce multiformis*

Ako-lea: *Phegopteris* sp.

A-laa: *Sideroxylon* sp.

Ala-ala-pu-loa: *Waltheria indica*

Ala-ala-waionui-pehu: *Peperomia* sp.

Alabama Supplejack: *Berchemia scandens*

Alaea: *Asplenium horridum*

Alani-kuahiwi: *Pelea* sp.

Alaweo: *Chenopodium oahuense*

Alder: *Alnus* spp., *Cornus sericea*

Alder, Black: *Alnus incana*, *Ilex verticillata*

Alder, Green: *Alnus viridis*

Alder, Hazel: *Alnus serrulata*

Alder, Hoary: *Alnus incana*

Alder, Meadow: *Alnus glutinosa*

Alder, Mountain: *Alnus incana*, *A. rhombifolia*,

*A. viridis*

Alder, Paper Leaf: *Alnus incana*

Alder, Red: *Alnus rubra*

Alder, River: *Alnus incana*

Alder, Sitka: *Alnus viridis*

Alder, Smooth: *Alnus incana*

Alder, Speckled: *Alnus incana*, *A. sp.*

Alder, Thinleaf: *Alnus incana*

Alder, White: *Alnus rhombifolia*, *Clethra acuminata*

Alderleaf Buckthorn: *Rhamnus alnifolia*

Alderleaf Mountain Mahogany: *Cercocarpus*

*montanus*

Alexander, Golden: *Zizia aurea*

Alfalfa: *Medicago sativa*

Alfilaria (or Alfileria): *Erodium cicutarium*

Alga, Tubular Green: *Euteromorpha intestinalis*

Algarrobo: *Prosopis chilensis*

Algerita: *Mahonia fremontii*, *M. haematocarpa*

Alkali Sacaton: *Sporobolus airoides*

Alligatorflag: *Thalia geniculata*

Alligator Tree: *Forestiera acuminata*

Allspice, Carolina: *Calycanthus floridus*

Almond, Desert: *Prunus fasciculata*

Almond, Sweet: *Prunus dulcis*

Aloe: *Agave americana*, *Manfreda virginica*

Alsike Clover: *Trifolium hybridum*

Alumroot, Alpine: *Heuchera cylindrica*

Alumroot, American: *Heuchera americana*

Alumroot, Beautiful: *Heuchera cylindrica*

Alumroot, Bracted: *Heuchera bracteata*

Alumroot, Bridger Mountain: *Heuchera flabellifolia*

Alumroot, Crevice: *Heuchera micrantha*

Alumroot, Littleflower: *Heuchera parviflora*

Alumroot, Littleleaf: *Heuchera parvifolia*

Alumroot, New Mexico: *Heuchera novomexicana*

Alumroot, Pink: *Heuchera rubescens*

Alumroot, Richardson's: *Heuchera richardsonii*

Alumroot, Rough Leaved: *Heuchera cylindrica*

Alumroot, Round Leaved: *Heuchera cylindrica*

Alumroot, Small Flowered: *Heuchera micrantha*

Alumroot, Small Leaved: *Heuchera flabellifolia*

Alyssum, Desert: *Lepidium fremontii*

Amaranth, Bloodroot: *Amaranthus palmeri*

Amaranth, Fringed: *Amaranthus fimbriatus*

Amaranth, Green: *Amaranthus retroflexus*

- Amaranth, Mat: *Amaranthus blitoides*  
Amaranth, Palmer: *Amaranthus palmeri*  
Amaranth, Powell's: *Amaranthus powellii*  
Amaranth, Prostrate: *Amaranthus blitoides*  
Amaranth, Purple: *Amaranthus cruentus*  
Amaranth, Red: *Amaranthus cruentus*  
Amaranth, Redroot: *Amaranthus retroflexus*  
Amaranth, Sandhill: *Amaranthus arenicola*  
Amaranth, Slim: *Amaranthus hybridus*  
Amaranth, Spiny: *Amaranthus spinosus*  
A-mau-mau: *Sadleria cyatheoides*  
Amole: *Yucca glauca*  
Anemone, Mountain: *Pulsatilla occidentalis*  
Anemone, Star: *Trientalis borealis*  
Angelica: *Angelica* spp., *Ligusticum canadense*  
Angelica Tree: *Aralia spinosa*  
Angelic: *Ligusticum canadense*  
Anglepod: *Matelea producta*  
Anglestem Buckwheat: *Eriogonum angulosum*  
Anise: *Osmorhiza occidentalis*, *Perideridia gairdneri*, *P. kelloggii*, *Pimpinella anisum*  
Anise, Sweet: *Osmorhiza occidentalis*, *Perideridia kelloggii*  
Annis: *Perideridia gairdneri*  
Antelope Brush: *Purshia glandulosa*, *P. tridentata*, *Sambucus tridentata*  
Antelope Horns: *Asclepias asperula*  
Apache Plume: *Fallugia paradoxa*  
Ape Keokeo: *Alocasia macrorrhizos*  
Apple: *Malus sylvestris*, *Pyrus* sp.  
Apple, Bake: *Rubus chamaemorus*  
Apple, Cactus: *Opuntia engelmannii*  
Apple, Gopher: *Licania michauxii*  
Apple, Malaysian: *Syzygium malaccense*  
Apple, May: *Matricaria discoidea*, *Podophyllum peltatum*  
Apple, Pond: *Annona glabra*  
Apple, Sweet: *Malus pumila*  
Apple, Thorn: see Thorn Apple  
Apple, Wild: *Malus sylvestris*  
Apricot: *Prunus armeniaca*  
Apricot, Desert: *Prunus fremontii*  
Apricot, Old Field: *Passiflora incarnata*  
Arbor Vitae, American (or Eastern): *Thuja occidentalis*  
Arbor Vitae, Giant: *Thuja plicata*  
Arbutus: *Arbutus menziesii*  
Arbutus, Trailing: *Epigaea repens*  
Argentea: *Atriplex* sp.  
Armoglossum: *Arnoglossum atriplicifolium*  
Arrow Bush: *Pluchea sericea*  
Arrowhead, Arum Leaved: *Sagittaria cuneata*  
Arrowhead, Broad Leaved: *Sagittaria latifolia*  
Arrowhead, Bulltongue: *Sagittaria lancifolia*  
Arrowhead Rattlebox: *Crotalaria sagittalis*  
Arrowleaf: *Sagittaria latifolia*  
Arrowroot: *Balsamorhiza sagittata*, *Thalia geniculata*  
Arrow Seed: *Pluchea sericea*  
Arrow Weed: *Pluchea sericea*  
Arrow Wood: *Cornus canadensis*, *Philadelphus lewisii*, *P.* sp., *Physocarpus capitatus*, *Viburnum acerifolium*, *V. dentatum*, *V. opulus*  
Artichoke, Jerusalem: *Helianthus tuberosus*  
Artichoke, Wild: *Helianthus maximiliani*  
Arum, Arrow: *Peltandra virginica*  
Arum, Water: *Calla palustris*  
Ash: *Fraxinus* spp., *Ptelea trifoliata*  
Ash, Arizona: *Fraxinus velutina*  
Ash, Black: *Fraxinus nigra*  
Ash, Brown: *Fraxinus nigra*  
Ash, Flowering: *Fraxinus cuspidata*  
Ash, Fragrant: *Fraxinus cuspidata*  
Ash, Green: *Fraxinus pennsylvanica*  
Ash, Mountain: see Mountainash  
Ash, Oregon: *Fraxinus latifolia*  
Ash, Red: *Fraxinus pennsylvanica*  
Ash, Singleleaf: *Fraxinus anomala*  
Ash, Velvet: *Fraxinus pennsylvanica*  
Ash, White: *Fraxinus americana*  
Ash, Yellow: *Fraxinus americana*  
Aspen, American: *Populus tremuloides*

 Barley, Mouse: *Hordeum murinum*  
 Barley, Smooth: *Hordeum murinum*  
 Barley, Wild: *Hordeum jubatum*  
 Barratt Willow: *Salix scouleriana*  
 Barrelcactus, California: *Ferocactus cylindraceus*  
 Barrelcactus, Candy: *Ferocactus wislizeni*  
 Barrelcactus, Leconte's: *Ferocactus cylindraceus*  
 Barrel Cactus, Water: *Echinocactus* sp.  
 Basketweed: *Rhus trilobata*  
 Bass-wood: *Tilia americana*  
 Batflower: *Tacca leontopetaloides*  
 Bay, California Rose: *Rhododendron macrophyllum*  
 Bay, Red: *Persea borbonia*  
 Bay, Swamp: *Persea palustris*  
 Bay, Sweet: *Magnolia virginiana*, *Myrica* sp.  
 Bayberry: *Myrica cerifera*, *M. heterophylla*, *M.* sp.  
 Bay Flower: *Commelina dianthifolia*  
 Bayhops: *Ipomoea pes-caprae*  
 Bayonet, Spanish: *Yucca harrimaniae*, *Y. whipplei*  
 Beach Clover: *Trifolium wormskioldii*  
 Beach Greens: *Honckenya peploides*  
 Beachheather: *Hudsonia tomentosa*  
 Beadruby: *Maianthemum canadense*  
 Bean, Black Eyed: *Vigna unguiculata*  
 Bean, Broad: *Vicia faba*  
 Bean, Buffalo: *Thermopsis rhombifolia*  
 Bean, Butter: *Phaseolus lunatus*  
 Bean, Castor: *Ricinus communis*  
 Bean, Cherry: *Phaseolus vulgaris*  
 Bean, Coral: *Erythrina herbacea*  
 Bean, Cranberry: *Phaseolus vulgaris*  
 Bean, Fuzzy: *Strophostyles helvula*  
 Bean, Ground: *Amphicarpaea bracteata*  
 Bean, Horse: *Vicia faba*  
 Bean, Jumping: *Sapium biloculare*  
 Bean, Kidney: *Phaseolus vulgaris*  
 Bean, Lima: *Phaseolus lunatus*  
 Bean, Little Leaf Horse: *Parkinsonia microphylla*  
 Bean, Mescal: *Sophora secundiflora*  
 Bean, Mexican Jumping: *Sapium biloculare*  
 Bean, Navy: *Phaseolus vulgaris*  
 Bean, Pole: *Phaseolus vulgaris*  
 Bean, Screw: *Prosopis glandulosa*, *P. pubescens*  
 Bean, Sea: *Mucuna gigantea*  
 Bean, Sieva: *Phaseolus lunatus*  
 Bean, Slimleaf: *Phaseolus angustissimus*  
 Bean, Tepary: *Phaseolus acutifolius*  
 Bean, Wild: *Amphicarpaea bracteata*, *Apios americana*, *Phaseolus acutifolius*, *P. angustissimus*, *Strophostyles helvula*  
 Bean Salad: *Streptopus roseus*  
 Bearberry: *Arctostaphylos alpina*, *A. nevadensis*, *A. uva-ursi*, *Lonicera involucrata*  
 Beard Tongue: *Penstemon barbatus*, *P. fendleri*, *P. fruticosus*, *P. jamesii*, *P. linarioides*, *P.* sp., *P. virgatus*, *Phlox caespitosa*  
 Beard Tongue, Blue: *Penstemon pachyphyllus*  
 Beardtongue, Broadbeard: *Penstemon angustifolius*  
 Beardtongue, Bush: *Keckiella breviflora*  
 Beardtongue, Chilean: *Penstemon pruinusosus*  
 Beardtongue, Cutleaf: *Penstemon richardsonii*  
 Beardtongue, Eastern Smooth: *Penstemon laevigatus*  
 Beardtongue, Gilia: *Penstemon ambiguus*  
 Beard Tongue, Hairy: *Penstemon fruticosus*, *P. laevigatus*  
 Beardtongue, James's: *Penstemon jamesii*  
 Beardtongue, Large: *Penstemon grandiflorus*  
 Beard Tongue, Narrow: *Penstemon angustifolius*  
 Beard Tongue, Sharp Leaved: *Penstemon acuminatus*  
 Beard Tongue, Slender: *Penstemon gracilis*  
 Beard Tongue, Small Flowered: *Keckiella breviflora*  
 Beardtongue, Thicket: *Penstemon pachyphyllus*  
 Beard Tongue, Torrey: *Penstemon barbatus*  
 Beardtongue, Upright Blue: *Penstemon virgatus*  
 Beardtongue, Woodland: *Nothochelone nemorosa*  
 Bear Root: *Lomatium macrocarpum*  
 Bear's Food: *Lomatium orientale*  
 Bear's Foot: *Smallanthus uvedalia*  
 Beautyberry, American: *Callicarpa americana*  
 Beaver Tail: *Opuntia basilaris*  
 Bedstraw, Fendler's: *Galium fendleri*  
 Bedstraw, Fragrant: *Galium triflorum*  
 Bedstraw, Licorice: *Galium circaezans*  
 Bedstraw, Marsh: *Galium tinctorium*  
 Bedstraw, Northern: *Galium boreale*  
 Bedstraw, Oneflower: *Galium uniflorum*  
 Bedstraw, Rough: *Galium asprellum*  
 Bedstraw, Scented: *Galium triflorum*  
 Bedstraw, Shining: *Galium concinnum*  
 Bedstraw, Small: *Galium tinctorium*, *G. trifidum*, *G. triflorum*  
 Bedstraw, Stiff Marsh: *Galium tinctorium*  
 Bedstraw, Sweet: *Galium triflorum*  
 Bedstraw, Threepetal: *Galium trifidum*  
 Beebalm, Lemon: *Monarda citriodora*  
 Beebalm, Mintleaf: *Monarda fistulosa*  
 Beebalm, Pony: *Monarda pectinata*  
 Beebalm, Scarlet: *Monarda didyma*  
 Beebalm, Spotted: *Monarda punctata*  
 Beebalm, Wildbergamot: *Monarda fistulosa*  
 Beeblossom, Scarlet: *Gaura coccinea*  
 Beebrush, Wright's: *Aloysia wrightii*  
 Beech: *Fagus grandifolia*  
 Beech Drops: *Epifagus virginiana*  
 Beefsteakplant: *Perilla frutescens*  
 Bee Plant: *Cleome serrulata*, *Scrophularia californica*  
 Bee Plant, Rocky Mountain: *Cleome serrulata*  
 Beet: *Beta vulgaris*  
 Beetleweed: *Galax urceolata*  
 Bee Weed, Rocky Mountain: *Cleome serrulata*  
 Bee Weed, Sonora: *Cleome multicaulis*  
 Beggar Lice: *Hackelia virginiana*  
 Beggar Louse: *Desmodium paniculatum*  
 Beggartick, Crowned: *Bidens coronata*  
 Beggartick, Smooth: *Bidens laevis*  
 Bellflower: *Campanula parryi*, *Uvularia sessilifolia*  
 Bellflower, American: *Campanulastrum americanum*  
 Bellflower, Arctic: *Campanula uniflora*  
 Bellflower, Bluebell: *Campanula rotundifolia*  
 Bellflower, Blue Marsh: *Campanula aparinoides*  
 Bellflower, One Flowered: *Campanula uniflora*  
 Bellflower, Parry's: *Campanula parryi*  
 Bellflower, Small Bonny: *Campanula divaricata*  
 Bellflower, Tall: *Campanulastrum americanum*  
 Bellwort: *Disporum smithii*, *Uvularia grandiflora*  
 Bellwort, Large Flowered: *Uvularia grandiflora*  
 Bellwort, Perfoliate: *Uvularia perfoliata*  
 Bellwort, Sessile Leaved: *Uvularia sessilifolia*  
 Beloperone: *Justicia californica*  
 Benne Plant: *Sesamum orientale*  
 Bentgrass, Upland: *Agrostis perennans*  
 Bergamot, Wild: *Monarda fistulosa*  
 Betony: *Stachys rothrockii*  
 Betony, Wood: *Pedicularis bracteosa*, *P. canadensis*, *P. lanceolata*, *P. racemosa*  
 Bicknell's Thorn: *Crataegus chrysoarpa*  
 Big Root: *Balsamorhiza sagittata*, *Ipomoea leptophylla*, *Marah oreganus*  
 Bilberry: *Vaccinium cespitosum*, *V. vitis-idaea*  
 Bilberry, Bog: *Vaccinium uliginosum*  
 Bilberry, Mountain: *Vaccinium membranaceum*

Pine, White: *Pinus monticola*, *P. strobus*  
Pine, White Bark: *Pinus albicaulis*  
Pine, Yellow: *Pinus echinata*, *P. ponderosa*  
Pineapple: *Ananas comosus*  
Pineapple Weed: *Matricaria discoidea*  
Pine Drops: *Pterospora andromedea*  
Pinesap: *Monotropa hypopithys*  
Pinetorum: *Androsace* sp.  
Piney Weed: *Hypericum gentianoides*  
Pingue (or Pingwing): *Hymenoxys richardsonii*  
Pink, American Moss: *Phlox subulata*  
Pink, Marsh: *Sabatia campanulata*  
Pink, Rose: *Sabatia angularis*  
Pink Plume: *Geum triflorum*, *Polygonum bistorta*  
Pink Root: *Ivesia gordonii*  
Pinkroot, West Indian: *Spigelia anthermia*  
Pinkroot, Woodland: *Spigelia marilandica*  
Piñon: see Pine, Piñon; and Pine, Pinyon; see also  
Pinyon  
Pinweed: *Lechea minor*, *Lechea* sp.  
Pinyon: see Pine, Pinyon; and Pine, Piñon  
Pinyon Groundsmoke: *Gayophytum ramosissimum*  
Pipe Stem: *Clematis lasiantha*  
Pipe Vine: *Aristolochia macrophylla*, *A.* sp.  
Pipeweed: *Eriogonum inflatum*  
Pipissewa (or Pipsissewa, or Pipssewa): *Chimaphi-  
la umbellata*  
Pitahaya: *Stenocereus thurberi*  
Pitahaya Agria: *Machaerocereus gummosus*  
Pitahayita: *Peniocereus striatus*  
Pitcher Plant: *Sarracenia purpurea*  
Pitcherplant, California: *Darlingtonia californica*  
Plantain, American: *Plantago major*  
Plantain, Blackseed: *Plantago rugelii*  
Plantain, Bracted: *Plantago aristata*  
Plantain, Broad Leaved: *Plantago major*  
Plantain, English: *Plantago lanceolata*  
Plantain, Green: *Plantago major*  
Plantain, Ground: *Plantago major*  
Plantain, Heartleaf: *Plantago cordata*  
Plantain, Largebracted: *Plantago aristata*  
Plantain, Mexican: *Plantago australis*  
Plantain, Narrowleaf: *Plantago lanceolata*  
Plantain, Rattlesnake: *Goodyera oblongifolia*,  
*G. pubescens*, *G. repens*  
Plantain, Robin's: *Erigeron pulchellus*  
Plantain, Rugel's: *Plantago rugelii*  
Plantain, Sagebrush: *Plantago patagonica*  
Plantain, Seashore: *Plantago macrocarpa*  
Plantain, Swarf: *Plantago virginica*  
Plantain, Virginia: *Plantago virginica*  
Plantain, White: *Antennaria plantaginifolia*  
Plantain, Woolly: *Plantago patagonica*  
Plantain Lily: *Hosta lancifolia*  
Pleurisy Root: *Asclepias tuberosa*  
Plum, American: *Prunus americana*  
Plum, Canada: *Prunus nigra*  
Plum, Chickasaw: *Prunus angustifolia*  
Plum, Ground: *Astragalus crassicaarpus*, *A.* sp.  
Plum, Hog: *Ximenia americana*  
Plum, Indian: *Oemleria cerasiformis*  
Plum, Klamath: *Prunus subcordata*  
Plum, Low: *Prunus gracilis*  
Plum, Oklahoma: *Prunus gracilis*  
Plum, Pigeon: *Coccoloba diversifolia*  
Plum, Red: *Prunus subcordata*  
Plum, Sierra: *Prunus subcordata*
